

bred, non-releaseable adult shortnose sturgeon from the Virginia Living Museum for the maintenance and educational display of those specimens. Both displays would be used to increase public awareness of the shortnose sturgeon and its status by educating the public on shortnose sturgeon life history and the reasons for the species decline. The proposed projects to display endangered cultured shortnose sturgeon responds directly to a recommendation from the NMFS recovery plan outline for this species. The permits would not authorize any takes from the wild, nor would it authorize any release of captive sturgeon into the wild. The permits are requested for a duration of 5 years.

Dated: March 15, 2011.

DATES: Effective Date 4 March 2011.

ADDRESSES: ESS/PK; 2261 Hughes Ave., Ste. 163, Lackland AFB, TX 78236-98612.

FOR FURTHER INFORMATION CONTACT: Sharon Money, Contracting Officer, 772d ESS/PKA, 2261 Hughes Ave., Ste. 163, Lackland AFB, TX 78236-98612.

SUPPLEMENTARY INFORMATION: Section 1605 of the Recovery Act requires that no appropriated funds may be used for the construction, alteration, maintenance, or repair of a public building or public work unless all of the iron, steel, and manufactured goods used in the project are produced in the United States, or unless a waiver is granted by the head of the Federal department or agency. A waiver may be granted if the head of the Federal department or agency determines that one of three exceptions applies: (1) The application of Section 1605 requirements would be inconsistent with the public interest; (2) the iron, steel, or relevant manufactured good is not produced in the United States in sufficient and reasonably available quantities and of satisfactory quality; or (3) the cost of domestic iron, steel or relevant manufactured goods will increase the cost of the overall project by more than 25 percent.

In accordance with Section 1605(c) of the Recovery Act, the Senior Center Contracting Official (SOCO) 772d ESS/PK has determined that the above items of manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality.

The domestic nonavailability determination for these products is based on extensive market research and thorough investigation of the domestic manufacturing landscape. This research identified that these products are manufactured almost exclusively in China.

Sharon L. Money,

Contracting Officer, 772d Enterprise Sourcing Squadron.
