SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Endangered Species Act of 1973, as amended (ESA; 16 U.C.S. 1531 et seq.) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR 222–226).

The Virginia Living Museum [File No. 16266] is requesting a permit to continue enhancement activities previously authorized under Permit No. 1473. Activities would include the continued maintenance and educational display of eight captive-bred, non-releasable adult shortnose sturgeon, as well as the transport of four shortnose sturgeon to the Maritime Aquarium at Norfolk. The Maritime Aquarium at Norwalk [File No. 16291] is requesting a permit to continue enhancement activities provided under Permit No. 1472. Activities would include the acquisition of four captive-
bored, non-releaseable adult shortnose sturgeon from the Virginia Living Museum for the maintenance and educational display of those specimens. Both displays would be used to increase public awareness of the shortnose sturgeon and its status by educating the public on shortnose sturgeon life history and the reasons for the species decline. The proposed projects to display endangered cultured shortnose sturgeon responds directly to a recommendation from the NMFS recovery plan outline for this species. The permits would not authorize any takes from the wild, nor would it authorize any release of captive sturgeon into the wild. The permits are requested for a duration of 5 years.

Dated: March 15, 2011.

P. Michael Payne,
Chief, Permits, Conservation and Education Division, Office of Protected Resources, National Marine Fisheries Service.
