Proposed Collection, Comment Request

Action: Notice.

Summary: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed extension of the Quarterly Census of Employment and Wages Program. A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed below in the ADDRESSES section of this notice.

Dates: Written comments must be submitted to the office listed in the ADDRESSES section of this notice on or before May 23, 2011.

ADDRESSES: Send comments to Carol Rowan, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue NE, Washington, DC 20212. Written comments also may be transmitted by fax to 202–691–7628 (this is not a toll free number).

Supplementary Information:

I. Background

The Quarterly Census of Employment and Wages (QCEW) program, a Federal/State cooperative effort, produces monthly employment and quarterly wage information. It is a by-product of quarterly reports submitted to State Workforce Agencies (SWAs) by employers subject to State Unemployment Insurance (UI) laws. The collection of these data is authorized by 29 USC 1, 2. The QCEW data, which are compiled for each calendar quarter, provide a comprehensive business name and address file with employment and wage information for employers subject to State UI laws. Similar data for Federal Government employers covered by the Unemployment Compensation for Federal Employees program also are included.

These data are submitted to the BLS by all 50 States, the District of Columbia, Puerto Rico, and the Virgin Islands. The BLS summarizes these data to produce totals for all counties, Metropolitan Statistical Areas (MSAs), the States, and the nation. The QCEW program provides a virtual census of nonagricultural employees and their wages, with about 55 percent of the workers in agriculture covered as well. The QCEW program is a comprehensive and accurate source of data on the number of establishments, monthly employment, and quarterly wages, by industry, at the six-digit North American Industry Classification System (NAICS) level, and at the national, State, MSA and county levels. The QCEW series has broad economic significance in measuring labor trends.

II. Description of the Program and the Information Collection Activity

A. Source of the Information

Wages and other employment data are collected administratively from Federal, State, and local government employers covered by the UI laws. The QCEW program provides the BLS with records of nonagricultural employees and their wages. It is a by-product of quarterly reports submitted to State Workforce Agencies (SWAs) by employers subject to State UI laws. Similar data for Federal Government employers covered by the Unemployment Compensation for Federal Employees program also are included. These data are submitted to the BLS by all States, the District of Columbia, Puerto Rico, and the Virgin Islands.

B. The Existing Information Collection

The existing information collection is the Quarterly Census of Employment and Wages Program.

C. The OMB PRA95 Clearance

The Bureau of Labor Statistics is requesting OMB clearance for these data collections.

III. Agency Requirements

The data collection is described in Bureau of Labor Statistics, unpublished data files. The data are compiled for each calendar quarter. The data are constrained by State, MSA, and county boundaries. The questionnaire is available on the BLS web site at http://www.bls.gov/cew/.

IV. Other Information Sources

A. Annual data are collected from businesses through the Annual Survey of Manufacturers, the Department of Commerce’s Statistical Abstract of the United States, the Internal Revenue Service’s Tax Statistics, and other Federal, State, and local government sources.

B. The Employment and Earnings database is available on the BLS web site at http://www.bls.gov/cew/.

D. The Longitudinal Employer-Household Dynamics program is available on the BLS web site at http://www.bls.gov/lsd/.

V. Burden Statement

The estimated total annual burden is 259,049 hours for 9,788 respondents, including Federal government employees.

For additional information, see the Federal Register notice at http://www.bls.gov/news.release/cwage.t20.htm.

VI. Certification

I, Carol Rowan, the BLS Clearance Officer, certify that the proposed collections of information are necessary for the proper performance of BLS statistical activities and do not impose an unreasonable burden on employers. The certification is based on the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), the Uniform Reliability and Transparency in Regulatory Information Collection Act (Public Law 110–5, 44 U.S.C. 3517), and the OMB’s 2002 Guidelines for a PRA95 Submission (Uniform 95).
