

Estuarine Research Reserve contains the collective vision, mission, goals, and objectives of the reserve; updates the reserve boundary; as well as outlines plans for facility use and development to support reserve operations. The objectives described in this plan address the most critical coastal issues of the reserve related to water quality (non-point source pollution), invasive species, habitat loss and regional ecosystem impacts of climate change. Since the last approved management plan in 2000, the reserve has become fully staffed; added a Coastal Training Program that delivers science-based information to key decisionmakers; and developed partnerships to continue to restore and protect land and waters in the Old Woman Creek watershed. In addition to programmatic and staffing advances, the reserve has completed construction of a new dormitory, boathouse, and administrative spaces.

This management plan includes a boundary expansion of 2.2 acres. This land was incorporated with the State nature preserve in 2004 and is subject to all protection afforded by Ohio laws governing State nature preserves. The additional parcel is adjacent to the reserve's southwestern boundary and consists of early successional habitat (e.g., various *Cornus* sp.) and will become an area dominated by mixed hardwoods. Incorporating these lands increases the size of the reserve to 573 acres. This plan can be accessed for review at: <http://www.oldwomancreek.org>.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene

again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

As it relates to any qualifying facility filings, the notices of self-certification [or self-recertification] listed above, do not institute a proceeding regarding qualifying facility status. A notice of self-certification [or self-recertification] simply provides notification that the entity making the filing has determined the facility named in the notice meets the applicable criteria to be a qualifying facility. Intervention and/or protest do not lie in dockets that are qualifying facility self-certifications or self-recertifications. Any person seeking to challenge such qualifying facility status may do so by filing a motion pursuant to 18 CFR 292.207(d)(iii). Intervention and protests may be filed in response to notices of qualifying facility dockets other than self-certifications and self-recertifications.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call
