II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to amend Phlx Rule 1079 (FLEX Index, Equity and Currency Options) to extend a pilot program that eliminates minimum value sizes for FLEX Options (the “Pilot Program” or “Pilot”).

Rule 1079 deals with the process of listing and trading FLEX equity, index, and currency options on the Exchange. Rule 1079(a)(8)(A) currently sets the minimum opening transaction value size in the case of a FLEX Option in a newly established (opening) series if there is no open interest in the particular series when an Request-for-Quote (“RFQ”) is submitted (except as provided in Commentary .01 to Rule 1079): (i) \$10 million underlying equivalent value, respecting FLEX market index options, and \$5 million underlying equivalent value respecting FLEX industry index options;⁵ (ii) the lesser of 250 contracts or the number of contracts overlying \$1 million in the underlying securities, with respect to FLEX equity options (together the “minimum value size”).⁶

Presently, Commentary .01 to Rule 1079 states that by virtue of the Pilot Program ending March 28, 2011, there shall be no minimum value size requirements for FLEX Options as noted

⁵ Market index options and industry index options are broad-based index options and narrow-based index options, respectively. See Rule 1000A(b)(11) and (12).

⁶ Subsection (a)(8)(A) also provides a third alternative: (iii) 50 contracts in the case of FLEX currency options. However, this alternative is not part of the Pilot Program.
