SUPPLEMENTARY INFORMATION:
Title: 30 CFR Part 291, Open and Nondiscriminatory Access to Oil and Gas Pipelines under the OCS Lands Act. OMB Control Number: 1010–0172.

Abstract: The Outer Continental Shelf (OCS) Lands Act (43 U.S.C. 1331 et seq.), as amended, requires the Secretary of the Interior to preserve, protect, and develop OCS oil, gas, and sulphur resources; make such resources available to meet the Nation’s energy needs; balance orderly energy resources development with protection of the human, marine, and coastal environments; ensure the public a fair and equitable return on the resources offshore; and preserve and maintain free enterprise competition.

Section 1334(f)(1) states “Except as provided in paragraph (2), every permit, license, easement, right-of-way, or other grant of authority for the transportation by pipeline on or across the outer Continental Shelf of oil or gas shall require that the pipeline be operated in accordance with the following competitive principles: (A) The pipeline must provide open and nondiscriminatory access to both owner and non-owner shippers* * * *”

Ensuring open and nondiscriminatory access to pipelines is among the responsibilities delegated to BOEMRE, which replaced the Minerals Management Service on June 18, 2010. In order to provide shippers with a methodology to file complaints alleging denial of access or that access is discriminatory access, the BOEMRE promulgated regulations at 30 CFR Part 291. The BOEMRE will use the information submitted during the complaint process to determine whether the shipper has been denied such access or to initiate a more detailed investigation into the specific circumstances of the complainant’s allegation. The complaint information will be provided to the alleged offending party. The BOEMRE may request additional information upon completion of the initial investigation.

We will protect information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR Part 2). No items of a sensitive nature are collected. Responses are required to obtain a benefit.

Frequency: The frequency is on occasion.

Description of Respondents: Shippers that do business on the OCS and companies that pay royalties on the OCS.

Estimated Annual Reporting and Recordkeeping Hour Burden: The estimated annual burden for this collection is 51 hours. Refer to the table below for a break down of the complete burden. This includes the time for reviewing instructions, gathering and maintaining data, and completing and reviewing the information.

Estimated Annual Reporting and Recordkeeping Non-Hour Cost Burden: We have identified a “non-hour” cost burden of $7,500, which is a nonrefundable fee for each complaint submitted to recover the Federal Government’s processing costs.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, et seq.) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, you are not obligated to respond.

Comments: Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, et seq.) requires each agency to provide notice and otherwise consult with members of the public and affected agencies concerning each proposed collection of information.

Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

To comply with the public consultation process, on September 20, 2010, we published a Federal Register notice (75 FR 57285) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. The PRA (5 U.S.C. 1320) informs the public that they may comment at any time on the collection of information and BOEMRE provides the address to which they should send comments. We received one comment, but it did not pertain to the information collection; therefore, no change was made in the burden estimate.

If you wish to comment in response to this notice, you may send your comments to the offices listed under the ADDRESSES section of this notice. The OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by April 28, 2011.

Public Availability of Comments: Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
