Kahawai Power 4, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On March 1, 2011, Kahawai Power 4, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Kekaha Waimea Water Power Project, which would utilize water flows from the existing Kekaha Ditch Irrigation System near the town of Waimea, Kauai County, Hawaii. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) A 30-foot by 8-foot intake structure on the existing Kekaha ditch; (2) a 2,180-foot-long, 36-inch-diameter steel penstock (sections to be buried); (3) a 40-foot-long by 55-foot-wide powerhouse containing a single 1.5-megawatt turbine generator with a maximum hydraulic capacity of 50 cubic-feet-per-second, and an adjacent substation; (4) a 35-foot-long, 10-foot-wide tailrace channel that discharges project flows to the Waimea River; (5) a new 610-foot-long, gravel road to access the powerhouse location; (6) a 2-mile-long, 69-kilovolt transmission line interconnecting the project's substation to the existing Kaumakani substation; and (7) appurtenant facilities. The estimated annual generation of the Kekaha Waimea Water Power Project would be 8.7 gigawatt-hours.
