Agency Information Collection Activities: Proposed Collection; Comment Request

In compliance with the requirements of Section 3506(c)(2)(A) of Public Law 104-13, the Paperwork Reduction Act of 1995, the Health Resources and Services Administration publishes summaries of proposed data collection projects for public comment. Comments are invited regarding the following: (a) The necessity of the proposed collection of information for the proper performance of the functions of the agency; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Proposed Project: Teaching Health Center Graduate Medical Education (GME) Program—NEW

The Teaching Health Center Graduate Medical Education (GME) program (Section 340H of the Public Health Service Act) was established by Section

5508 of Public Law 111-148, the Patient Protection and Affordable Care Act. The program supports training for primary care residents (including residents in family medicine, internal medicine, pediatrics, internal medicine-pediatrics, obstetrics and gynecology, psychiatry, general dentistry, pediatric dentistry, and geriatrics) in community-based ambulatory patient care settings.

The statute provides that eligible Teaching Health Centers receive payments for both direct and indirect costs associated with training residents in community-based ambulatory patient care centers. Direct payments are designed to compensate eligible Teaching Health Centers for those expenses directly associated with resident training, while indirect payments are intended to compensate for the additional costs of training residents in such programs. Payments are made at the beginning of the funding cycle; however, the statute provides for a reconciliation process, through which overpayments may be recouped and underpayments may be adjusted at the end of the fiscal year. This data collection instrument will gather information relating to the numbers of residents in Teaching Health Center GME training programs in order to reconcile payments for both direct and indirect costs.

The annual estimate of burden is as follows:

Form	Number of respondents	Responses per respondent	Total responses	Hours per response	Total burden hours
Reconciliation form	11	1	11	10	110
Total	11	11	10	110

To request more information on this proposed project or to obtain a copy of the draft data collection plans and instruments, e-mail paperwork@hrsa.gov or call the HRSA Reports Clearance Officer at (301) 443-1129.

E-mail comments to paperwork@hrsa.gov or mail the HRSA Reports Clearance Officer, Room 10-33, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857. Written comments should be received within 60 days of this notice.

Dated: March 23, 2011.

Reva Harris,

Acting Director, Division of Policy and Information Coordination.

National Institutes of Health

Laboratory Animal Welfare: Proposed Adoption and Implementation of the Eighth Edition of the Guide for the Care and Use of Laboratory Animals

AGENCY: National Institutes of Health, HHS.

ACTION: Notice of Extension of Public Comment Period.

SUMMARY: The National Institutes of Health (NIH) is extending the period for public comments on (1) NIH's adoption of the eighth edition of the *Guide for the Care and Use of Laboratory Animals (Guide)* as a basis for evaluation of institutional programs receiving or

proposing to receive Public Health Service (PHS) support for activities involving animals; and (2) if NIH decides to adopt the eighth edition of the *Guide*, NIH's proposed implementation plan, which would require that institutions complete at least one semiannual program and facility evaluation using the eighth edition of the *Guide* as the basis for evaluation by March 31, 2012. NIH will consider comments on (1) the adoption of the *Guide* and (2) the implementation plan. The notice on the proposed adoption and implementation plan for the eighth edition of the *Guide* was published in the **Federal Register** on February 24, 2011 (76 FR 10379). The comment period is extended by 30 days and thus will end on April 24, 2011.

DATES: Written comments on the adoption and implementation of the eighth edition of the *Guide* must be received by NIH on or before April 24, 2011 in order to be considered.

ADDRESSES: Public comments may be entered at: <http://grants.nih.gov/grants/olaw/2011guidecomments/add.htm>.

Comments will be made publicly available. Personally identifiable information (except organizational affiliations) will be removed prior to making comments publicly available.

FOR FURTHER INFORMATION CONTACT:

Office of Laboratory Animal Welfare, Office of Extramural Research, NIH, RKL1, Suite 360, 6705 Rockledge Drive, Bethesda, MD 20892-7982; telephone 301-496-7163.

SUPPLEMENTARY INFORMATION:

I. Background

The *Guide*, first published in 1963, is a widely accepted primary reference on animal care and use. Recommendations in the *Guide* are based on published data, scientific principles, expert opinion, and experience with methods and practices that are determined to be consistent with high quality, humane animal care and use. The eighth edition of the *Guide* was published in January 2011 following a study by the Institute for Laboratory Animal Research of the National Academy of Sciences (NAS). The NAS study process began in 2008 and followed the requirements of Section 15 of the Federal Advisory Committee Act. The NAS study process is described at the NAS Web site: <http://www.nationalacademies.org/studyprocess/index.html>.

Since 1985, the PHS Policy on Humane Care and Use of Laboratory Animals, authorized by Public Law 99-158, 42 U.S.C. 289d, and incorporated by reference at 42 CFR 52.8 and 42 CFR 52a.8, has required that institutions receiving PHS support for animal activities base their animal care and use programs on the current edition of the *Guide* and comply, as applicable, with the Animal Welfare Act and other Federal statutes and regulations relating to animal activities. The PHS Policy is applicable to all PHS-conducted or -supported activities (including research, research training, experimentation or biological testing, or related purposes) involving live vertebrate animals.

The eighth edition of the *Guide* contains substantive changes and additions from the previous edition. To gain insight from institutions on the impact of changes to the *Guide* on their animal care and use programs, NIH seeks comments on whether it should

adopt the eighth edition of the *Guide*. NIH simultaneously proposes an implementation plan for the eighth edition of the *Guide* and seeks comments on the proposed plan.

The implementation plan proposed by NIH would require institutions to complete at least one semiannual program and facility evaluation, using the eighth edition of the *Guide* as the basis for evaluation, by March 31, 2012. For such an evaluation to be considered complete by NIH, it would need to include reasonable and specific plans and schedules for corrections of deficiencies where appropriate.

II. Electronic Access

The eighth edition of the *Guide* is available on the NIH Office of Laboratory Animal Welfare Web site at <http://olaw.nih.gov>.
