I. Funding Opportunity Description

Purpose of Program: The Carol M. Grant recipients must implement programs that help students make progress toward meeting State standards.

Priorities: This competition has four priorities—one absolute priority, two competitive preference priorities, and one invitational priority. The absolute priority and the two competitive preference priorities are from the notice of final priorities, requirements, and definitions published in the **Federal Register** on June 18, 2010 (75 FR 34892).

Absolute Priority

For FY 2011 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

The priority is:

Under this priority, an applicant is required to develop, expand, or improve its physical education program and address its State's physical education standards by undertaking the following activities: (1) Instruction in healthy eating habits and good nutrition and (2) physical fitness activities that must include at least one of the following: (a) Fitness education and assessment to help students understand, improve, or maintain their physical well-being; (b) instruction in a variety of motor skills and physical activities designed to enhance the physical, mental, and social or emotional development of every student; (c) development of, and instruction in, cognitive concepts about motor skills and physical fitness that support a lifelong healthy lifestyle; (d) opportunities to develop positive social

and cooperative skills through physical activity participation; or (e) opportunities for professional development for teachers of physical education to stay abreast of the latest research, issues, and trends in the field of physical education.

Competitive Preference Priorities:

There are two competitive preference priorities for this competition. For FY 2011 and any subsequent year in which we make awards from the list of unfunded applicants from this competition, these priorities are competitive preference priorities. Under 34 CFR 75.105(c)(2)(i) we will award up to an additional 5 points to an application that meets these priorities.

Competitive Preference Priority 1—Collection of Body Mass Index (BMI) Measurement

Under 34 CFR 75.105(c)(2)(i), we will award an additional 2 points to an application that meets this priority.

This priority is:

We will give a competitive preference priority to applicants that agree to implement aggregate BMI data collection, and use it as part of a comprehensive assessment of health and fitness for the purposes of monitoring the weight status of their student population across time. Applicants are required to sign a Program-Specific Assurance that will commit them to:

(a) Use the Centers for Disease Control and Prevention's (CDC) BMI-for-age growth charts to interpret BMI results (<http://www.cdc.gov/growthcharts>);

(b) Create a plan to develop and implement a protocol that will include parents in the development of the applicant's BMI assessment and data collection policies, including a mechanism to allow parents to provide feedback on the policy. Applicants are required to detail the following required components in their aggregate BMI data collection protocol: The proposed method for measuring BMI, who will perform the BMI assessment (*i.e.*, staff members trained to obtain accurate and reliable height and weight measurements), the frequency of reporting, the planned equipment to be used, methods for calculating the planned sampling frame (if the applicant would use sampling), the policies used to ensure student privacy during measurement, how the data will be secured to protect student confidentiality, who will have access to the data, how long the data will be kept, and what will happen to the data after that time.
