[Project No. 2615-037]

#### **FPL Energy Maine Hydro LLC; Madison Paper Industries; Merimil Limited Partnership; Notice of Availability of Draft Environmental Assessment**

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR Part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for a new license for the 4.18-megawatt Brassua Hydroelectric Project, located on the Moose River, in Somerset County, Maine, and has prepared a draft Environmental Assessment (EA). In the EA, Commission staff analyze the potential environmental effects of relicensing the project and conclude that issuing a new license for the project, with appropriate environmental measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public inspection. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link.
