These areas are located on the West Tavaputs Plateau approximately 30 miles east-northeast of Price, Utah. Analysis of the road restrictions was included in the West Tavaputs Natural Gas Full Field Development Plan Final Environmental Impact Statement (EIS). The reasons for the road restrictions are discussed in detail within the Record of Decision (ROD) for that EIS, which was signed on July 2, 2010. Restricting the motorized use of these roads is in conformance with the 2008 Price Field Office Approved Resource Management Plan (RMP).

In order to reflect the decision to restrict motorized travel on the four roads, the Travel Management Plan Map (Map R–18) implemented as part of the ROD for the Price RMP will be modified at the time the road restriction order takes effect.
