Background

On March 13, 2007, the Department of the Interior published a notice of establishment of the Committee in the **Federal Register** (72 FR 11373). The Committee's purpose is to provide advice and recommendations to the Secretary of the Interior (Secretary) on developing effective measures to avoid or minimize impacts to wildlife and their habitats related to land-based wind energy facilities. All Committee members serve without compensation. In accordance with the Federal Advisory Committee Act (5 U.S.C. App.), a copy of the Committee's charter is filed with the Committee Management Secretariat, General Services Administration; Committee on Environment and Public Works, U.S. Senate; Committee on Natural Resources, U.S. House of Representatives; and the Library of Congress. The Secretary appointed 22 individuals to the Committee on October 24, 2007, representing the varied interests associated with wind energy development and its potential impacts to wildlife species and their habitats. The Committee provided its recommendations to the Secretary on March 4, 2010.

Draft Land-Based Wind Energy Guidelines

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
