EO 13175 Consultations and Coordination With Indian Tribal Governments

To introduce tribes and tribal leaders in the Delta Region to this program USDA hosted a teleconference on December 7, 2010. USDA extended an invitation to Tribal Leaders of the six Federally recognized Tribes in Mississippi, Louisiana, and Alabama on November 30, 2010. Through this call USDA aimed to review, discuss, and open the door for consultation on this program, in case the tribes brought forward any unanticipated concerns regarding the draft NOFA provisions of the Delta Health Care Services Grant Program, authorized under Section 379G of the Consolidated Farm and Rural Development Act. Three of the six tribes participated on the teleconference on December 7, 2010. It was explained that eligible grant applicants are limited to consortiums or groups of regional institutions of higher education, academic health and research institutes, and economic development entities located in the Delta Region that have experience in addressing the health care issues in the region. It was also articulated that eligible consortiums may include participation with Indian Tribes. The Tribal Leaders did not express any perceived negative impact regarding the draft, and were given appropriate Rural Development contact information should they have any future concerns regarding the NOFA. As a result of this teleconference, USDA has assessed the impact of this NOFA on Indian Tribal Governments in the Delta Region, and has concluded that this NOFA will not negatively affect the Federally recognized Tribes in the region, or impose substantial direct compliance costs on Indian Tribal Governments, nor preempt tribal law.
