

estimate includes the time to locate the data related to the pre-enactment unexpired swap transaction and the time to ensure that the data is maintained in such form as it currently exists. Respondents/Affected Entities: Swap dealers, Major Swap Participants, and other counterparties to a swap transaction (*i.e.*, end-user, non-SD/non-MSP counterparties).

Estimated Number of Respondents: 32,000.

Estimated Total Annual Burden on Respondents: 16,000 hours.

Frequency of Collection: Once.

⁷ In arriving at a wage rate for the hourly costs imposed, Commission staff used the Management & Professional Earnings in the Securities Industry Report, published in 2010 by the Securities Industry and Financial Markets Associations (2010 Report). The wage rate used the median salary of a Programmer as published in the 2010 Report and divided that figure by 2000 annual working hours to arrive at the hourly rate of \$42.05. Because the interim final rule requires only that existing data be maintained in its current form, a programmer will be able to perform this task.

Issued by the Commission, this 30th day of March 2011.

David Stawick,

Secretary of the Commission.
