Notice of Availability of a Memorandum of Understanding Between the Federal Energy Regulatory Commission and the U.S. Fish and Wildlife Service To Promote Conservation of Migratory Birds

This notice announces the availability of a Memorandum of Understanding (MOU) between the Federal Energy Regulatory Commission (FERC) and the U.S. Fish and Wildlife Service (FWS) to Promote Conservation of Migratory Birds signed March 30, 2011. The MOU provides for strengthening migratory bird conservation by identifying and implementing strategies that promote conservation and reduce or eliminate adverse impacts on migratory birds through enhanced collaboration between FERC and FWS.

The MOU identifies specific activities where cooperation between FERC and FWS will contribute to the conservation of migratory birds and their habitat, and outlines a collaborative approach to

promoting the conservation of migratory bird populations and furthering implementation of the migratory bird conventions, the Migratory Bird Treaty Act, the Bald and Golden Eagle Protection Act, and other pertinent statutes. The implementation of the MOU will be coordinated through ongoing communication between the FERC Office of Energy Projects and the FWS Division of Migratory Bird Management.

The MOU will be available on the FERC (<http://www.ferc.gov/legal/majord-reg/mou.asp>) and FWS (<http://www.fws.gov/migratorybirds/PartnershipsAndInitiatives.html>) Web sites.

J-W Pipeline Company; Notice of Motion for Extension of Rate Case Filing Deadline

Take notice that on March 28, 2011, J-W Pipeline Company (J-W) filed a request for an extension consistent with the Commission’s revised policy of periodic review from a triennial to a five year period. The Commission in Order No. 735 modified its policy concerning periodic reviews of rates charges by section 311 and Hinshaw pipelines to extend the cycle for such reviews from three to five years.¹ Therefore, J-W requests that the date for its next rate filing be extended to November 21, 2013, which is five years from the date of J-W’s most recent rate filing with this Commission.

Any person desiring to participate in this rate proceeding must file a motion to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission’s Rules of Practice and Procedure (18 CFR 385.211

and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the date as indicated below. Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the “eFiling” link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

Lock Hydro Friends Fund LII; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On July 12, 2010, Lock Hydro Friends Fund LII, filed an application, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of hydropower at the U.S. Army Corps of Engineers (Corps) Green River Lock and Dam located on the Green River in Henderson County, Kentucky. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) Two prefabricated concrete walls attached to the downstream side of the Corps dam which would support one frame module; (2) the frame module would be 109 feet long, 40 feet high, and weigh 1.16 million pounds and contain 10 generating units with a total combined capacity of 19.0 megawatts (MW); (3) a new switchyard containing a transformer; (4) a proposed 5.0-mile-long, 69-kilovolt (kV) transmission line to an existing distribution line. The proposed project would have an average annual generation of 83.277 gigawatt-hours (GWh), which would be sold to a local utility.

Applicant Contact: Mr. Wayne Krouse, Hydro Green Energy LLC, 5090 Richmond Avenue #390, Houston, TX 77056; phone (877) 556-6566 x709.

FERC Contact: Michael Spencer, (202) 502-6093.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of intent must meet the requirements of 18 CFR 4.36. Comments, motions to intervene, notices of intent, and competing applications may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters,

without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments.
