

but not limited to: (1) Groundwater monitoring; (2), rip-rap, erosion or other cover repair; (3) fencing; and (4) vegetation control.

Consistent with past practice, on a site-specific basis, NRC staff will continue to work with the custodial agency and the licensee to address the LTSC, with any final variances in the funding requirements to be determined solely by the NRC. If the custodial agency desires to have commitments in the LTSP that exceed the requirements set forth in Appendix A of 10 CFR 40 and do not have a nexus to radiological health and safety (e.g., fencing that is not necessary to ensure maintenance of radiological health and safety), the custodial agency would need to identify a funding mechanism to meet these desired commitments.

Annual updates to financial assurance for decommissioning submitted to NRC should contain a detailed basis (e.g., unit cost and units) and justification for the LTSC calculated by the licensee or license applicant. The licensee should consider all activities for site surveillance and control as specified in Criterion 12 to Appendix A of 10 CFR 40, including groundwater monitoring. For groundwater monitoring, the licensee or applicant should specify, with a sufficient basis, the number of wells to be sampled; the frequency of sampling; the duration of sampling; and the constituents analyzed during long-term site surveillance and control. If site surveillance or control requirements, including groundwater monitoring, are expected to be greater than those specified in Criterion 12 to Appendix A of 10 CFR 40, the licensee should fully describe the activities needed with a basis for their costs, propose an escalation in the LTSC, and provide an overall bottom-line amount, corresponding to the proposed, escalated LTSC.

**OFFICE OF PERSONNEL
MANAGEMENT**

Proposed Collection; Comment Request for Revision of a Currently Approved Information Collection: (OMB Control No. 3206-0230; Standard Form [SF] 2817)

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) intends to submit to the Office of Management and Budget (OMB) a request for review of a revised information collection. This information collection, "Life Insurance Election" (OMB Control No. 3206-0230; SF 2817), is used by Federal employees and assignees (those who have acquired control of an employee/annuitant's coverage through an assignment or "transfer" of the ownership of the life insurance). Clearance of this form for use by active Federal employees is not required according to the Paperwork Reduction Act (Pub. L. 98-615). The Public Burden Statement meets the requirements of 5 CFR 1320.8(b)(3). Therefore, only the use of this form by assignees, i.e. members of the public, is subject to the Paperwork Reduction Act.

Comments are particularly invited on whether this information is necessary for the proper performance of functions of the Office of Personnel Management, and whether it will have practical utility; whether our estimate of the public burden of this collection of

information is accurate and based on valid assumptions and methodology; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Approximately 150 SF 2817 forms are completed annually by assignees. This form takes approximately 15 minutes to complete. The annual estimated burden is 37.5 hours.

For copies of this proposal, contact Cyrus S. Benson by telephone at (202) 606-4808, by FAX (202) 606-0910, or by e-mail to Cyrus.Benson@opm.gov. Please include a mailing address with your request.
