STS–400 suborbital space flight simulator (a multi-axis centrifuge) is capable of replicating the G forces associated with suborbital space flight within the following parameters:

—Manned flight profiles up to 12 Gz and 8 Gx, with an onset rate up to +/-8 G/Sec and an accuracy in Gz and Gx axis of +/-0.1 G.

Criteria Used to Evaluate Safety Approval Application: The STS–400 was evaluated by the FAA as a component of a flight crew training process. The evaluation included the FAA’s assessment of the STS–400’s ability to accurately replicate the specified G levels. NASTAR submitted the following data to show that the STS–400 complies with the criteria:

—Acceptance Test Plan.
—Launch and reentry profiles demonstrations, and
—G level accelerometer and tachometer test results.

FOR FURTHER INFORMATION CONTACT: For questions about the performance criteria, you may contact Sherman Council, Licensing and Evaluation Division (AST–200), FAA Office of Commercial Space Transportation (AST), 800 Independence Avenue SW., Room 331, Washington, DC 20591, telephone (202) 267–8308; e-mail sherman.council@faa.gov.

Issued in Washington, DC, April 4, 2011.

George C. Nield,
Associate Administrator for Commercial Space Transportation.

DEPARTMENT OF TRANSPORTATION
Federal Aviation Administration

Notice of Intent To Rule on Request To Release Airport Property at the Burnet Municipal Airport, Burnet, TX

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of Request To Release Airport Property.

SUMMARY: The FAA proposes to rule and invite public comment on the release of land at the Burnet Municipal Airport under the provisions of Section 125 of the Wendell H. Ford Aviation Investment Reform Act for the 21st Century (AIR 21).

DATES: Comments must be received on or before May 11, 2011.

ADDRESSES: Comments on this application may be mailed or delivered to the FAA at the following address: Mr. Mike Nicely, Manager, Federal Aviation Administration, Southwest Region, Airports Division, Texas Airports Development Office, ASW–650, Fort Worth, Texas 76137.

In addition, one copy of any comments submitted to the FAA must be mailed or delivered to Mr. David Vaughn, Asst. City Manager, at the following address: P.O. Box 1369, 1001 Buchanan Drive, Suite 4, Burnet, Texas 78611.

FOR FURTHER INFORMATION CONTACT: Mr. Steven Cooks, Program Manager, Federal Aviation Administration, Texas Airports Development Office, ASW–650, 2601 Meacham Boulevard, Fort Worth, Texas 76137. Telephone: (817) 222–5608. E-mail: Steven.Cooks@faa.gov. Fax: (817) 222–5989.

The request to release property may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA invites public comment on the request to release property at the Burnet Municipal Airport under the provisions of the AIR 21.

The following is a brief overview of the request:

The City of Burnet requests the release of 4,407 acres of non-aeronautical airport property. A portion of the land was acquired by eminent domain in 1959 as part of the original 79.31 acres and the remaining portion was acquired in 1982. The property to be released will be sold to allow for a new public safety facility. The proposed facility will include police, fire, and EMS services which will benefit general aviation by establishing immediate security and safety services to all areas of the airport and greatly improve the quality and availability of these services to the entire community. Any person may inspect the request in person at the FAA office listed above under FOR FURTHER INFORMATION CONTACT.

In addition, any person may, upon request, inspect the application, notice and other documents relevant to the application in person at the Burnet Municipal Airport, telephone number (512) 756–6655.

Issued in Fort Worth, Texas on February 29, 2011.

Kelvin Solco,
Manager, Airports Division.

BILLING CODE P
The three “build alternatives" were: (1) Low Cost Improvements/Transportation Systems Management; (2) New Alignments; and, (3) M–15 Reconstruction. These alternatives were developed from the public involvement process. Documentation of the alternatives analysis process is found in three technical memoranda prepared for the study. The Technically and Environmentally Preferred Alternative is M–15 reconstruction to a combination of five-lane and boulevard cross sections.

No-Build Alternative (Recommended Alternative): The No–Build Alternative, has been chosen as the Recommended Alternative, would consist of continued regular maintenance of M–15. Additionally, it will also include some of the improvements mentioned below in the Low Cost Improvements/Transportation Systems Management Section. The four-lane section of M–15 through Goodrich was re-stripped in 1999 as a safety project from four lanes to three (center turn-lane configuration) with some curb added. M–15 was repaved in Genesee County in 1999 and in Oakland County in 2000. Minor improvements to shoulders and guard rails occurred at these times. Traffic signals have also been added as congestion has increased. The Recommended Alternative would continue this pattern of maintenance and minor adjustments. It would not require the acquisition of additional right-of-way. Unacceptable levels of traffic service would occur if traffic volumes continue to increase.

Low-Cost Improvements/Transportation Systems Management: This alternative called for paving of gravel roads to provide alternative routes to M–15, upgrading intersections along M–15, improving incident management, improving access control, and encouraging reduced trips.

New Alignments: These options considered improving Irish Road (west of and parallel to M–15 in the north section of the corridor) and constructing bypasses of the Village of Goodrich or the Glass Road/Seymour Lake area.

M–15 Reconstruction and Widening: The current cross-section is a two-lane highway throughout a majority of the corridor. Therefore reconstruction and widening options were analyzed. Because traffic forecasts show four through travel lanes are required to meet travel demand, the "super-2" and three-lane options were discarded. Given the need for turning movements through the length of the corridor, little justification of a four-lane road was found, compared to a five-lane section, which allows for...
turn movements at all required locations. A narrow boulevard with a typical cross section of 172 feet was found to have merit from traffic and safety standpoints, while still allowing turns as required. A wide boulevard, by comparison, was found to have substantially more impacts than the narrow boulevard, as its proposed right-of-way was about 30 feet wider. The wide boulevard was dropped from further consideration when the narrow boulevard was found to be equal from a traffic standpoint and acceptable from a design standpoint.

Authority: 23 CFR 771.117.
Issued on: April 5, 2011.
Russell J. Jorgenson,
Division Administrator, Lansing, Michigan.

DEPARTMENT OF TRANSPORTATION

Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2011–0080]

Qualification of Drivers; Exemption Applications; Diabetes Mellitus

AGENCY: Federal Motor Carrier Safety Administration (FMCSA).

ACTION: Notice of applications for exemption from the diabetes mellitus standard; request for comments.

SUMMARY: FMCSA announces receipt of applications from 23 individuals for exemption from the prohibition against persons with insulin-treated diabetes mellitus (ITDM) operating commercial motor vehicles (CMVs) in interstate commerce. If granted, the exemptions would enable these individuals with ITDM to operate CMVs in interstate commerce.

DATES: Comments must be received on or before May 11, 2011.

ADDRESSES: You may submit comments bearing the Federal Docket Management System (FDMS) Docket No. FMCSA–2011–0080 using any of the following methods:

• Federal eRulemaking Portal: Go to http://www.regulations.gov. Follow the online instructions for submitting comments.

• Mail: Docket Management Facility; U.S. Department of Transportation, 1200 New Jersey Avenue, SE., West Building Ground Floor, Room W12–140, Washington, DC 20590–0001.

• Hand Delivery: West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue, SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

• Fax: 1–202–493–2251.

Instructions: Each submission must include the Agency name and the docket numbers for this notice. Note that all comments received will be posted without change to http://www.regulations.gov, including any personal information provided. Please see the Privacy Act heading below for further information.

Docket: For access to the docket to read background documents or comments, go to http://www.regulations.gov at any time or Room W12–140 on the ground level of the West Building, 1200 New Jersey Avenue, SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. The Federal Docket Management System (FDMS) is available 24 hours each day, 365 days each year. If you want acknowledgment that we received your comments, please include a self-addressed, stamped envelope or postcard or print the acknowledgement page that appears after submitting comments online.

Privacy Act: Anyone may search the electronic form of all comments received into any of our dockets by the name of the individual submitting the comment (or of the person signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review DOT’s Privacy Act Statement for the FDMS published in the Federal Register on January 17, 2008 (73 FR 3316), or you may visit http://edocket.access.gpo.gov/2008/pdf/E8–785.pdf.

FOR FURTHER INFORMATION CONTACT: Dr. Mary D. Gunnels, Director, Medical Programs, (202) 366–4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue, SE., Room W64–224, Washington, DC 20590–0001. Office hours are from 8:30 a.m. to 5 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Background

Under 49 U.S.C. 31136(e) and 31315, FMCSA may grant an exemption from the Federal Motor Carrier Safety Regulations for a 2-year period if it finds “such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption.” The statute also allows the Agency to renew exemptions at the end of the 2-year period. The 23 individuals listed in this notice have recently requested such an exemption from the diabetes prohibition in 49 CFR 391.41(b) (3), which applies to drivers of CMVs in interstate commerce. Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the exemption will achieve the required level of safety mandated by the statutes.

Qualifications of Applicants

Donovan A. Bloomfield

Mr. Bloomfield, age 48, has had ITDM since 2006. His endocrinologist examined him in 2010 and certified that he has no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Bloomfield understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Bloomfield meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2011 and certified that he does not have diabetic retinopathy. He holds a Class D operator’s license from Massachusetts.

Kyle T. Brewer

Mr. Brewer, 28, has had ITDM since 2001. His endocrinologist examined him in 2011 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 12 months and no recurrent (2 or more) severe hypoglycemic episodes in the last 5 years. His endocrinologist certifies that Mr. Brewer understands diabetes management and monitoring, has stable control of his diabetes using insulin, and is able to drive a CMV safely. Mr. Brewer meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2011 and certified that he does not have diabetic retinopathy. He holds a Class B Commercial Driver’s License (CDL) from Nebraska.

Rastus A. Bryant, Jr.

Mr. Bryant, 56, has had ITDM since 2010. His endocrinologist examined him in 2010 and certified that he has had no severe hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function...
