Title: Statewide Automated Child
 Welfare Information System (SACWIS)
 Assessment Review Guide (SARG).
OMB No.: 0970-0159.
Description: For HHS to fulfill its
 obligation to effectively serve the
 nation's Adoption and Foster Care
 populations, and to report meaningful
 and reliable information to Congress
 about the extent of problems facing
 these children and the effectiveness of
 assistance provided to this population,
 the agency must have access to timely
 and accurate information about child
 welfare service populations and child
 welfare services. Section 476(b) of the
 Social Security Act requires that States
 submit statistical reports for child
 welfare populations, and Section 479 of
 the Act details State responsibilities to
 report specific information related to
 child abuse and neglect. CFR 1355.52
 provides funding authority for statewide
 automated child welfare information
 systems (SACWIS) that meet Federal
 requirements for child welfare data
 collection. If a State chooses to
 implement a SACWIS, that system
 serves as the primary data source for
 Federal reporting. Currently, states use
 their SACWIS to support their efforts to
 meet the following Federal reporting
 requirements related to child welfare:
 the Adoption and Foster Care Analysis
 and Reporting System (AFCARS)
 required by section 479(b)(2) of the
 Social Security Act; the National Child

Abuse and Neglect Data System
 (NCANDS); Child Abuse Prevention and
 Treatment Act (CAPTA); and the Chafee
 Independent Living Program's National
 Youth in Transition Database (NYTD).
 These systems also support state efforts
 to provide the information to conduct
 the Child and Family Service Reviews.
 Currently, forty-two States and the
 District of Columbia have developed, or
 are developing, a SACWIS with Federal
 financial participation.
 45 CFR 1355.55 provides for
 continuing review, assessment and
 inspection of SACWIS. The purpose of
 this review is to determine whether the
 system, as described in the approved
 Advance Planning Document has been
 adequately completed and conforms to
 applicable regulations and policies.
 To initiate a review, States complete
 and submit the SACWIS Assessment
 Review Guide (SARG) and other system
 documentation when they have
 completed system development and the
 system is operational statewide. The
 SARG template provides a format for
 State description of system
 functionality, operation, and outputs
 such as reports. The additional
 materials submitted as part of this
 process, such as system design
 documentation, are typically readily
 available to the State as a result of good
 project management practices.
 The information collected in the
 SACWIS Assessment Review Guide will
 allow Federal reviewers to determine if
 the State's SACWIS meets the
 requirements for title IV-E Federal
 Financial Participation (FFP) defined at
 45 CFR 1355.50, and that systems meet
 the goals and objectives of the approved
 Advance Planning Documents (APD)
 and conforms to the schedule, budget,
