

Alternatives

The EIS will consider a range of alternatives that meet NASA's needs for obtaining the requisite earth and space science data afforded by high-latitude sounding rocket launches in support of both NASA's science and educational missions.

Alternatives currently being considered for evaluation in the EIS include:

- Continuing the SRP in its present form and at the current level of effort;
- Continuing SRP launches from PFRR within the existing flight zones with differing requirements for identification and recovery of spent stages and payloads;
- Modifying the trajectories of the existing flight zones; and
- Conducting a subset of launches at other high-latitude launch sites, thereby avoiding the federally-managed lands.

The No Action Alternative is to discontinue sounding rocket launches from PFRR. NASA anticipates that the areas of potential environmental impact from each alternative of most interest to the public will be: The effects of rocket and payload landing and recovery on special interest lands (including Wilderness Areas and Wild Rivers), considerations to ensure public safety during rocket flight, and potential effects on subsistence uses on lands within the flight zones.

Scoping Meetings

NASA and its Cooperating Agencies plan to hold three public scoping meetings to provide information on the PFRR EIS and to solicit public comments regarding environmental concerns and alternatives to be considered in the EIS. The public scoping meetings are scheduled as follows:

- Friday, April 29, 2011, at the Tribal Hall, Third and Alder Streets, Fort Yukon, Alaska, 1 p.m.–4 p.m.
- Monday, May 2, 2011, at the University of Alaska-Fairbanks, William R. Wood Student Center, 505 South Chandalar Drive, Fairbanks, Alaska, 2 p.m.–4 p.m.
- Monday, May 2, 2011, at the Pioneer Park, Blue Room, 2300 Airport Way, Fairbanks, Alaska, 6 p.m.–8 p.m.
- Tuesday, May 3, 2011, at the United States Fish and Wildlife Service Alaska Regional Office, Gordon Watson Conference Room, 1011 East Tudor Road, Anchorage, Alaska, 2 p.m.–4 p.m. and 6 p.m.–8 p.m.

As the EIS is prepared, the public will be provided several opportunities for

involvement, the first of which is during scoping. Even if an interested party does not have input at this time, other avenues, including reviews of the Draft and Final EIS, will be offered in the future. The availability of these documents will be published in the **Federal Register** and through local news media to ensure that all members of the public have the ability to actively participate in the NEPA process.

In conclusion, written public input on alternatives and environmental issues and concerns associated with NASA's SRP launches at PFRR that should be addressed in the EIS are hereby requested.

Olga M. Dominguez,

Assistant Administrator, Office of Strategic Infrastructure.

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: Requests for copies must be received in writing on or before May 13, 2011. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually

prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

ADDRESSES: You may request a copy of any records schedule identified in this notice by contacting the Life Cycle Management Division (NWML) using one of the following means:

Mail: NARA (NWML), 8601 Adelphi Road, College Park, MD 20740-6001.

E-mail: request.schedule@nara.gov.

FAX: 301-837-3698.

Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

FOR FURTHER INFORMATION CONTACT:

Laurence Brewer, Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: 301-837-1539. E-mail: records.mgt@nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

The schedules listed in this notice are media neutral unless specified otherwise. An item in a schedule is media neutral when the disposition instructions may be applied to records regardless of the medium in which the records are created and maintained. Items included in schedules submitted to NARA on or after December 17, 2007, are media neutral unless the item is limited to a specific medium. (See 36 CFR 1225.12(e).)

No Federal records are authorized for destruction without the approval of the Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records. Further information about the disposition process is available on request.

Schedules Pending:

1. Department of Agriculture, Grain Inspection, Packers, and Stockyards Administration (N1-545-08-24, 6 items, 4 temporary items).
