Type of Review: NEW.

Title of Collection: Study of the Distribution of Teacher Effectiveness.

OMB Control Number: Pending.

Agency Form Number(s): N/A.

Frequency of Responses: Once; On Occasion.

Affected Public: State, Local, or Tribal Government, State Educational Agencies or Local Educational Agencies.

Total Estimated Number of Annual Responses: 213.

Total Estimated Annual Burden Hours: 1,217.

Abstract: Title II, Part A, the Improving Teacher State Formula Grants program is the primary federal funding under the Elementary and Secondary Education Act to support a

high quality teacher in every classroom. The American Recovery and Reinvestment Act (ARRA) supports reform in four key areas including increasing teacher effectiveness and promoting the equitable distribution of effective teachers. Therefore, this study describes the distribution of teacher quality within districts over time and any changes in that distribution associated with district strategies to promote an equitable distribution of high quality teachers.

This study will provide information over time about the distribution of teacher quality and will document district efforts to promote teacher equity within a select number of districts. The research questions are:

- What is the distribution of teacher quality across schools within districts?
- What strategies and policies are districts promoting to address inequitable distribution of teacher quality? How these strategies/policies are enacted (*e.g.* strategy determination, goals and objectives, theory of action, features, administration, necessary resources, and challenges to administration, intended duration)?
- What is the relationship between the district policies/strategies and the distribution of teacher quality?

The study will be conducted in up to 30 geographically-dispersed school districts. The study will document the distribution of teacher quality, within participating districts, using teacher value-added analyses. The study will also describe changes in the distribution of teacher quality across the outcomes years 2010-2011 through 2012-2013. Data collection will include student achievement obtained from administrative records, annual semi-structured district leadership interviews about district strategies and policies to address inequitable distribution of teacher quality, and district administrative records/personnel data.

Title of Collection: Application for Grants under the Predominantly Black Institutions Program.

OMB Control Number: 1840-0797.

Agency Form Number(s): N/A.

Frequency of Responses: Annually.

Affected Public: Not-for-profit institutions.

Total Estimated Number of Annual Responses: 40.

Total Estimated Annual Burden Hours: 1,400.

Abstract: The Predominantly Black Institutions (PBI) Program is authorized under Title III, Part F of the Higher Education Act of 1965, as amended (HEA). The PBI Program makes grant awards to eligible colleges and universities to support the strengthening of PBIs to carry out programs in the following areas: Science, technology, engineering, or mathematics; health education; internationalization or globalization; teacher preparation; or improving the educational outcomes of African American males. Grants support the establishment or strengthening of such programs that are designed to increase the institutions capacity to prepare students for instruction in the above noted fields. Grants are awarded competitively. This information collection is necessary to comply with Title III, Part F of the HEA.

This information collection is being submitted under the Streamlined Clearance Process for Discretionary Grant Information Collections (1894-0001). Therefore, the 30-day public comment period notice will be the only public comment notice published for this information collection.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purposes of this program are to (1) help address State-identified needs for highly qualified personnel—in special education, related services, early intervention, and regular education—to work with children, including infants and toddlers, with disabilities; and (2) ensure that those personnel have the necessary skills and knowledge, derived from practices that have been determined through scientifically-based research and experience, to be successful in serving those children.

Priorities: In accordance with 34 CFR 75.105(b)(2)(iv), these priorities are from allowable activities specified in the statute (see sections 662 and 681 of the Individuals with Disabilities Education Act (IDEA)). Each of the absolute priorities announced in this notice

corresponds to a separate competition as follows:

Absolute priority	Competition CFDA No.
Preparation of Special Education, Early Intervention, and Related Services Leadership Personnel.	84.325D
Personnel Preparation in Special Education, Early Intervention, and Related Services.	84.325K
Special Education Preservice Program Improvement Grants.	84.325T

Absolute Priorities: For FY 2011 and any subsequent year in which we make awards based on the list of unfunded applications from these competitions, these priorities are absolute priorities. Under 34 CFR 75.105(c)(3), for each competition, we consider only applications that meet the absolute priority for that competition.

The priorities are:

Absolute Priority 1—Preparation of Special Education, Early Intervention, and Related Services Leadership Personnel (84.325D). **Background:**

There continues to be a persistent need for special education, early intervention, and related services personnel who are prepared at the doctoral and postdoctoral levels to fill faculty and research positions (Smith, Pion, & Tyler, 2004; Smith, Robb, West and Tyler, 2010; Woods & Snyder, 2009). Further, according to Lashley & Boscardin (2003), there is a need for personnel who are prepared at the graduate level (*i.e.*, masters, education specialist, and doctoral degrees, depending on State certification requirements) to fill special education and early intervention administrator positions.

Federal support is needed to increase the supply of these personnel and ensure that they have the necessary knowledge and skills to assume special education, early intervention, and related services leadership positions in universities, State educational agencies (SEAs), State lead agencies (State LAs), local educational agencies (LEAs), local lead agencies (local LAs), schools, or programs. Critical competencies for special education, early intervention, and related services leadership personnel vary depending on the type of personnel preparation program; however, these competencies often include teaching skills, administrative skills,¹ and research skills as well as
