(GAN). We may notify you informally also.
If your application is not evaluated or not selected for funding, we notify you.
2. Administrative and National Policy Requirements: We identify administrative and national policy requirements in the application package and reference these and other requirements in the Applicable Regulations section in this notice. We reference the regulations outlining the terms and conditions of an award in the Applicable Regulations section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.
3. Reporting: (a) If you apply for a grant under this competition, you must ensure that you have in place the necessary processes and systems to comply with the reporting requirements in 2 CFR part 170 should you receive funding under the competition. This does not apply if you have an exception under 2 CFR 170.110(b).
   (b) At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to http://www.ed.gov/fund/grant/apply/appforms/appforms.html.
4. Performance Measures: The Secretary has established the following key performance measures for assessing the effectiveness of the NASNTI Part F Program:
   a. The percentage change, over a five-year period, of the number of full-time degree-seeking undergraduates enrolling at NASNTIs. Note that this is a long-term measure, which will be used to periodically gauge performance;
   b. The percentage of first-time, full-time degree-seeking undergraduate students who were in their first year of postsecondary enrollment in the previous year and are enrolled in the current year at the same NASNTI;
   c. The percentage of first-time, full-time degree-seeking undergraduate students at two-year NASNTIs who were in their first year of postsecondary enrollment in the previous year and are enrolled in the current year at the same NASNTI;
   d. The percentage of first-time, full-time degree-seeking undergraduate students enrolled at four-year NASNTIs who graduate within six years of enrollment; and
   e. The percentage of first-time, full-time degree-seeking undergraduate students enrolled at two-year NASNTIs who graduate within three years of enrollment.
In addition, the Department has developed the following efficiency measure for the NASNTI Part F Program. Efficiency measure: Federal cost per undergraduate degree at NASNTIs.
5. Continuation Awards: In making a continuation award, the Secretary may consider, under 34 CFR 75.253, the extent to which a grantee has made “substantial progress toward meeting the objectives in its approved application.” This consideration includes the review of a grantees’s progress in meeting the targets and projected outcomes in its approved application, and whether the grantee has expended funds in a manner that is consistent with its approved application and budget. In making a continuation award, the Secretary also considers whether the grantee is operating in compliance with the assurances in its approved application, including those applicable to Federal civil rights laws that prohibit discrimination in programs or activities receiving Federal financial assistance from the Department (34 CFR 100.4, 104.5, 106.4, 108.8, and 110.23).

VII. Agency Contacts
FOR FURTHER INFORMATION CONTACT:
LaTonya Brown or Darlene Collins, U.S. Department of Education, 1990 K Street, NW., 6th floor, Washington, DC 20006–8513. You may contact these individuals at the following e-mail addresses or telephone numbers:
LaTonya.Brown@ed.gov; (202) 502–7619,
Darlene.Collins@ed.gov; (202) 502–7576.
If you use a TDD, call the FRS, toll free, at 1–800–877–8339.

VIII. Other Information
Accessible Format: Individuals with disabilities can obtain this document and a copy of the application package in an accessible format (e.g., braille, large print, audiotape, or computer diskette) on request to the program contact persons listed in section VII of this notice.
Electronic Access to This Document: The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available via the Federal Digital System at: http://www.gpo.gov/fdsys. At this site you can view this document, as well as all other documents of this Department published in the Federal Register, in text or Adobe Portable Document Format (PDF). To use PDF you must have Adobe Acrobat Reader, which is available free at this site.
Dated: April 11, 2011.
Eduardo M. Ochoa,
Assistant Secretary for Postsecondary Education.

DEPARTMENT OF ENERGY
Agency Information Collection Activities: Proposed Collection; Comment Request; Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery
AGENCY: U.S. Department of Energy.
ACTION: 30-Day notice of submission of information collection approval from the Office of Management and Budget and request for comments.
SUMMARY: As part of a Federal Government-wide effort to streamline the process to seek feedback from the public on service delivery, the Department of Energy has submitted a Generic Information Collection Request (Generic ICR): “Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery” to OMB for approval under the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 et. seq.).
DATES: Comments must be submitted May 16, 2011.
ADDRESSES: Written comments may be submitted to: DOE Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 725 17th Street, NW., Washington, DC 20503.
FOR FURTHER INFORMATION CONTACT: To request additional information: DOE PRA Officer, Christina Rouleau IM–23, U.S. Department of Energy, Corp. 270 room 4002, 1000 Independence Ave., SW., Washington, DC 20585,
Christina.Rouleau@hq.doe.gov.
SUPPLEMENTARY INFORMATION:
Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.
Abstract: The information collection activity will garner qualitative customer
and stakeholder feedback in an efficient, timely manner, in accordance with the Administration’s commitment to improving service delivery. Qualitative feedback means information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliable actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

The 60-day notice was published in the Federal Register on December 22, 2010 (75 FR 80542).

Below we provide the Department of Energy projected average estimates for the next three years:¹

Type of Review: New Collection.
Affected Public: Individuals and Households, Businesses and Organizations, State, Local or Tribal Government.
Average Expected Annual Number of Activities: 100.
Respondents: 2,220.
Annual Responses: 222,000.
Frequency of Response: Once per request.
Average Minutes per Response: 30.
Burden hours: 11,000.
An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid Office of Management and Budget control number.

Statutory Authority: Due to the special circumstances regarding this initiative led by OIRA, there are no statutory authorities reported for this notice.

John E. Davenport, Sr.,
Director, Records Management Division,
Office of the ACIO for IT Planning,
Architecture and E-Government, Office of the
Chief Information Officer, U.S. Department of Energy.

¹The 60-day notice included the following estimate of the aggregate burden hours for this generic clearance Federal-wide:

Average Expected Annual Number of Activities: 25,000.
Average Number of Respondents per Activity: 200.
Annual Responses: 5,000,000.
Frequency of Response: Once per request.

Average Minutes per Response: 30.
Burden hours: 2,500,000.

DEPARTMENT OF ENERGY
[OE Docket No. EA–377]
Application To Export Electric Energy;
DC Energy Texas, LLC

AGENCY: Office of Electricity Delivery and Energy Reliability, DOE.

ACTION: Notice of application.

SUMMARY: DC Energy Texas, LLC (DCE Texas) has requested authority to transmit electric energy from the United States to Mexico pursuant to section 202(e) of the Federal Power Act (FPA).

DATES: Comments, protests, or requests to intervene must be submitted to DOE and received on or before May 16, 2011.

ADDRESSES: Comments, protests, or requests to intervene should be addressed to: Lamont Jackson, Office of Electricity Delivery and Energy Reliability, Mail Code: OE–20, U.S. Department of Energy, 1000 Independence Avenue, SW., Washington, DC 20585–0350. Because of delays in handling conventional mail, it is recommended that documents be transmitted by overnight mail, by electronic mail, or facsimile to 202–586–6008.

FOR FURTHER INFORMATION CONTACT: Lamont Jackson (Program Office) 202–586–6008.

SUPPLEMENTARY INFORMATION: Exports of electricity from the United States to a foreign country are regulated by the Department of Energy (DOE) pursuant to sections 301(b) and 402(f) of the Department of Energy Organization Act (42 U.S.C. 7151(b) and 7172(f)) and require authorization under section 202(e) of the FPA (16 U.S.C. 824a(e)).

On March 18, 2011, DOE received an application from DCE Texas requesting authority to transmit electric energy from the United States to Mexico for five years as a power marketer. DCE Texas proposes to use existing authorized international electric transmission facilities that are appropriate for open access by third parties, including facilities that have been authorized but not yet constructed and placed into operation. Neither DCE Texas nor any of its affiliates owns, controls or operates any electric transmission facilities, nor do they hold a franchise service area for sale, distribution or transmission of electricity.

The electric energy that DCE Texas proposes to export to Mexico would be surplus energy purchased from electric utilities, Federal power marketing agencies, and other entities within the United States. The existing international transmission facilities to be utilized by DCE Texas have previously been authorized by Presidential permits issued pursuant to Executive Order 10485, as amended, and are appropriate for open access transmission by third parties.

Procedural Matters: Any person desiring to become a party to these proceedings or to be heard by filing comments or protests to this application should file a petition to intervene, comment, or protest at the address provided above in accordance with §§385.211 or 385.214 of the Federal Energy Regulatory Commission’s Rules of Practice and Procedures (18 CFR 385.211, 385.214). Fifteen copies of each petition and protest should be filed with DOE and must be received on or before the date listed above.

Comments on the DCE Texas application to export electric energy to Mexico should be clearly marked with OE Docket No. EA–377. An additional copy is to be filed directly with Stephen C. Palmer, Alston & Bird, LLC, Atlantic Building, 950 F Street, NW., Washington, DC 20004–1404 and Joelle K. Ogg, General Counsel, DC Energy.
