

U.S.C. 101 *et seq.*, is required to develop the NECP, including identification of goals, timeframes, and appropriate measures to achieve interoperable communications capabilities. The NECP Performance Report is designed to meet these statutory requirements.

OEC will use the information gained through the reports to track progress that state, local, and territorial governments are making in implementing milestones and demonstrating goals of the NECP. Information regarding demonstration of the NECP will measure the ability of counties or county-equivalents to demonstrate response-level emergency communications within one hour for routine events involving multiple jurisdictions.

Statewide Interoperability Coordinators or Statewide Communications Interoperability Planning points of contact (police, fire, emergency medical services, emergency managers, dispatchers, radio operators, government workers, etc.) will be responsible for collecting this information from their respective counties or county-equivalents within their states. The report will be submitted electronically via e-mail at OEC@dhs.gov.
