[Docket ID PHMSA-2011-0084]

**Pipeline Safety: Notice of Public Webinars on Implementation of Distribution Integrity Management Programs**

**AGENCY:** Pipeline and Hazardous Materials Safety Administration (PHMSA), DOT.

**ACTION:** Notice of Public Webinars.

**SUMMARY:** Members of the state and Federal Distribution Integrity Management Program Implementation Team (Team) recently completed a series of pilot inspections of gas distribution operators' distribution integrity management programs (DIMP). The purpose of the two separate and distinct webinars is to discuss the Team's findings and general observations from the pilot inspections; the expectations for operators in implementing their plan; the DIMP inspection forms; and a question and answer session.

**DATES:** The webinars will be held on May 10, 2011, between 10:30 a.m. and 12:30 p.m. EDT and June 8, 2011, at 10:30 a.m. and 12:30 p.m. EDT. Refer to the DIMP Web site for additional information: <http://primis.phmsa.dot.gov/dimp/index.htm>. Copies of the presentations will be available on the DIMP website within 30 days following the webinar.

**FOR FURTHER INFORMATION CONTACT:** Chris McLaren by e-mail at [Chris.Mclaren@dot.gov](mailto:Chris.Mclaren@dot.gov) or by phone at 281-216-4455.

**SUPPLEMENTARY INFORMATION: Purpose:** The DIMP Team is a collaboration of state and Federal regulators to support improvements in the integrity of the Nation's gas distribution pipeline systems through development of inspection methods and guidance for the evaluation of an operator's DIMP. The Team recognizes the individual characteristics of each state's oversight program and operating conditions as well as the evolutionary process that distribution system operators will go through in building an integrity management culture from a prescriptive, compliance-based culture. Due to the high level, risk-based, performance oriented nature of the regulations contained in 49 CFR 192.1001-1015, the Team recognizes that operators are seeking guidance in implementing their programs. Two webinars are being sponsored to provide operators with

information and to direct operators to resource material.

The material presented at this webinar was created by the Team through a consensus process. States will implement the DIMP rule under their individual state statutory authority in accordance with the applicable certification under 49 U.S.C. 60105 or agreement under section 60106. States may establish their own procedures, inspection forms, and guidance in implementing the DIMP rule. Since regulatory structures differ among states, operators should contact the state authority regulating their distribution pipeline system for more information.
