**DEPARTMENT OF DEFENSE****Department of the Army, Corps of Engineers****Intent To Prepare an Environmental Impact Statement for Update of the Shoreline Management Plan and Supplement to the Master Plan, Eufaula Lake, OK**

**AGENCY:** Department of the Army, U.S. Army Corps of Engineers, DoD.

**ACTION:** Notice of intent.

**SUMMARY:** The purpose of the Environmental Impact Statement (EIS) is to address alternatives and environmental impacts associated with an update of the Shoreline Management Plan (SMP) and supplement to the Master Plan (MP), Eufaula Lake, Oklahoma. The EIS would likewise evaluate alternatives and environmental impacts associated with specific proposals for recreational development facilities on Federal lands at Eufaula Lake as identified through the SMP update and MP supplement process.

**ADDRESSES:** Questions or comments concerning the proposed action should be addressed to Mr. Stephen L. Nolen, Chief, Environmental Analysis and Compliance Branch, Tulsa District, U.S. Army Corps of Engineers, CESWT-PE-E, 1645 S. 101st E. Ave., Tulsa, OK 74128-4629.

**FOR FURTHER INFORMATION CONTACT:** Mr. Stephen L. Nolen, (918) 669-7660, fax: (918) 669-7546, e-mail: [Stephen.L.Nolen@usace.army.mil](mailto:Stephen.L.Nolen@usace.army.mil).

**SUPPLEMENTARY INFORMATION:** The Tulsa District, U.S. Army Corps of Engineers seeks to provide an update to the existing SMP and to supplement portions of the existing MP for Eufaula Lake, OK. Eufaula Lake is a multi-purpose reservoir impounded by Eufaula Dam on the Canadian River at river mile 27.0, about 12 miles east of Eufaula in McIntosh County, OK. Land and water resources at the lake are managed by the Tulsa District in accordance with regulations governing

U.S. Army Corps of Engineers civil works projects. At Eufaula Lake, private shoreline uses to include private boat docks and vegetation modification are managed under a permit system dependent upon shoreline allocation classifications specified in the SMP in accordance with Engineer Regulation 1130-2-406. Reviews and updates to SMPs are periodically provided and the last update to the Eufaula Lake SMP occurred in 1998. Similarly, land resources at Eufaula Lake are managed in accordance with MP requirements as described in Engineer Pamphlet 1130-2-550. In the land allocation portion of the MP, all project lands are assigned categories which are used for determination of appropriate uses for these lands. The last update to the Eufaula Lake MP occurred in 1977. Owing to the elapsed time since last updates, changed conditions, and the need to assess lake-wide cumulative effects, the Tulsa District seeks to update the Eufaula Lake SMP and supplement the MP by updating the land allocation portion. Actions appropriate for updating these plans and preparing the EIS for the same will occur concurrently.

As the SMP and MP update processes involve public participation and input, it is possible that specific proposals for recreational or other development features involving project shorelines and/or lands may be received by the Tulsa District. For proposals that have advanced to a planning stage of sufficient detail to allow for proposal-specific alternative and impact analysis, the EIS would include these analyses. For reasonably-foreseeable development proposals that have not advanced to the point where proposal-specific analyses are possible, these will be assessed under cumulative impacts but will require additional analysis under the National Environmental Policy Act (NEPA) prior to their implementation at Eufaula Lake.

Reasonable alternatives to be considered include varying combinations of allocation classifications for both project shorelines and Federal lands at Eufaula Lake to include the no action alternative of retaining allocations in both the SMP and MP as they currently exist. For proposal-specific actions, alternatives would include varying development plans and features as well as the no action alternative.

Issues to be addressed in the EIS include but are not limited to: (1) Socioeconomic impacts associated with allocation classifications and specific development proposals, (2) matters pertaining to shoreline impacts, (3)
