

Mitigation. The NAC will hold discussions on professionalism of emergency management, approaches for National Incident Management System (NIMS) Credentialing implementation, and the Public Assistance (PA) Bottom-Up Review.

The NAC plans to discuss implementation of the credentialing process. FEMA's "NIMS Guideline for the Credentialing of Personnel" describes the process and standards for validating personnel qualifications and providing authorization, so that those personnel may perform specific functions and have specific access to an incident involving mutual aid. The credentialing process entails the objective evaluation and documentation of an individual's current certification, license, or degree; training and experience; and competence or proficiency to meet nationally accepted standards, provide particular services and/or functions, or perform specific

tasks under specific conditions during an incident.

The NAC will discuss and take comment on the Bottom-Up Review. FEMA is currently performing a Bottom-Up Review to identify changes to improve the effectiveness and efficiency of the PA program. FEMA is approaching the Bottom-Up Review as an opportunity to re-evaluate the PA Program in its entirety and will consider new concepts for the operation of the PA Program, consistent with the FEMA's statutory authorities. FEMA's goal is to formulate and implement changes to the PA Program to provide grantees and subgrantees with the greatest flexibility possible in the use of PA funding, while ensuring program effectiveness and accountability for taxpayer dollars and compliance with Federal statutes and requirements.

Finally, the NAC may receive updates from FEMA offices regarding response, recovery, preparedness, and on the Regional Advisory Councils.

Dated: April 19, 2011.

W. Craig Fugate, Administrator, Federal Emergency Management Agency.
