NUCLEAR REGULATORY COMMISSION

10 CFR Part 73

RIN 3150–A49

Enhanced Weapons, Firearms Background Checks, and Security Event Notifications

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule; Extension of comment period.

SUMMARY: On February 3, 2011 (76 FR 6200), the Nuclear Regulatory Commission (NRC or the Commission) published a proposed rule [NRC–2011–0018] for a 90-day public comment period that would implement its authority under the new Section 161A of the Atomic Energy Act of 1954 (AEA), as amended, and revise existing regulations governing security event notifications. These proposed regulations are consistent with the provisions of the Firearms Guidelines the NRC published under Section 161A with the approval of the U.S. Attorney General on September 11, 2009 (74 FR 46800). In addition, the NRC proposed revisions addressing security event notifications from different classes of facilities and the transportation of radioactive material and would add new event notification requirements on the theft or loss of enhanced weapons.

Concurrent with the amendments described in this proposed rule, the NRC published for comment the draft “Weapons Safety Assessment” (76 FR 6087) [NRC–2011–0017], the draft Regulatory Guide DG–5020, “Applying for Enhanced Weapons Authority, Applying for Preemption Authority, and Accomplishing Firearms Background Checks under 10 CFR Part 73” (76 FR 6086) [NRC–2011–0015], and the revised Regulatory Guide DG–5019, “Reporting and Recording Safeguards Events” (76 FR 6085) [NRC–2011–0014]. A 90-day comment period was provided for the proposed rule, the weapons safety assessment, and the associated regulatory guidance documents that would have expired on May 4, 2011.

The NRC is extending the comment period submittal deadline by an additional 90 days for the proposed rule, the associated regulatory guidance documents, and the weapons safety assessment from the original May 4, 2011, deadline to August 2, 2011.

DATES: The comment period for the proposed rule, the draft weapons safety assessment, and the draft regulatory guides (DG–5019 and DG–5020) has been extended and now expires on August 2, 2011. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received before this date.

ADDRESSES: Please include the applicable Docket ID: NRC–2011–0018 (proposed rule); NRC–2011–0014 (DG–5019); NRC–2011–0015 (DG–5020); or NRC–2011–0017 (draft weapons safety assessment) in the subject line of your comments. Comments submitted in writing or in electronic form will be posted on the NRC Web site and the Federal rulemaking Web site http://www.Regulations.gov. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments to remove any identifying or contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed. You may submit comments on the proposed rule [NRC–2011–0018] by any one of the following methods:

• Mail comments to: Cindy Bladey, Chief, Rules, Announcements, and Directives Branch (RADB), Office of Administration, Mail Stop: TWB–05–B01M, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001.
• Fax comments to: RADB at 301–492–3446.

You can access publicly available documents related to the proposed rule and draft regulatory guides documents using the following methods:

• NRC’s Public Document Room (PDR): The public may examine and have copied, for a fee, publicly available documents at the NRC’s PDR, O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.
• NRC’s Agencywide Documents Access and Management System (ADAMS): Publicly available documents created or received by the NRC are available electronically at the NRC’s Electronic Reading Room at http://www.nrc.gov/reading-rm/adams.html. From this page, the public can gain entry into ADAMS, which provides text and image files of the NRC’s public documents. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC’s PDR reference staff at 1–800–397–4209, 301–415–4737, or by e-mail to pdr.resource@nrc.gov.
• Federal Rulemaking Web Site: Public comments and supporting materials related to the proposed rule and draft regulatory guides can be found at http://www.regulations.gov by searching the applicable Docket ID: NRC–2011–0018 (proposed rule); NRC–2011–0014 (DG–5019); NRC–2011–0015 (DG–5020); or NRC–2011–0017 (draft weapons safety assessment).

FOR FURTHER INFORMATION CONTACT: Mr. Robert Beall, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone 301–415–3874; e-mail: Robert.Beall@nrc.gov; or Mr. Philip Brochman, Office of Nuclear Security and Incident Response, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone 301–415–6557; e-mail: Phil.Brochman@nrc.gov.

SUPPLEMENTARY INFORMATION: On February 16, 2011, the NRC received a letter (ADAMS Accession Number ML110480470) requesting that the
DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

18 CFR Part 366 [Docket No. RM11–12–000]

Availability of E-Tag Information to Commission Staff

ACTION: Notice of proposed rulemaking.

SUMMARY: The Federal Energy Regulatory Commission (Commission) proposes to revise its regulations to require the Commission-certified Electric Reliability Organization to make available to Commission staff, on an ongoing basis, access to complete electronic tagging data used to schedule the transmission of electric power in wholesale markets. This information will aid the Commission in market monitoring and preventing market manipulation, help assure just and reasonable rates, and aid in monitoring compliance with certain business practice standards adopted by the North American Energy Standards Board and incorporated by reference into its regulations and public utility tariffs by the Commission. The Commission is also considering making this information available to entities involved in market monitoring functions and invites comments on this option.

DATES: Comments on the proposed rule are due June 27, 2011.

ADDRESSES: You may submit comments identified by Docket No. RM11–12–000, by one of the following methods:

Follow the instructions for submitting comments via the eFiling link found in the Comment Procedures Section of the preamble.

Mail: Commenters unable to file comments electronically must mail or hand deliver an original of their comments to the Commission.

Do not hand deliver comments addressed to the General Counsel.

Mail:
Office of the General Counsel, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Please refer to the Comment Procedures Section of the preamble for additional information on how to file paper comments.

FOR FURTHER INFORMATION CONTACT:

Maria Vouras (Technical Information), Office of Enforcement, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. (202) 502–8062, E-mail: maria.vouras@ferc.gov.

William Sauer (Technical Information), Office of Enforcement, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. (202) 502–6639, E-mail: william.sauer@ferc.gov.

Gary D. Cohen (Legal Information), Office of the General Counsel, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Telephone: (202) 502–8321, E-mail: gary.cohen@ferc.gov.

SUPPLEMENTARY INFORMATION:

Notice of Proposed Rulemaking

(April 21, 2011)

1. In this Notice of Proposed Rulemaking (NOPR), the Federal Energy Regulatory Commission (Commission) proposes, pursuant to § 307(a) and § 309 of the Federal Power Act (FPA),1 to amend its regulations to require the Electric Reliability Organization (ERO) certified by the Commission under § 39.3 of the Commission’s regulations2 to make available to Commission staff, on an ongoing basis, access to the complete electronic tags (e-Tags) used to schedule the transmission of electric power interchange transactions in wholesale markets.3 The Commission proposes to require the ERO to provide access to e-Tags, rather than requiring individual market participants to provide such access, so as to avoid imposing this burden on market participants of submitting e-Tags with both the ERO and the Commission.

I. Background

2. The North American Electric Reliability Corporation (NERC), formerly known as the North American Electric Reliability Council, was established in 1968, in response to the 1965 electricity blackout in the northeast. At that time, the industry-created council included nine regional reliability groups, began regional planning coordination, and developed voluntary operations criteria and guides. Over the years, NERC modified its membership rules and governing structure and, in 2006, the Commission approved NERC’s application to become the ERO for the United States.4

3. The Electric Reliability Council of Texas and into or out of the Electric Reliability Council of Texas and into or out of the United States’ portion of the Eastern or Western Interconnections, are those transactions in wholesale markets, are those transactions in wholesale markets, and energy schedules.

16 U.S.C. 791a, et seq.
1 For purposes of this NOPR, “complete e-Tags” refers to (1) e-Tags for interchange transactions scheduled to flow into, out of or within the United States’ portion of the Eastern or Western Interconnections, or into or out of the Electric Reliability Council of Texas and into or out of the United States’ portion of the Eastern or Western Interconnections, and (2) information on every aspect of the e-Tag, including all applicable e-Tag IDs, transaction types, market segments, physical segments, profile sets, transmission reservations, and energy schedules.
