

Health Risk and Exposure Assessment (April 2011) should be directed to Mr. John Langstaff (langstaff.john@epa.gov). Any technical questions concerning the *Ozone National Ambient Air Quality Standards: Scope and Methods Plan for Welfare Risk and Exposure Assessment (April 2011)* should be directed to Dr. Travis Smith (smith.jtravis@epa.gov).

Availability of Meeting Materials: Prior to the meeting, the review documents, agenda and other materials will be accessible through the calendar link on the blue navigation bar at <http://www.epa.gov/casac/>.

Procedures for Providing Public Input: Public comment for consideration by EPA's Federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a Federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public can submit comments for a Federal advisory committee to consider as it develops advice for EPA. Input from the public to the CASAC will have the most impact if it provides specific scientific or technical information or analysis for CASAC panels to consider or if it relates to the clarity or accuracy of the technical information. Members of the public should send their comments directly to the Designated Federal Officer for the relevant advisory committee. **Oral Statements:** To be placed on the public speaker list for the meeting, interested parties should notify Dr. Stallworth, DFO, by e-mail no later than May 12, 2011. Individuals making oral statements will be limited to five minutes per speaker. **Written Statements:** Written statements for the meeting should be received in the SAB Staff Office by May 12, 2011 so that the information may be made available to the Panel for its consideration prior to this meeting. Written statements should be supplied to the DFO via e-mail (acceptable file format: Adobe Acrobat PDF, MS Word, WordPerfect, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format). It is the SAB Staff Office general policy to post written comments on the Web page for the advisory meeting or teleconference. Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its Web sites. Members of the public should be aware that their personal contact information, if included in any written comments, may

be posted to the CASAC Web site. Copyrighted materials will not be posted without explicit permission of the copyright holder.

Accessibility: For information on access or services for individuals with disabilities, please contact Dr. Stallworth at the phone number or e-mail address noted above, preferably at least ten days prior to the meeting, to give EPA as much time as possible to process your request.

Dated: April 22, 2011.

Vanessa T. Vu,

Director, EPA Science Advisory Board Staff Office.

Information in the Legislative Management Tracking System (LMTS) is retrieved by the correspondence log-in file number, Congressional Representative's name, and/or type of complaint, *etc.* Regardless of the circumstances, OLA always redacts the Social Security Number and birthdate before entering a document into LMTS. Other personally identifiable information (PII) in an attachment may also be redacted prior to filing the correspondence if it is not relevant to the complaint or inquiry.

SAFEGUARDS:

The paper documents are maintained in file cabinets that are located in the OLA office suite, whose access is through a card-coded main door. Access to these files is restricted to authorized OLA supervisors and staff.

Access to the electronic files, which are housed in the FCC's computer network databases, is restricted to authorized OLA supervisors and staff and to the Information Technology Center (ITC) staff and contractors, who maintain the FCC's computer network. Other FCC employees and contractors may be granted access on a "need-to-know" basis. The FCC's computer network databases are protected by the FCC's security protocols, which include controlled access, passwords, and other security features. Information resident on the OLA database servers is backed-up routinely onto magnetic media. Back-up tapes are stored on-site and at a secured, off-site location.

RETENTION AND DISPOSAL:

Pursuant to FCC records schedule N1-173-03-2, item 5, information in the Legislative Management Tracking System (LMTS) is retained at the FCC for three years after cut-off at the end of each calendar year.
