5.0 Standards for Package and Extra Service Barcodes

5.1 Intelligent Mail Package Barcode

5.1.4 Physical Barcode Requirements

* * * Physical barcode requirements are as follows:

* * * * *

[Revise 5.1.4d as follows]

d. Barcode Height: unless allowed by exception, the minimum height must be at least 0.75 inch.

* * * * *

g. Human-Readable Representation of Barcode Data and Service Banner: text must be printed in accordance with Exhibit 5.1.4 and as follows:

* * * * *

[Revise 5.1.4g2 as follows:]

2. Service Banners must include the human-readable text “USPS SIGNATURE TRACKING #” for mailpieces requiring a signature at delivery and “USPS TRACKING #” for all other mailpieces (service banner text shown in Exhibit 5.1.4 is an example). See Publication 91 (addendum appendix H) at http://ribbs.usps.gov for additional information.

* * * * *

Exhibit 5.1.4 Barcode Specifications

[Replace Exhibit 5.1.4 with a revised label illustrating the proposed generic human-readable service banner text.]

* * * * *

We will publish an appropriate amendment to 39 CFR Part 111 to reflect these changes if our proposal is adopted.

Stanley F. Mires,
Chief Counsel, Legislative.

BILLING CODE 7710–12–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Parts 50 and 58

RIN 2060–AP38

Release of Draft Risk and Exposure Assessments and Final Integrated Review Plan for the National Ambient Air Quality Standards for Ozone

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability.

SUMMARY: On or about April 22, 2011, the EPA is making available for public review the documents titled, “Ozone National Ambient Air Quality Standards: Scope and Methods Plan for Health Risk and Exposure Assessment,” (REA Plan for the primary ozone NAAQS) and “Ozone National Ambient Air Quality Standards: Scope and Methods Plan for Welfare Risk and Exposure Assessment” (REA Plan for the secondary ozone NAAQS). These documents contain the plans for the risk and exposure analyses that EPA is preparing to conduct in support of the reviews of ozone NAAQS. EPA is also making available to the public the final document “Integrated Review Plan for the Ozone National Ambient Air Quality Standards” (IRP). This document contains the plans for the review of the air quality criteria and national ambient air quality standards (NAAQS) for ozone. The Ozone NAAQS provide for the protection of public health and the environment from ozone in ambient air.

DATES: Comments should be submitted by June 27, 2011.

ADDRESSES: These documents will be available via the Internet at the following Web site: http://www.epa.gov/ttn/naaqs/standards/ozone/s03_index.html. Submit your comments on the REAs, identified by Docket ID No. EPA–HQ–OAR–2008–0699 by one of the following methods:

• E-mail: a-and-r-Docket@epa.gov.
• Fax: 202–566–9744.

• Hand Delivery: Environmental Protection Agency, EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. Such deliveries are only accepted during the Docket’s normal hours of operation, and special arrangements should be made for deliveries of boxed information.

Instructions: Direct your comments to Docket ID No. EPA–HQ–OAR–2008–0699. EPA’s policy is that all comments received will be included in the public docket without change and may be made available online at http://www.regulations.gov, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through http://www.regulations.gov (or e-mail). The http://www.regulations.gov Web site is an “anonymous access” system, which means EPA will not know your identity or contact information unless you
I. General Information

A. What should I consider as I prepare my comments for EPA?

1. Submitting CBI. Do not submit this information to EPA through http://www.regulations.gov or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD–ROM that you mail to EPA, mark the outside of the disk or CD–ROM as CBI and then identify electronically within the disk or CD–ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. Tips for Preparing Your Comments. When submitting comments, remember to:
   • Identify the rulemaking by docket number and other identifying information (subject heading, Federal Register date and page number).
   • Follow directions—the agency may reject comments which do not conform to directions, e.g., CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available either electronically in http://www.regulations.gov or in hard copy at the Air and Radiation Docket and Information Center, EPA/DC, EPA West, Room 3334, 1301 Constitution Ave., NW., Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566–1744, and the telephone number for the Air and Radiation Docket and Information Center is (202) 566–1742.

FOR FURTHER INFORMATION CONTACT: REA Plan for the primary ozone standard: John Langstaff, Office of Air Quality Planning and Standards (Mail code C539–07), U.S. Environmental Protection Agency, Research Triangle Park, NC 27711; telephone number: 919–541–1449; fax number: 919–541–5315; e-mail address: langstaff.john@epa.gov. REA Plan for the secondary ozone standard: Travis Smith, Office of Air Quality Planning and Standards (Mail code C539–07), U.S. Environmental Protection Agency, Research Triangle Park, NC 27711; telephone number: 919–541–2035; fax number: 919–541–5315; e-mail address: smith.jtravis@epa.gov.

SUPPLEMENTARY INFORMATION:

II. Information Specific to This Document

Two sections of the Clean Air Act (CAA) govern the establishment and revision of the NAAQS. Section 108 (42 U.S.C. 7408) directs the Administrator to identify and list certain air pollutants and then to issue air quality criteria for those pollutants. The Administrator is to list those air pollutants that in her “judgment, cause or contribute to air pollution which may reasonably be anticipated to endanger public health or welfare;” “the presence of which in the ambient air results from numerous or diverse mobile or stationary sources;” and “for which * * * [the Administrator] plans to issue air quality criteria * * *.” Air quality criteria are intended to “accurately reflect the latest scientific knowledge useful in indicating the kind and extent of all identifiable effects on public health or welfare which may be expected from the presence of [a] pollutant in the ambient air * * *” (42 U.S.C. 7408(b)). Under section 109 (42 U.S.C. 7409), EPA establishes primary (health-based) and secondary (welfare-based) NAAQS for pollutants for which air quality criteria are issued. Section 109(d) requires periodic review and, if appropriate, revision of existing air quality criteria. The revised air quality criteria reflect advances in scientific knowledge on the effects of the pollutant on public health or welfare. The EPA is also required to periodically review and revise the NAAQS, if appropriate, based on the revised criteria. Section 109(d)(2) requires that an independent scientific review committee “shall complete a review of the criteria * * * and the national primary and secondary ambient air quality standards * * * and shall recommend to the Administrator any new * * * standards and revisions of existing criteria and standards as may be appropriate * * *.” Since the early 1980s, this independent review function has been performed by the Clean Air Scientific Advisory Committee (CASAC).

Presently, EPA is reviewing the NAAQS for ozone. Key components of this review include a quantitative population exposure analysis and health risk assessment and a quantitative ecosystem exposure and welfare risk analysis. OAQPS has developed Risk and Assessment Plans (REA Plans) for Ozone Health Risk and Exposure and Ozone Welfare Risk and Exposure which include a discussion of the scope, approaches, and methods that staff is planning to use in conducting the exposure analysis and health and welfare risk assessment. The draft REA Plans and final IRP document announced today have been developed as part of the planning phase for the review. These documents will be available on the EPA’s Technology Transfer Network (TTN) Web site at http://www.epa.gov/tnn/naaqs/standards/ozone/s_o3_index.html in the “Documents for Review Initiated in 2008” section under “Planning Documents.” The REA Plans are being made available for consultation with CASAC and for public comment. Comments
should be submitted to the docket, as described above, by June 27, 2011. The CASAC consultation on these planning documents is scheduled for May 19–20, 2011. A separate Federal Register notice will provide details about this meeting and the process for participation.

Dated: April 25, 2011.

Mary Henigin,
Acting Director, Office of Air Quality Planning and Standards.
