

would supersede and replace the previous two IRPSs on the Committee. The Board also made the following minor changes in the interim final IRPS: Inclusion of current position titles; deletion of the requirement for quarterly meetings (meetings will be held on an as needed basis); and to make timing of appeal of Committee decisions to the NCUA Board consistent, inclusions of a statement that all decisions appealable to the Board are from the date of receipt of decision.¹

C. Summary of Comments

NCUA received three comments, two from credit union trade associations and one from a state credit union association. All three commenters generally supported the rule, but did request additional changes. All three commenters requested that appeals to the Supervisory Review Committee be more transparent. Ideas suggested by the commenters included publishing on NCUA's website the names of the committee members, the agenda and dates of committee meetings, an annual report of the committee's actions, and the decisions of the committee. NCUA is considering ways to make the appeals process more transparent, including adding information about the Committee and its functions to the NCUA website. The Board, however, does not believe it is necessary to include any actions related to transparency in this IRPS. The purpose of the IRPS is to inform credit unions of their rights of appeal to the Committee.

One commenter also requested that NCUA clarify how credit unions can appeal other supervisory and examination matters that are outside the scope of the Committee's review. Section B of this IRPS lists various NCUA regulations addressing procedures for other appealable issues. In addition, Section B notes that the Board serves as the final administrative decision maker for major disputes not covered by those other regulations or this IRPS. Such matters should first be pursued through the appropriate Regional Office or the Office of Corporate Credit Unions.

Regulatory Procedures

Regulatory Flexibility Act

The Regulatory Flexibility Act requires NCUA to prepare an analysis to describe a significant economic impact agency rulemaking may have on a substantial number of small credit

unions. For purposes of this analysis, credit unions under \$1 million in assets are considered small credit unions.

This final IRPS expands the types of determinations that credit unions may appeal to the NCUA's Supervisory Review Committee and combines two previous IRPS. This final IRPS imposes no additional financial, regulatory or other burden on credit unions. NCUA has determined and certifies that this final IRPS will not have a significant impact on a substantial number of small credit unions. Accordingly, NCUA has determined that a Regulatory Flexibility Analysis is not required.

Paperwork Reduction Act

NCUA has determined that this final IRPS does not increase paperwork requirements under the Paperwork Reduction Act of 1995 and regulations of the Office of Management and Budget.

Executive Order 13132

Executive Order 13132 encourages independent regulatory agencies to consider the impact of their regulatory actions on state and local interests. In adherence to fundamental federalism principles, NCUA, an independent regulatory agency as defined in 44 U.S.C. 3502(5), voluntarily complies with the executive order. This final IRPS applies to all credit unions that appeal NCUA material supervisory determinations before the NCUA Supervisory Committee, but does not have substantial direct effect on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government. NCUA has determined that this final IRPS does not constitute a policy that has federalism implications for purposes of the executive order.

Assessment of Federal Regulations and Policies on Families

NCUA has determined that this final IRPS will not affect family well-being within the meaning of Section 654 of the Treasury and General Government Appropriations Act, 1999, Public Law 105-277, 112 Stat. 2681 (1998).

Small Business Regulatory Enforcement Fairness Act

The Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104-121) provides generally for congressional review of agency rules. A reporting requirement is triggered in instances where NCUA issues a final rule as defined by Section 551 of the APA. 5 U.S.C. 551. The Office of

Management and Budget is currently reviewing this IRPS, but NCUA does not believe the IRPS is a major rule for purposes of the Small Business Regulatory Enforcement Fairness Act of 1996.

Accordingly, the interim final IRPS 11-1, which was published at 76 FR 3674 on January 20, 2011, is adopted as a final IRPS without change.

By the National Credit Union Administration Board on April 21, 2011.

Mary F. Rupp,

Secretary of the Board.

Editorial Corrections to the Export Administration Regulations

AGENCY: Bureau of Industry and Security, Commerce.

ACTION: Final rule.

SUMMARY: The Bureau of Industry and Security (BIS) publishes this final rule to implement editorial corrections to the Export Administration Regulations (EAR). In particular, this rule corrects the country entry for Syria on the Commerce Country Chart to ensure that the license requirements are accurately represented. In addition, this rule corrects other errors in the Commerce Control List such as inaccurate references, spelling and technical errors, and removes superfluous wording to ensure accuracy in the EAR.

DATES: Effective Date: This rule is effective: April 29, 2011.

FOR FURTHER INFORMATION CONTACT:

Sharron Cook, Office of Exporter Services, Bureau of Industry and Security, by telephone at (202) 482-4890 or by e-mail at sharron.cook@bis.doc.gov.

SUPPLEMENTARY INFORMATION: This final rule implements editorial corrections to four parts of the Export Administration Regulations (EAR), including several Export Control Classification Number (ECCN) entries. In particular, the Bureau of Industry and Security (BIS) publishes this rule to correct the country entry for Syria on the Commerce Country Chart to more clearly identify for exporters the licensing requirements that apply to this destination. In addition, this final rule

¹ Under IRPS 95-1, decisions were appealable 30 days from the date a Committee decision was issued and under IRPS 02-1 decisions were appealable 60 days from the appellant's receipt of a decision.

corrects inaccurate references, spelling and technical errors, and removes superfluous wording to ensure accuracy in the Commerce Control List (CCL). The revisions made by this rule are described more fully below in Code of Federal Regulations part number order.

Part 732

On October 3, 2008 (73 FR 57495), BIS published an interim final rule entitled "Encryption Simplification," which inadvertently removed subparagraphs (1), (2), and (3) from paragraph (b) of section 732.2. These subsections discussed the scope of the EAR in relation to publicly available technology and software. This rule restores those subparagraphs to section 732.2(b).

Part 738

On May 14, 2004 (69 FR 26766), BIS added General Order No. 2 to Supplement No. 1, Part 736 pursuant to Section 5(a)(1) of the Syria Accountability and Lebanese Sovereignty Restoration Act of 2003, which requires a prohibition on the export to Syria of all items on the CCL. However, the May 14, 2004 rule inaccurately represented the license requirements for Syria on the Commerce Country Chart (Supplement No. 1 to part 738). This rule revises those controls to ensure accurate licensing information is provided to improve compliance to the EAR. This rule removes the "X's" under all the reasons for control, and adds in their place "See General Order No. 2 in Supplement No. 1 to Part 736 of the EAR to determine whether a license is required to export or reexport to this destination." Adding this notation to the Commerce Country Chart does not substantively change existing controls related to Syria; it only serves to more accurately cite the applicable regulatory controls as set forth in the EAR.

Part 770

This rule revises section 770.2 to remove inaccurate ECCN references in paragraph (a)(1), which provides: "Interpretation 1: Anti-friction bearing or bearing systems and specially designed parts." The references to the five ECCNs in section 770.2 were inadvertently retained in the regulations when BIS removed the ECCNs from the Commerce Control List (CCL) in an interim rule published on January 15, 1998 rule (63 FR 2452). This rule amends this error by removing the references to ECCNs: 2A002, 2A003, 2A004, 2A005, and 2A006. This amendment is being made to ensure consistency with the EAR.

Part 774

This rule revises a number of entries with errors on the CCL to provide a complete and more accurate description of controls in certain ECCNs. A description of the specific amendments to the CCL is provided below. As described below, the amendments apply to ECCNs 0B002, 1B233, 1C006, 1E201, 1E355, 2B005, 6A995, 6D993, 7D001, 9D001, and 9D002.

Category 0—Nuclear Materials, Facilities, and Equipment [And Miscellaneous Items]

ECCN 0B002 is amended to redesignate paragraphs that were not correctly designated in an interim rule published on January 15, 1998 (63 FR 2452, 2462–3). To revise the error, this rule redesignates paragraphs f.1, f.2, g, g.1, g.2, g.3, and g.4, as paragraphs e.1, e.2, f, f.1, f.2, f.3, and f.4, respectively.

Category 1—Systems, Equipment, and Components

ECCN 1B233 is amended to move a paragraph that was misplaced below the License Requirements section in a final rule published on August 29, 2002 (67 FR 55594, 55602). This rule moves the paragraph, "Facilities and plants described in 1B233.a are subject to the export licensing authority of the Nuclear Regulatory Commission (see 10 CFR part 110)" from directly below the License Requirement section and relocates it to paragraph 2 in Related Controls in the List of Items Controlled section. This correction will ensure accuracy and consistency within the EAR.

ECCN 1C006 is amended to remove a paragraph inadvertently left after the technical note was removed in an interim rule published on January 15, 1998 (63 FR 2452, 2471). This rule removes paragraph "e" under the Items paragraph of the Lists of Items Controlled.

ECCN 1E201 is amended to correct an inaccurate reference in the heading published in an interim rule on January 15, 1998 (63 FR 2452, 2483). This rule corrects an inaccurate reference in the heading by revising the reference "1C002.a.2.c or .d" to read "1C002.b.3 and b.4."

ECCN 1E355 is amended to remove superfluous wording published in an interim rule on May 18, 1999 (64 FR 27138, 27150). Specifically, this rule removes a redundant reference to the acronym "CWC," which stands for the Chemical Weapons Convention, at the end of paragraph "b." under the Items paragraph of the Lists of Items Controlled.

Category 2—Materials Processing

ECCN 2B005 is amended to correct a reference error made in a final rule published on April 18, 2008 (73 FR 21035, 21039). This rule corrects the misprint in "(3)" of the Related Controls paragraph of "2B104" to read "2B105" to make the reference accurate and consistent with the EAR.

Category 6—Sensors and Lasers

ECCN 6A995 is amended to correct an inadvertent error made in a final rule published on November 5, 2007 (72 FR 62524, 62547). This rule corrects the spelling of the word "or" after the word "than" and before the word "equal" in the Note directly following paragraph 6A995.e.2.b. This change will ensure consistency and accuracy in the EAR.

ECCN 6D993 is amended to correct a technical error made in an interim rule published on January 15, 1998 (63 FR 2452, 2535). This rule corrects the Unit paragraph in the Lists of Items Controlled to correctly coincide with the nature of the controlled software by removing the text "Equipment in number; parts and accessories in" so that the only remaining text is "\$ value."

Category 7—Navigation and Avionics

ECCN 7D001 is amended to correct a grammatical error made in a final rule published on November 5, 2007 (72 FR 62524, 62549). This rule adds a comma between the words "systems" and "inertial" in the RS paragraph of the License Requirements section to ensure grammatical accuracy in the EAR.

Category 9—Aerospace and Propulsion

ECCN 9D001 is amended to correct a technical error made in an interim rule published on March 25, 1996 (61 FR 12713, 13032). This rule revises the description of the software to which the NS control applies in the License Requirements section by adding the phrase "and technology controlled by" to ensure accuracy in the application of these controls. This additional language ensures that 9E003 technology is not improperly referred to as equipment.

ECCN 9D002 is amended to correct a technical error made in a final rule published on March 5, 2003 (68 FR 10586, 10608). This rule revises the description of the software to which the NS control applies in the License Requirements section to ensure accuracy in the application of these controls. This additional wording ensures that 9E003 technology is not improperly referred to as equipment.

Rulemaking Requirements

1. This final rule has been determined to be not significant for purposes of E.O. 12866.

2. Notwithstanding any other provision of law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with a collection of information, subject to the requirements of Paperwork Reduction Act, unless that collection of information displays a currently valid Office of Management and Budget Control Number. This rule does not affect any paperwork collection. This rule does not contain policies with Federalism implications as that term is defined under E.O. 13132.

3. The Department finds that there is good cause under 5 U.S.C. 553(b)(B) to waive the provisions of the Administrative Procedure Act requiring prior notice and the opportunity for public comment because it is unnecessary. The revisions made by this rule are administrative in nature and do not affect the rights and obligations of the public. Because these revisions are not substantive changes to the EAR, it is unnecessary to provide notice and opportunity for public comment. In addition, the 30-day delay in effectiveness required by 5 U.S.C. 553(d) is not applicable because this rule is not a substantive rule. Notice of proposed rulemaking and opportunity for public comment are not required for this rule under the Administrative Procedure Act or by any other law, and the analytical requirements of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) are not applicable.

§ 732.2 Steps regarding scope of the EAR.

* * * * *

(b) * * *

(1) If your technology or software is publicly available, and therefore outside the scope of the EAR, you may proceed with the export or reexport if you are not a U.S. person subject to General

Prohibition Seven. If you are a U.S. person, go to Step 15 at § 732.3(j) of this part. If you are a U.S. person and General Prohibition Seven concerning proliferation activity of U.S. persons does not apply, then you may proceed with the export or reexport of your publicly available technology or software. Note that all U.S. persons are subject to the provisions of General Prohibition Seven.

(2) If your technology or software is not publicly available and you are exporting from the United States, skip to the Step 7 in § 732.3(b) of this part concerning the general prohibitions.

(3) If you are exporting items from a foreign country, you should then proceed to Step 3 in paragraph (c) of this section and the other steps concerning the scope of the EAR.

RIN 0651-AC52

Changes To Implement the Prioritized Examination Track (Track I) of the Enhanced Examination Timing Control Procedures

AGENCY: United States Patent and Trademark Office, Commerce.

ACTION: Final rule; delay of effective and applicability dates.

SUMMARY: On April 4, 2011, the United States Patent and Trademark Office (Office) published a final rule that revises the rules of practice in patent cases to implement a procedure under which applicants may request prioritized examination at the time of filing of an application upon payment of appropriate fees and compliance with certain requirements (Track I final rule). The prioritized examination procedure is the first track (Track I) of a 3-Track examination process designed to provide applicants with greater control over when their nonprovisional utility and plant applications are examined and to promote greater efficiency in the patent examination process. The Track I final rule states that the effective date is May 4, 2011, and that a request for prioritized examination may be submitted with any original utility or plant application filed on or after May 4, 2011. The Office is hereby notifying the public that the Track I final rule effective date and applicability date have been delayed until further notice.

DATES: Effective Date: The effective date for the amendments to 37 CFR 1.17 and 1.102 published at 76 FR 18399, April 4, 2011 (the Track I final rule) is delayed until further notice. The Office will publish a document in the **Federal Register** announcing the new effective date.

Applicability date: No request for prioritized examination will be accepted until further notice.

FOR FURTHER INFORMATION CONTACT: Eugenia A. Jones, Kathleen Kahler Fonda, or Michael T. Cygan, Office of Patent Legal Administration, Office of

the Associate Commissioner for Patent Examination Policy, by telephone at (571) 272-7727, (571) 272-7754 or (571) 272-7700, or by mail addressed to: Mail Stop Comments Patents, Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450, marked to the attention of Eugenia A. Jones.

SUPPLEMENTARY INFORMATION: On April 4, 2011, the Office published a final rule that revises the rules of practice in patent cases to implement a procedure under which applicants may request prioritized examination at the time of filing of an application upon payment of appropriate fees and compliance with certain requirements (Track I final rule). See *Changes to Implement the Prioritized Examination Track (Track I) of the Enhanced Examination Timing Control Procedures*, 76 FR 18399 (Apr. 4, 2011). The Office set an aggregate goal for the prioritized examination procedure of providing a final disposition within twelve months of prioritized status being granted. See *Changes to Implement the Prioritized Examination Track (Track I) of the Enhanced Examination Timing Control Procedures*, 76 FR at 18401. The Office, however, has found it necessary to revise its patent examiner hiring plan due to funding limitations. The revised hiring plan does not permit the Office to hire new examiners. With the current level of resources, the Office will not be able to meet the twelve-month pendency goal in prioritized examination applications without impacting the non-prioritized examination applications at this time. Therefore, the Office is delaying the effective date and applicability date of the Track I final rule until further notice. When the funding limitations are resolved, the Office will issue a subsequent notice identifying a revised effective date and applicability date on which the final rule shall apply.

Dated: April 25, 2011.

David J. Kappos,

Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office.

Clarifications to Indian Tribes' Clean Air Act Regulatory Requirements; Direct Final Amendments

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: The EPA is taking direct final action to amend certain Clean Air Act regulations pertaining to Indian tribes. This action changes the title of the regulations titled, "Tribal Clean Air Act Authority" to the more accurate "Indian Country: Air Quality Planning and Management." The action also reorganizes existing sections for better placement within the regulations.

DATES: The direct final rule is effective on July 28, 2011 without further notice, unless EPA receives relevant adverse comments by May 31, 2011. If EPA receives relevant adverse comments, we will publish a timely withdrawal in the **Federal Register** informing the public that the amendments in this rule will not take effect.
