pertaining to the adoption of new behavioral interventions at 40 community health organizations and 40 community behavioral health organizations across the United States. Enrolled organizations will submit their responses for all surveys via Qualtrics, a third-party, online Web-based survey platform.

The estimated burden for data collection is 940 hours across a total of 400 participants. Using median hourly wage estimates reported by the Bureau of Labor Statistics, May 2009 National Occupational Employment and Wage Estimates, and a loading rate of 25%, the estimated total cost to respondents is $63,057.04. A breakdown of these estimates is presented in Table 1 below.
