Initial Paperwork Reduction Act of 1995 Analysis

Document FCC 11-62 seeks comment on a potential new or revised information collection requirement or may result in a new or revised

information collection requirement. If the Commission adopts any new or revised information collection requirement, the Commission will publish a separate notice in the **Federal Register** inviting the public to comment on the requirement, as mandated by the Paperwork Reduction Act of 1995. See Public Law 104–13 (44 U.S.C. 3501 *et seq.*). In addition, pursuant to the Small Business Paperwork Relief Act of 2002, the Commission will seek specific comment from the public on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees, see Public Law 107–198; 47 U.S.C. 3506(c)(4).”

Synopsis

1. In document FCC 11–62, the Commission seeks further comment on VRS market structure and compensation method proposals related to the structure and practices of the VRS program initially raised in *Structure and Practices of the Video Relay Service Program*, CG Docket No. 10–51, Notice of Inquiry, published at 75 FR 41863, July 19, 2010 (*2010 VRS NOI*). For example, the Commission seeks comment on specific proposals for VRS accounting. The Commission also seeks comment on how to treat certain costs and expenses. Commenters should address whether the Commission should limit or exclude the expenses of raising capital from VRS rates in general, or whether individual providers should not receive some or all compensation for the costs incurred in various methods of raising capital. Similarly, the Commission invites comment on the proper regulatory treatment of various methods used by providers to raise capital, including appropriate disclosure and approval requirements that may be implemented.

2. In addition, in the event that the Commission is unable to finalize the compensation structure for VRS in time to calculate a new rate for the Fund year beginning July 1, 2011, the Commission tentatively concludes that extending the current interim rates and compensation structure for VRS to the 2011–12 Fund year would be appropriate. The current interim rates have resulted in significant savings for the Fund, demand for VRS has remained stable during the 2010–11 Fund year, and data submitted to the Fund administrator demonstrate that no VRS provider has failed to meet speed of answer requirements under the interim rates. The Commission also recognizes the certainty and stability that the current compensation structure can offer until final rules in the *2010 VRS NOI* proceeding are implemented.

The Commission seeks comment on this tentative conclusion.

Initial Regulatory Flexibility Certification

3. The Regulatory Flexibility Act of 1980, as amended (RFA), requires that an initial regulatory flexibility analysis be prepared for notice-and-comment rule making proceedings, unless the agency certifies that “the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities.” 5 U.S.C. 605(b). The RFA generally defines the term “small entity” as having the same meaning as the terms “small business,” “small organization,” and “small governmental jurisdiction.” 5 U.S.C. 601(6). In addition, the term “small business” has the same meaning as the term “small business concern” under the Small Business Act. 5 U.S.C. 601(3). A “small business concern” is one which: (1) is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the Small Business Administration (SBA). 15 U.S.C. 632.

4. In document FCC 11–62, the Commission seeks comment on the rates and compensation for VRS for the 2011–12 Interstate Telecommunications Relay Services (TRS) Fund (Fund) year. Specifically, the Commission seeks further comment on VRS market structure and compensation method proposals initially raised in a *2010 VRS NOI* related to the structure and practices of the VRS program. In addition, in the event the Commission is unable to fully resolve the issues raised in the *2010 VRS NOI* prior to the beginning of the 2011–12 Fund year, the Commission seeks comment on its tentative conclusion that extending the current interim rates and compensation structure provides the best means to ensure stability and certainty for VRS while the Commission continues to evaluate the issues and the substantial record developed in response to this proceeding.

5. The Commission’s proposed action is to extend the current 2010–2011 rates for VRS for the upcoming 2011–2012 Fund year. The Commission concludes that this proposal will not impose a financial burden on entities, including small businesses, because these entities will continue to be promptly reimbursed from the Interstate TRS Fund at the same rate at which they are currently compensated.

6. Therefore, the Commission certifies that the proposal in document FCC 11–62 if adopted, would not have a

significant economic impact on a substantial number of small entities.

The Commission will send a copy of document FCC 11–62, including a copy of this Initial Regulatory Flexibility Certification, to the Chief Counsel for Advocacy of the SBA.

Ordering Clauses

7. Pursuant to sections 4(i)–(j), 225, and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i)–(j), 225, and 303(r), document FCC 11–62 *is adopted*.

8. The Commission’s Consumer and Governmental Affairs Bureau, Reference Information Center, *shall send* a copy of document FCC 11–62, including the Initial Regulatory Flexibility Analysis, to the Chief Counsel for Advocacy of the Small Business Administration.
