Site-Specific Analyses for Demonstrating Compliance With Subpart C Performance Objectives

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of availability of preliminary proposed rule language and public meeting.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is proposing to amend its regulations to require low-level radioactive waste disposal facilities to conduct site-specific analyses to demonstrate compliance with the performance objectives. While the existing regulatory requirements are adequate to protect public health and safety, these amendments would enhance the safe disposal of low-level radioactive waste. The NRC is proposing additional changes to the regulations to reduce ambiguity, facilitate implementation, and to better align the requirements with current health and safety standards. In addition, the NRC is making available the rulemaking’s associated regulatory basis documents. The NRC will conduct a public meeting on May 18, 2011, to discuss the preliminary proposed rule language and its associated regulatory basis documents. The availability of the preliminary proposed rule language and its associated regulatory basis documents are intended to inform stakeholders of the current status of the NRC’s activities and solicit early public comments.

DATES: Comments on the preliminary proposed rule language and the regulatory basis documents should be postmarked no later than June 18, 2011. Comments received after this date will be considered if it is practical to do so, but the NRC is able to assure consideration only for comments received on or before this date.

See **SUPPLEMENTARY INFORMATION** section for public meeting information.

ADDRESSES: Please include Docket ID NRC-2011-0012 in the subject line of your comments. Comments submitted in writing or in electronic form will be posted on the NRC Web site and on the Federal rulemaking Web site, <http://www.regulations.gov>. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments to remove any identifying or contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed. You may submit comments by any one of the following methods:

- *Federal Rulemaking Web site:* Go to <http://www.regulations.gov> and search for documents filed under Docket ID
