SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-64349; File No. SR-NYSEArca-2011-22]

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Amending NYSE Arca Equities Rule 7.16 (Short Sales) To Modify the Exchange's Procedures for Early Termination of the Short Sale Price Test Restrictions of Rule 201 of Regulation SHO Based on a Triggering Transaction That Another Exchange or a Self-Regulatory Organization Has Determined Was a Clearly Erroneous Execution

April 27, 2011.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (the "Act")² and Rule 19b-4 thereunder,³ notice is hereby given that, on April 25, 2011, NYSE Arca, Inc. (the "Exchange" or "NYSE Arca") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I and II below, which Items have been substantially prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend NYSE Arca Equities Rule 7.16 (Short Sales) to modify the Exchange's procedures for early termination of the short sale price test restrictions of Rule 201 of Regulation SHO ("Rule 201")⁴ under the Act based on a triggering transaction that another exchange or a self-regulatory organization ("SRO") has determined was a clearly erroneous execution pursuant to the rules of that exchange or SRO. The text of the proposed rule change is available at the Exchange, the Commission's Public Reference Room, and <http://www.nyse.com>.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change

and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

On February 26, 2010, the Commission adopted amendments to Rule 201.⁵ In order to implement the provisions of revised Rule 201, the Exchange amended NYSE Arca Equities Rule 7.16 (Short Sales) to (1) Establish procedures for the Exchange, as a listing market, to determine that the short sale price test restrictions of Rule 201 have been triggered for a covered security, (2) establish the protocols for the handling of short sale orders by the Exchange, as a trading center, in the event the short sale price test restrictions of Rule 201 are triggered, including establishing what types of short sale orders will be re-priced to achieve a Permitted Price (as defined and calculated in NYSE Arca Equities Rule 7.16(f)(v)(C)), in accordance with Rule 201, during a period when the short sale price test restrictions of Rule 201 are in effect ("Short Sale Period"), (3) establish the Exchange's procedures regarding the execution and display of permissible orders during a Short Sale Period, and the execution and display of orders marked "short exempt" during such a period, and (4) provide that, during a Short Sale Period, Exchange systems will not execute or display a short sale order with respect to that security at a price that is less than or equal to the current national best bid, except as otherwise provided by NYSE Arca Equities Rule 7.16(f) and consistent with Rule 201.⁶

Under NYSE Arca Equities Rule 7.16(f)(iii), when the Exchange is the listing market for a covered security, Exchange systems will determine whether the short sale price test restrictions of Rule 201 have been triggered (i.e., that a covered security

has experienced a decrease in price of 10% or more from the security's closing price as of the end of regular trading hours on the prior day) and will notify the single plan processor responsible for consolidation of information for the covered security pursuant to Rule 603(b) of Regulation NMS.⁷ Once the short sale price test restrictions of Rule 201 are triggered by the listing market, those restrictions will remain in effect until the close of trading on the next trading day.⁸

If, however, the Exchange determines that the short sale price test for a covered security was triggered because of a clearly erroneous execution on the Exchange,⁹ pursuant to NYSE Arca Equities Rule 7.16(f)(iv)(A), the Exchange may lift the short sale price test restrictions before the Short Sale Period ends for a security for which the Exchange is the listing market or, for a security listed on another market, notify the other market of the Exchange's determination that the triggering transaction was a clearly erroneous execution.

For securities for which the Exchange is the listing market, NYSE Arca Equities Rule 7.16 currently addresses only clearly erroneous triggering transactions deemed to be clearly erroneous executions under the Exchange's rules, and does not address situations where another exchange or a SRO determines, under its respective rules, that a triggering transaction was a clearly erroneous execution. To address this scenario, the Exchange proposes to amend NYSE Arca Equities Rule 7.16(f)(iv)(A)¹⁰ to provide that the Exchange may also lift the short sale price test restrictions before the Short Sale Period ends, for covered securities for which the Exchange is the listing market, if the Exchange has been informed by another exchange or a SRO that a transaction in the covered

security that occurred at the Trigger Price¹¹ was a clearly erroneous execution, as determined by that exchange or SRO under its rules.¹²

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹³ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹⁴ in particular, in that it is designed to, among other things, prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. The proposal is designed to refine the Exchange's written policies and procedures reasonably designed to prevent the execution or display of a short sale order of a covered security in violation of the short sale price test restrictions established in Rule 201. To that end, the proposed rule change expands the ability of the Exchange, as a listing market, to lift short sale price test restrictions to include situations where another exchange or a SRO has determined that a triggering transaction was a clearly erroneous execution under the rules of that exchange or SRO.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

⁷ See 17 CFR 242.201(b)(3); 17 CFR 242.603(b). See also Rule 201(a)(6) of Regulation SHO, which defines the term "plan processor" to have the same meaning as in Rule 600(b)(55) of Regulation NMS. 17 CFR 242.600(b)(55). The single plan processors are "exclusive processors" as defined under Section 3(a)(22) of the Act. See 15 U.S.C. 78c(a)(22).

⁸ The short sale price test restrictions will remain in effect at all times when quotation information and the national best bid is collected, processed and disseminated pursuant to a national market system plan. This may extend beyond regular trading hours. Division of Trading & Markets: Responses to Frequently Asked Questions Concerning Rule 201 of Regulation SHO, at Q&A 2.1.

⁹ Determination of a "clearly erroneous" execution will be made in accordance with NYSE Arca Equities Rule 7.10.

¹⁰ The Exchange is also proposing two technical amendments to NYSE Arca Equities Rule 7.16 to correct references to the Exchange (in subparagraphs (f)(iv)(A) and (f)(iv)(B) of NYSE Arca Equities Rule 7.16).

¹¹ The term "Trigger Price" is used in NYSE Arca Equities Rule 7.16(f) to refer to a decrease of 10% or more in a security's price from the security's closing price on the listing market as of the end of regular trading hours on the prior day. Under NYSE Arca Equities Rule 7.16(f)(iii), the short sale price test restrictions of Rule 201 are triggered if a transaction in a covered security occurs at a Trigger Price.

¹² The Exchange will only lift the short sale price test restrictions before the Short Sale Period ends under these circumstances when informed by another exchange or a SRO that a triggering transaction has been determined to be a clearly erroneous execution under the rules of the exchange or SRO, consistent with the authority of that exchange or SRO for making such determinations.

In the Rule 201 Adopting Release, the Commission also adopted amendments to Rule 200(g) of Regulation SHO to include a "short exempt" marking requirement. 17 CFR 242.200(g).

⁶ See Securities Exchange Act Release No. 63971 (February 25, 2011), 76 FR 12157 (March 4, 2011) (SR-NYSEArca-2011-05).

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Exchange has filed the proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act¹⁵ and Rule 19b-4(f)(6) thereunder.¹⁶ Because the proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative prior to 30 days from the date on which it was filed, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6)(iii) thereunder.

A proposed rule change filed under Rule 19b-4(f)(6)¹⁷ normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b-4(f)(6)(iii),¹⁸ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposal may become operative immediately upon filing.

The Commission has considered the Exchange's request to waive the 30-day operative delay, and hereby grants the request. The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest, as it will permit the Exchange to lift Rule 201's short sale price test restrictions, in a covered security for which the Exchange is the listing market, when such restrictions were triggered by a transaction that another exchange or a SRO has determined to be a clearly erroneous execution, pursuant to the rules of that exchange or SRO.¹⁹ For this reason, the Commission designates the proposed rule change to be operative upon filing.

At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of

investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Paper Comments
