PART 275—PERFORMANCE REPORTING SYSTEM

4. In § 275.3:
   a. Revise paragraph (a).
   b. Remove paragraph (b).
   c. Redesignate paragraph (c) as paragraph (b).
   d. Redesignate paragraph (d) as paragraph (c).

   The revision reads as follows:

   § 275.3 Federal monitoring.
   (a) Management Evaluation Reviews of State Agency’s Administration/Operation of SNAP. FNS shall conduct management evaluation reviews of certain functions performed at the State agency level in the administration/operation of the program. FNS will designate specific areas required to be reviewed each fiscal year.
   (b) Federal monitoring.
      (1) State Agency’s Administration/Operation of SNAP. FNS shall conduct Federal monitoring of the operation of the program. FNS will designate specific areas required to be reviewed each fiscal year.
      (2) Operations.
         (i) State Operations.
            (1) Site-specific analyses for demonstrating compliance.
               (A) Demonstrating compliance with the performance objectives. While the existing regulatory requirements are adequate to protect public health and safety, these amendments would enhance the safe disposal of low-level radioactive waste. The NRC is proposing additional changes to the regulations to reduce ambiguity, facilitate implementation, and to better align the requirements with current health and safety standards. In addition, the NRC is making available the rulemaking’s associated regulatory basis documents. The NRC will conduct a public meeting on May 18, 2011, to discuss the preliminary proposed rule language and its associated regulatory basis documents. The availability of the preliminary proposed rule language and its associated regulatory basis documents are intended to inform stakeholders of the current status of the NRC’s activities and solicit early public comments.
         (ii) Site-specific analyses for determining program performance.
            (1) Site-specific analyses for demonstrating compliance.
               (A) Demonstrating compliance with the performance objectives. While the existing regulatory requirements are adequate to protect public health and safety, these amendments would enhance the safe disposal of low-level radioactive waste. The NRC is proposing additional changes to the regulations to reduce ambiguity, facilitate implementation, and to better align the requirements with current health and safety standards. In addition, the NRC is making available the rulemaking’s associated regulatory basis documents. The NRC will conduct a public meeting on May 18, 2011, to discuss the preliminary proposed rule language and its associated regulatory basis documents. The availability of the preliminary proposed rule language and its associated regulatory basis documents are intended to inform stakeholders of the current status of the NRC’s activities and solicit early public comments.

   5. In § 275.7:
      a. Revise paragraph (a).
      b. Remove paragraph (b).
      c. Remove paragraph (c).
      d. Remove paragraph (d).
      e. Redesignate paragraph (e) as paragraph (b).
      f. Amend newly redesignated paragraph (b) by removing the word “on-site”.

   The revision reads as follows:

   § 275.7 Selection of sub-units for review.
   (a) Definition of sub-units. Sub-units are the physical locations of organizational entities within project areas responsible for operating various aspects of the SNAP and include but are not limited to certification offices, call centers, and employment and training offices.
   (b) Selection of sub-units for review.
      (1) Identification of the sub-units selected for review and the techniques used to select them.
      (2) Identification of the sub-units selected for review.
         (i) Identification of the sub-units selected for review.
            (1) Site-specific analyses for demonstrating compliance with the performance objectives.
               (A) Site-specific analyses for demonstrating compliance with the performance objectives.
                  (1) Site-specific analyses for demonstrating compliance with the performance objectives.
                     (1) Site-specific analyses for demonstrating compliance with the performance objectives.

   Dated: April 22, 2011.

   Kevin Concannon,
   Under Secretary, Food, Nutrition, and Consumer Services.

NUCLEAR REGULATORY COMMISSION

10 CFR Part 26
RIN 3150–AI94
[NRC–2011–0058]

Alternative to Minimum Days Off Requirements

AGENCY: Nuclear Regulatory Commission.

ACTION: Proposed rule; correction.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is correcting a proposed rule that appeared in the Federal Register on April 26, 2011 (76 FR 23208). The NRC is proposing to amend its regulations governing the fitness for duty of workers at nuclear power plants. This document corrects a typographical error in a Web site address.

FOR FURTHER INFORMATION CONTACT: Howard Benowitz, Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington DC 20555; telephone: 301–415–4060; e-mail: Howard.Benowitz@nrc.gov.

SUPPLEMENTARY INFORMATION: On page 23216, in the first column, the second sentence of the third paragraph is corrected to read: “The NRC Form 670 and proposed rule are available at the NRC’s Web site: http://www.nrc.gov/public-involve/doc-comment/omb/index.html for 30 days after the signature date of this notice.

Dated at Rockville, Maryland, this 27th day of April 2011.

For the Nuclear Regulatory Commission.

Cindy Bladey,
Chief, Rules, Announcements and Directives Branch, Division of Administrative Services, Office of Administration.

BILLING CODE 7590–01–P

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is proposing to amend its regulations to require low-level radioactive waste disposal facilities to conduct site-specific analyses to demonstrate compliance with the performance objectives. While the existing regulatory requirements are adequate to protect public health and safety, these amendments would enhance the safe disposal of low-level radioactive waste. The NRC is proposing additional changes to the regulations to reduce ambiguity, facilitate implementation, and to better align the requirements with current health and safety standards. In addition, the NRC is making available the rulemaking’s associated regulatory basis documents. The NRC will conduct a public meeting on May 18, 2011, to discuss the preliminary proposed rule language and its associated regulatory basis documents. The availability of the preliminary proposed rule language and its associated regulatory basis documents are intended to inform stakeholders of the current status of the NRC’s activities and solicit early public comments.

DATES: Comments on the preliminary proposed rule language and the regulatory basis documents should be postmarked no later than June 18, 2011. Comments received after this date will be considered if it is practical to do so, but the NRC is able to assure consideration only for comments received on or before this date.

See SUPPLEMENTARY INFORMATION section for public meeting information.

ADDRESSES: Please include Docket ID NRC–2011–0012 in the subject line of your comments. Comments submitted in writing or in electronic form will be posted on the NRC Web site and on the Federal rulemaking Web site, http://www.regulations.gov. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed. The NRC requests that any party soliciting or aggregating comments received from other persons for submission to the NRC inform those persons that the NRC will not edit their comments to remove any identifying or contact information, and therefore, they should not include any information in their comments that they do not want publicly disclosed. You may submit comments by any one of the following methods:

• Federal Rulemaking Web site: Go to http://www.regulations.gov and search for documents filed under Docket ID

SUPPLEMENTARY INFORMATION:

Discussion
The NRC is proposing to amend its regulations to require low-level radioactive waste disposal facilities to conduct site-specific analyses to demonstrate compliance with the performance objectives in Title 10 of the Code of Federal Regulations (10 CFR) part 61. The purpose of these amendments would be to enhance the safe disposal of low-level radioactive waste. The NRC is also proposing additional changes to the regulations in 10 CFR part 61 to reduce ambiguity, facilitate implementation, and to better align the requirements with current health and safety standards.

The NRC is making available a preliminary version of the proposed rule language and its associated regulatory basis documents to inform stakeholders of the current status of this proposed rulemaking. The NRC is inviting stakeholders to comment on the preliminary proposed rule language and its associated regulatory basis documents. The preliminary proposed rule language may be subject to additional significant revisions during the rulemaking process prior to publication for formal comment as a proposed rule.

The NRC will review and consider any comments received on the preliminary proposed rule language and regulatory basis documents; however, the NRC will not formally respond to comments. As appropriate, the Statements of Consideration for the proposed rule may briefly discuss any substantive changes made to the proposed rule language as a result of comments received on this preliminary version. Stakeholders will also have an additional opportunity to comment on the rule language when it is published as a proposed rule in accordance with the provisions of the Administrative Procedures Act. The NRC will respond to any such comments in the Statements of Consideration for the final rule.

The NRC may post updates to the preliminary rule language on the Federal rulemaking Web site under Docket ID NRC–2011–0012. The Regulations.gov Web site allows members of the public to set-up e-mail alerts so that they may be notified when documents are added to a docket. Users are notified via e-mail at an e-mail address provided at the time of registration for the notification. Directions for signing up for the e-mail alerts can be found at http://www.regulations.gov. To do so, navigate to a docket folder you are interested in and then click the “Sign up for E-mail Alerts” link.

Public Meeting
The NRC plans to conduct a public meeting on May 18, 2011, to discuss the preliminary proposed rule language and the regulatory basis documents. The public meeting will be held from 8:30 a.m. to 4:30 p.m. at The Legacy Hotel and Meeting Centre, 1775 Rockville Pike, Rockville, Maryland 20852. The meeting will provide an opportunity for stakeholders to ask clarifying questions to help formulate written comments. The meeting agenda can be viewed and downloaded electronically from the NRC’s Public Meeting Web site.

Attendees are requested to notify Mr. Andrew Carrera at (301) 415–1078 or e-mail Andrew.Carrera@nrc.gov of their planned attendance and if special services are necessary, such as for the hearing impaired. In addition, interested individuals may also request to participate via teleconference or Webinar by contacting Mr. Carrera prior to the meeting day.

DATED at Rockville, Maryland, this 27th day of April, 2011.

Carol Gallagher,
Deputy Director, Division of Intergovernmental Liaison and Rulemaking, Office of Federal and State Materials and Environmental Management Programs.
