Wisconsin: Incorporation by Reference of Approved State Hazardous Waste Management Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Immediate final rule.

SUMMARY: The Resource Conservation and Recovery Act of 1976, as amended (RCRA) allows EPA to authorize States to operate their hazardous waste management programs in lieu of the Federal program. EPA uses the regulations entitled “Approved State Hazardous Waste Management Programs” to provide notice of the authorization status of State programs and to incorporate by reference those provisions of the State statutes and regulations that will be subject to EPA’s inspection and enforcement. This rule codifies in the regulations the prior approval of Wisconsin’s hazardous waste management program and incorporates by reference authorized provisions of the State’s statutes and regulations.

DATES: This regulation is effective July 8, 2011, unless EPA receives adverse written comment on this regulation by the close of business June 8, 2011. If EPA receives such comments, it will publish a timely withdrawal of this immediate final rule in the Federal Register informing the public that this rule will not take effect. The incorporation by reference of authorized provisions in the Wisconsin statutes and regulations contained in this rule is approved by the Director of the Federal Register as of July 8, 2011, in accordance with 5 U.S.C. 552(a) and 1 CFR part 51.

SUPPLEMENTARY INFORMATION:

I. Incorporation By Reference

A. What is codification?

Codification is the process of placing a State’s statutes and regulations that comprise the State’s authorized hazardous waste management program into the Code of Federal Regulations (CFR), Section 3006(b) of RCRA, as amended, allows EPA to authorize State hazardous waste management programs to operate in lieu of the federal hazardous waste management regulatory program.

EPA codifies its authorization of the State programs in 40 CFR part 272 and incorporates by reference State statutes and regulations that EPA will enforce under sections 3007 and 3008 of RCRA and any other applicable statutory provisions.

The incorporation by reference of State authorized programs in the CFR should substantially enhance the public’s ability to discern the current status of the authorized State program and State requirements that can be federally enforced. This effort provides clear notice to the public of the scope of the authorized program in each State.

B. What is the history of the authorization and codification of Wisconsin’s hazardous waste management program?

EPA first codified Wisconsin’s authorized hazardous waste program on February 21, 1989, effective April 24, 1989 (54 FR 7422), and updated the codification of Wisconsin’s program on March 30, 1990, effective May 29, 1990 (55 FR 11910), and September 22, 1993, effective November 22, 1993 (58 FR 49199). In this action, EPA is revising Subpart YY of 40 CFR part 272 to include the authorization revision actions effective through April 17, 2009.

C. What decisions have we made in this rule?

The purpose of today’s Federal Register document is to codify Wisconsin’s base hazardous waste management program and its revisions to that program. This codification reflects the Wisconsin hazardous waste program EPA authorized in final rules dated April 15, 2009 (74 FR 17423) and April 17, 2009 (74 FR 17785).

EPA provided notices and opportunity for comments on its decisions to authorize the Wisconsin program. EPA is not now reopening the decisions, nor requesting comments, on the Wisconsin authorizations as published in the Federal Register notices specified in Section B of this document.

This document incorporates by reference Wisconsin’s authorized hazardous waste statutes and regulations and clarifies which provisions are included in the authorized and federally enforceable program. By codifying Wisconsin’s authorized program and by amending the CFR, the public will be more easily able to discern the status of federally approved requirements of the Wisconsin hazardous waste management program.

EPA is incorporating by reference the Wisconsin authorized hazardous waste program in subpart YY of 40 CFR part 272. 40 CFR 272.2501 incorporates by reference Wisconsin’s authorized hazardous waste statutes and regulations. Section 272.2501 also references the statutory provisions (including procedural and enforcement provisions) which provide the legal basis for the State’s implementation of the hazardous waste management program, the Memorandum of Agreement, the Attorney General’s Statements, and the Program Description, which are approved as part of the hazardous waste management program under Subtitle C of RCRA.

D. What is the effect of Wisconsin’s codification on enforcement?

The EPA retains its authority under statutory provisions, including but not limited to, RCRA sections 3007, 3008, 3013, and 7003, and other applicable statutory and regulatory provisions to undertake inspections and enforcement actions and to issue orders in all authorized States. On occasion when EPA might need to undertake these actions, it will rely on Federal sanctions, Federal inspection authorities, and Federal procedures rather than any authorized State analogues to these provisions. Therefore, EPA is not incorporating by reference any such approved Wisconsin procedural and enforcement authorities. 40 CFR 272.2501(c)2 lists the statutory provisions which provide the legal basis for the State’s implementation of the hazardous waste management program, as well as those procedural and enforcement authorities that are part of the State’s approved program, but these are not incorporated by reference.

E. What State provisions are not part of the codification?

The public needs to be aware that some provisions of Wisconsin’s hazardous waste management program are not part of the federally authorized State program. These non-authorized provisions include:

(1) Provisions that are not part of the RCRA subtitle C program because they are “broader in scope” than RCRA subtitle C (see 40 CFR 271.1(i));

(2) Federal rules for which Wisconsin is not authorized, but which have been incorporated into the State regulations because of the way the State adopted Federal regulations by reference.

(3) Unauthorized State requirements; and
as amended, which lists each such provision.
Some existing State requirements may be similar to the HSWA requirement implemented by EPA. However, until EPA authorizes those State requirements, EPA can only enforce the HSWA requirements and not the State analogs. EPA will not codify those State requirements until the State receives authorization for those requirements.

II. Administrative Requirements

1. Executive Order 18266: Regulatory Planning Review

The Office of Management and Budget has exempted this rule from its review under Executive Order 12866 (58 FR 51735, October 4, 1993) and, therefore, this action is not subject to review by OMB.

2. Paperwork Reduction Act

This rule does not impose an information collection burden under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.).

3. Regulatory Flexibility Act

This action authorizes State requirements for the purpose of RCRA section 3006 and imposes no additional requirements beyond those imposed by State law. Accordingly, I certify that this rule will not have a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.).

4. Unfunded Mandates Reform Act

Because this rule approves pre-existing requirements under State law and does not impose any additional enforceable duty beyond that required by State law, it does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4).

5. Executive Order 13132: Federalism

Executive Order 13132 (64 FR 43255, August 10, 1999) does not apply to this rule because it will not have federalism implications (i.e., substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government).

6. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

Executive Order 13175 (65 FR 67249, November 9, 2000) does not apply to this rule because it will not have tribal implications (i.e., substantial direct effects on one or more Indian tribes, or on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes).

7. Executive Order 13045: Protection of Children From Environmental Health and Safety Risks

This rule is not subject to Executive Order 13045 (62 FR 19885, April 23, 1997), because it is not economically significant as defined in Executive Order 12866 and because EPA does not have reason to believe the environmental health or safety risks addressed by this action present a disproportionate risk to children.

8. Executive Order 13211: Actions That Significantly Affect Energy Supply, Distribution, or Use

This rule is not subject to Executive Order 13211 (66 FR 28355, May 22, 2001), because it is not a significant regulatory action as defined in Executive Order 12866.

9. National Technology Transfer Advancement Act

EPA approves State programs as long as they meet criteria required by RCRA, so it would be inconsistent with applicable law for EPA, in its review of a State program, to require the use of any particular voluntary consensus standard in place of another standard that meets requirements of RCRA. Thus, the requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) do not apply to this rule.

10. Executive Order 12988

As required by section 3 of Executive Order 12988 (61 FR 4729, February 7, 1996), in issuing this rule, EPA has taken the necessary steps to eliminate drafting errors and ambiguity, minimize potential litigation, and provide a clear legal standard for affected conduct.

11. Executive Order 12630: Evaluation of Risk and Avoidance of Unanticipated Takings

EPA has complied with Executive Order 12630 (53 FR 8859, March 18, 1988) by examining the takings implications of the rule in accordance with the Attorney General’s Supplemental Guidelines for the Evaluation of Risk and Avoidance of Unanticipated Takings issued under the executive order.
12. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low Income Populations

Because this rule proposes authorization of pre-existing State rules and imposes no additional requirements beyond those imposed by State law and there are no anticipated significant adverse human health or environmental effects, the rule is not subject to Executive Order 12898 (59 FR 7629, February 16, 1994).

13. Congressional Review Act

EPA will submit a report containing this rule and other information required by the Congressional Review Act (5 U.S.C. 801 et seq.) to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to the publication in the Federal Register. A major rule cannot take effect until 60 days after it is published in the Federal Register. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

AGENCY: Federal Communications Commission.

ACTION: Final rule.

SUMMARY: In this document, the Commission revises its pole attachment rules to promote competition and to reduce the potentially excessive costs of deploying telecommunications, cable, and broadband networks. The Commission also revises the telecommunications rate formula for pole attachments consistent with the statutory framework, reinterprets the Communications Act of 1934, as amended, to allow incumbent LECs to file complaints before the Commission if they believe a pole attachment rate, term, or condition is unjust and unreasonable, and confirms wireless providers are entitled to the same rate as other telecommunications carriers. In addition, the Commission resolves multiple petitions for reconsideration and addresses various points regarding the nondiscriminatory use of attachment techniques.

DATES: Effective June 8, 2011, except for §§ 1.1420, 1.1422 and 1.1424, which contain information collection requirements that have not been approved by the Office of Management and Budget. The Commission will publish a document in the Federal Register announcing the effective date for those sections.

Synopsis of Report and Order and Order on Reconsideration

1. In 1978, Congress added section 224 to the Communications Act of 1934, as amended (Communications Act or Act) thereby directing the Commission to ensure that the rates, terms, and conditions for pole attachments by cable television systems are just and reasonable. Section 224 also authorizes the Commission to regulate attachments
