[Docket No. USCG–2011–0308]

Drawbridge Operation Regulation; Illinois Waterway, Near Morris, IL

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Eighth Coast Guard District, has issued a temporary deviation from the regulation governing the operation of the KCS vertical lift span bridge to remain closed to navigation from 7 a.m. on Monday, May 23, 2011 through 7 a.m. on Thursday, May 26, 2011.

The closure is necessary in order to replace four haul cables on the bridge that allow the bridge to be raised. This maintenance is essential for the continued operation of the bridge. Notices will be published in the Eighth Coast Guard District Local Notice to Mariners and will be broadcast via the Coast Guard Broadcast Notice to Mariners System.

Navigation on the waterway consists of commercial and recreational fishing vessels, small to medium crew boats, and small tugs with and without tows. No alternate routes are available for the passage of vessels; however, the closure was coordinated with waterway interests who have indicated that they will be able to adjust their operations around the proposed work schedule. Small vessels may pass under the bridge while in the closed-to-navigation position provided caution is exercised. Due to prior experience and coordination with waterway users, it has been determined that this closure will not have a significant effect on vessels that use the waterway.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: April 26, 2011.

David M. Frank,
Bridge Administrator.
