Privacy Act

Anyone can search the electronic form of comments received in dockets by the name of the individual submitting the comment (or signing the comment, if submitted on behalf of an association, business, labor union, etc.). You may review a Privacy Act statement regarding Coast Guard public dockets in the January 17, 2008, issue of the **Federal Register** (73 FR 3316).

Information Collection Requests

1. *Title:* Security Plans for Ports, Vessels, Facilities, and Outer Continental Shelf Facilities and Other Security-Related Requirements.

OMB Control Number: 1625-0077.

Summary: This information collection is associated with the maritime security requirements mandated by the Maritime Transportation Security Act (MTSA) of 2002. Security assessments, security plans and other security-related requirements are found in Title 33 CFR chapter I, subchapter H, and 33 CFR Parts 120 and 128.

Need: This information is needed to determine if vessels and facilities are in compliance with certain security standards.

Forms: CG-6025, CG-6025A.

Respondents: Vessel and facility owners and operators.

Frequency: On occasion.

Burden Estimate: The estimated burden has decreased from 1,278,068 hours to 1,108,043 hours a year.

2. *Title:* Streamlined Inspection Program.

OMB Control Number: 1625-0085.

Summary: The Coast Guard established an optional Streamlined Inspection Program (SIP) to provide owners and operators of U.S. vessels an alternative method of complying with inspection requirements of the Coast Guard.

Need: Section 3306 of 46 U.S.C. authorizes the Coast Guard to prescribe regulations necessary to carry out the inspections of vessels required under 46 U.S.C. 3301 and 46 U.S.C. 3103. The Coast Guard relies on reports, documents, records of other persons and

other methods that have been determined to be reliable to ensure compliance with vessels and seamen requirements under 46 U.S.C. subtitle II. The Streamlined Inspection Program regulations under 46 CFR part 8, subpart E, offer owners and operators of affected vessels an alternative to traditional Coast Guard inspection procedures. Owners and operators of vessels opting to participate in the program will maintain a vessel in compliance with a Company Action Plan (CAP) and Vessel Action Plan (VAP) and have their own personnel periodically perform many of the tests and examinations conducted by marine inspectors of the Coast Guard. The Coast Guard expects participating vessels will continuously meet a higher level of safety and readiness throughout the inspection cycle.

Forms: Not applicable.

Respondents: Owners and operators of vessels.

Frequency: On occasion. Application and plan development occur only once at enrollment. Updates and revisions are required to be made every two years and the Officer in Charge, Marine Inspection (OCMI) and the company will review the plans every five years.

Burden Estimate: The estimated burden has increased from 2,496 hours to 2,774 hours a year.

3. *Title:* Enhanced Maritime Domain Awareness via Electronic Transmission of Vessel Transit Data.

OMB Control Number: 1625-0112.

Summary: The Coast Guard collects, stores, and analyzes data transmitted by LRIT to enhance maritime domain awareness (MDA). Awareness and threat knowledge are critical for securing the maritime domain and the key to preventing adverse events. Domain awareness enables the early identification of potential threats and enhances appropriate responses, including interdiction at an optimal distance with capable prevention forces.

Need: To ensure port safety and security and to ensure the uninterrupted flow of commerce.

Forms: None.

Respondents: Owners or operators of certain vessels.

Frequency: On occasion.

Burden Estimate: The estimated burden has increased from 150 hours to 204 hours a year.

Dated: April 29, 2011.

R.E. Day,

Rear Admiral, U.S. Coast Guard, Assistant Commandant for Command, Control, Communications, Computers and Information Technology.
