SUPPLEMENTARY INFORMATION:

I. Abstract

Under 35 U.S.C. 2 and 37 CFR 1.31–1.36, a patent applicant or assignee of record may grant power of attorney to a person who is registered to practice before the United States Patent and Trademark Office (USPTO) to act for them in a patent or application. A power of attorney may also be revoked, and a registered practitioner may also withdraw as attorney or agent of record under 37 CFR 1.36. The rules of practice (37 CFR 1.33) also provide for the applicant, assignee, or practitioner of record to supply a correspondence address and daytime telephone number for receiving notices, official letters, and other communications from the USPTO. Maintaining a correct and updated correspondence address is necessary so that official correspondence from the USPTO related to a patent or application will be properly received by the applicant, assignee, or practitioner. The USPTO’s Customer Number practice permits applicants, assignees, and practitioners of record to change the correspondence address or representatives of record for a number of patents or applications with one change request instead of filing separate requests for each patent or application.
Customers may request a Customer Number from the USPTO and associate this Customer Number with a correspondence address or a list of registered practitioners. Any changes to the address or practitioner information associated with a Customer Number will be applied to all patents and applications associated with that Customer Number.

The Customer Number practice is optional, in that changes of correspondence address or power of attorney may be filed separately for each patent or application without using a Customer Number. However, a Customer Number associated with the correspondence address for a patent application is required in order to access private information about the application using the Patent Application Information Retrieval (PAIR) system, which is available through the USPTO Web site. The PAIR system gives authorized individuals secure online access to application status information, but only for patent applications that are linked to a Customer Number. Customer Numbers may be associated with U.S. patent applications as well as international Patent Cooperation Treaty (PCT) applications. The use of a Customer Number is also required in order to grant power of attorney to more than ten practitioners or to establish a separate “fee address” for maintenance fee purposes that is different from the correspondence address for a patent or application.

In addition to the forms offered by the USPTO to assist customers with providing information in this collection, customers may also format requests using a Customer Number Upload Spreadsheet to designate or change the correspondence address or fee address for a list of patents or applications by associating them with a Customer Number. The Customer Number Upload Spreadsheet must be submitted to the USPTO on a computer-readable diskette or compact disc (CD), accompanied by a signed cover letter requesting entry of the address changes for the listed patents and applications. The spreadsheet and cover letter must be mailed to the USPTO and cannot be filed electronically. Customers may download a Microsoft Excel template with instructions from the USPTO Web site to assist them in preparing the spreadsheet in the proper format. The Customer Number Upload Spreadsheet may not be used to change the power of attorney for patents or applications.

This information collection includes the information necessary to submit a request to grant or revoke power of attorney for an application, patent, or reexamination proceeding, and for a registered practitioner to withdraw as attorney or agent of record. This collection also includes the information necessary to change the correspondence address for an application, patent, or reexamination proceeding, to request a Customer Number and manage the correspondence address and list of practitioners associated with a Customer Number, and to designate or change the correspondence address or fee address for one or more patents or applications by using a Customer Number.

### II. Method of Collection

By mail, facsimile, hand delivery, or electronically to the USPTO.

### III. Data

Estimated Total Annual Non-hour Respondent Cost Burden: $64,916.

There are no capital start-up, maintenance, or recordkeeping costs associated with this information collection. However, this collection does have annual (non-hour) cost burden in the form of filing fees and postage costs.

The two petitions in this collection have associated filing fees. The filing fee for both the Petition Under 37 CFR 1.36(a) to Revoke Power of Attorney by Fewer than All the Applicants and the Petition to Waive 37 CFR 1.32(b)(4) and Grant Power of Attorney by Fewer than All the Applicants is currently $400 (37 CFR 1.17(f)). Using the $400 fee for the 25 responses for these petitions, the USPTO estimates that the total filing fees for this collection will be $10,000 per year.

The public may incur postage costs when submitting the information in this collection to the USPTO by mail. The USPTO estimates that the average first-class postage cost for a mailed submission will be 88 cents for all items except for the Customer Number Upload Spreadsheet and that approximately $9,062 of the non-spreadsheet items will be submitted to the USPTO by mail. Due to the additional materials required for Customer Number Upload Spreadsheet submissions, including the diskette or CD and cover letter, the USPTO estimates that the average first-class postage cost for the 1,700 spreadsheet submissions will be $1.73. Therefore, the total estimated postage cost for this collection is approximately $54,916 per year.

The total (non-hour) respondent cost burden for this collection in the form of filing fees and postage costs is estimated to be $64,916 per year.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency’s estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, e.g., the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized or included in the request for OMB approval of this information collection; they also will become a matter of public record.
