

execution (total of \$0.0002 per share) instead of capturing the maker/taker spread of – \$0.0001 per share.

As mentioned above, when the Exchange launched in July 2010, this spread was zero (0). This increased fee per side of an execution (\$0.0001 per side instead of free) thus brings the internalization fee in line with the current maker/taker spreads.¹² The Exchange believes that the proposed fee is non-discriminatory in that it applies uniformly to all Members.

The Exchange believes that the proposed increased fee to \$0.0012 per share for the “MT” flag for routing to EDGX MPM using the IOCM routing strategy represents an equitable allocation of reasonable dues, fees, and other charges as such increased fee offsets the Exchange’s administrative and other operational costs. The fee increase represents a pass through by EDGA to its members of EDGX’s increased fee (from \$0.0010 to \$0.0012 per share) for removing liquidity from EDGX MPM, effective May 1, 2011. The \$0.0012 per share is competitive and superior to comparable exchange standard removal rates of \$0.0030 per share (Nasdaq), \$0.0030 per share (NYSE Arca), \$0.0023 per share (NYSE), and \$0.0028 per share (BATS BZX). The fee is also equitable as it is competitive with other fees assessed for routing strategies that access low cost destinations, such as ROUZ, as defined in Rule 11.9(b)(3)(c)(v) (yields Flag Z, \$0.0010 per share) and ROUD/ROUE, as defined in Rules 11.9(b)(3)(b) and 11.9(b)(3)(c)(i) (Flag T, \$0.0012 per share). The Exchange believes that the proposed fee is non-discriminatory in that it applies uniformly to all Members.

The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to the Exchange. The Exchange believes that the proposed rates are non-discriminatory in that they apply uniformly to all Members. The Exchange believes the fees and credits remain competitive with those charged by other venues and therefore continue to be reasonable and equitably allocated to Members.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

¹² The Exchange will continue to ensure that the internalization fee is no more favorable than each prevailing maker/taker spread.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3) of the Act¹³ and Rule 19b–4(f)(2)¹⁴ thereunder. At any time within 60 days of the filing of such proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

SMALL BUSINESS ADMINISTRATION

Small Business Size Standards: Waiver of the Nonmanufacturer Rule

AGENCY: U.S. Small Business Administration.

ACTION: Notice of Waiver to the Nonmanufacturer Rule for GEN II and GEN III Image Intensifier Tubes.

SUMMARY: The U. S. Small Business Administration (SBA) is granting a class waiver of the Nonmanufacturer Rule for GEN II and GEN III Image Intensifier Tubes, Product Service Code (PSC) 5855, Night Vision Equipment under North American Industry Classification System (NAICS) code 333314 (Optical Instrument and Lens Manufacturing). The basis for the waiver is that no small business manufacturers are supplying this class of products to the Federal government. The effect of this waiver will be to allow otherwise qualified small businesses to supply the products of any manufacturer on a Federal contract set aside for small businesses, Service-Disabled Veteran-Owned (SDVO) small businesses, Participants

¹⁶ 17 CFR 200.30–3(a)(12).

in SBA's 8(a) Business Development (BD) Program, or Women-Owned Small Business (WOSB) concerns.

DATES: This waiver is effective May 26, 2011.

FOR FURTHER INFORMATION CONTACT: Ms. Amy Garcia, Procurement Analyst, by telephone at (202) 205-6842; by Fax at (202) 481-1630; or by e-mail at amy.garcia@sba.gov.

SUPPLEMENTARY INFORMATION: Section 8(a)(17) of the Small Business Act (Act), 15 U.S.C. 637(a)(17), and SBA's implementing regulations require that recipients of Federal supply contracts set aside for small businesses, SDVO small businesses, Participants in the SBA's 8(a) BD Program, or WOSBs, provide the product of a small business manufacturer or processor, if the recipient is other than the actual manufacturer or processor of the product. This requirement is commonly referred to as the Nonmanufacturer Rule. 13 CFR 121.406(b), 125.15(c), 127.505. Section 8(a)(17)(b)(iv) of the Act authorizes SBA to waive the Nonmanufacturer Rule for any "class of products" for which there are no small business manufacturers or processors available to participate in the Federal market.

In order to be considered available to participate in the Federal market for a class of products, a small business manufacturer must have submitted a proposal for a contract solicitation or received a contract from the Federal Government within the last 24 months. 13 CFR 121.1202(c). The SBA defines "class of products" based on the Office of Management and Budget's NAICS.

The SBA received a request on August 13, 2010, to waive the Nonmanufacturer Rule for GEN II and GEN III Image Intensifier Tubes under Product Service Code (PSC) 5855, Night Vision Equipment, Emitted and Reflected Radiation, under North American Industry Classification System (NAICS) code 333314 (Optical Instrument and Lens Manufacturing).

On August 27, 2010, SBA published in the **Federal Register** a notice of intent to waive the Nonmanufacturer Rule for the above listed item. 75 FR 21427 (2010). SBA explained in the notice that it was soliciting comments and sources of small business manufacturers of this class of products. In addition, SBA conducted market research using the Dynamic Small Business Search (DSBS) database and no small business manufacturers that participate in the Federal market were identified. Lastly, on September 16, 2010, SBA posted a Sources Sought notice on <http://www.fbo.gov> that it was soliciting

comments and sources of small business manufacturers of this class of products.

In response to these notices, SBA received comments from fourteen (14) sources. One respondent, a large business, was identified as a manufacturer of GEN III image intensifier tubes. Thirteen (13) respondents were identified as small business suppliers, distributors, or integrators of GEN II and/or GEN III image intensifier tubes, night vision systems and/or related equipment. Of these respondents, three (3) sources requested that additional related items be considered for waiver: PVS-14, PVS-17, and AVS-9 night vision systems. However, SBA has identified, through market research, and as a result of findings in this case, that one or more small business manufacturers or component assemblers exist for PVS-14, PVS-17, and AVS-9 night vision systems, and, as such, these items do not qualify to be waived under the Nonmanufacturer Rule. 13 CFR 121.406(b), 125.15(c), 127.505. One (1) respondent claimed to be a small business manufacturer of GEN II image intensifier tubes. However, upon further investigation, the source does not qualify as a manufacturer under 13 CFR 121.406(b). Thus, no small business manufacturers of GEN II or GEN III image intensifier tubes that participate in the Federal market were identified.

Consequently, SBA has determined that there are no small business manufacturers of these classes of products, and is therefore granting the waiver of the Nonmanufacturer Rule for GEN II and GEN III Image Intensifier Tubes under PSC 5855, Night Vision Equipment, NAICS code 333314 (Optical Instrument and Lens Manufacturing).

Dated: April 29, 2011.

Director, Office of Government Contracting.
