

the technical basis for Agency positions and regulations. The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2. Pursuant to FACA and EPA policy, notice is hereby given that an *ad hoc* SAB Panel will hold a public teleconference to review EPA's Draft Oil Spill Research Strategy. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies.

**Background:** EPA's Draft Oil Spill Research Strategy discusses proposed research and collaborative approaches for four activities related to oil spills: Dispersants, alternative remediation technologies, coastal and inland restoration, and human health effects. The Deep Water Horizon spill identified the need for additional research on alternative spill response technologies; environmental impacts of chemical dispersants under deep sea application conditions; the fate and toxicity of dispersants and dispersed oil; chronic health effects for spill response workers and the public; and shoreline and wetland impacts, restoration and recovery. Accordingly, EPA developed the research strategy to address these needs, as they pertain to EPA's responsibilities for oil spills, and has requested that the SAB review their draft Strategy. Information about formation of the panel and the draft Strategy can be found at [http://yosemite.epa.gov/sab/sabproduct.nsf/fedgrstr\\_activites/Oil%20Spill%20Research%20Strategy?OpenDocument](http://yosemite.epa.gov/sab/sabproduct.nsf/fedgrstr_activites/Oil%20Spill%20Research%20Strategy?OpenDocument).

The panel held public teleconferences on April 11 and 12, 2011 (76 FR 16769–16770) to discuss the strategy. The purpose of the June 9, 2011, teleconference is for the Panel to discuss their draft advisory report.

**Availability of Meeting Materials:** The agenda and the draft Advisory Report on EPA Draft Oil Spill Research Strategy will be available on the SAB Web site at <http://www.epa.gov/sab> in advance of the meeting.

**Procedures for Providing Public Input:** Public comment for consideration by EPA's Federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a Federal advisory committee is different from the process used to submit comments to an EPA program office.

Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public can submit comments for a Federal advisory committee to consider as it develops advice for EPA. Input from the

public to the SAB will have the most impact if it consists of comments that provide specific scientific or technical information or analysis for SAB panels to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should contact the Designated Federal Officer for the relevant advisory committee directly. **Oral Statements:** Individuals or groups requesting an oral presentation at this public meeting will be limited to five minutes. Those interested in being on the public speakers list for the June 9, 2011 teleconference should contact Mr. Thomas Carpenter, DFO at the contact information noted above, by May 31, 2011. **Written Statements:** Written statements should be received in the SAB Staff Office by May 31, 2011 for the teleconference so that the information may be made available to the SAB Oil Spill Research Review Panel for their consideration. Written statements should be supplied to the DFO in the following formats: One hard copy with original signature and one electronic copy via e-mail (acceptable file format: Adobe Acrobat PDF, WordPerfect, MS Word, MS PowerPoint, or Rich Text files in IBM-PC/Windows 98/2000/XP format). It is the SAB Staff Office general policy to post written comments on the Web page for the advisory meeting or teleconference. Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its Web sites. Members of the public should be aware that their personal contact information, if included in any written comments, may be posted to the SAB Web site. Copyrighted material will not be posted without explicit permission of the copyright holder.

**Accessibility:** For information on access or services for individuals with disabilities, please contact Mr. Thomas Carpenter at the phone number or e-mail address noted above, preferably at least ten days prior to the meeting, to give EPA as much time as possible to process your request.

Dated: May 10, 2011.

**Anthony F. Maciorowski,**  
Deputy Director, EPA Science Advisory Board  
Staff Office.

## EXPORT-IMPORT BANK OF THE UNITED STATES

### Economic Impact Policy

This notice is to inform the public that the Export-Import Bank of the United States has received an application for a \$47 million long-term guarantee to support the export of approximately \$41 million worth of mining equipment and services to Australia. The U.S. exports will enable the Australian mining company to produce, on average, 36 million metric tons of iron ore per year during the 7-year repayment term of the guarantee. Available information indicates that new Australian production of iron ore will be sold in China. Interested parties may submit comments on this transaction by e-mail to [economic.impact@exim.gov](mailto:economic.impact@exim.gov) or by mail to 811 Vermont Avenue, NW., Room 947, Washington, DC 20571, within 14 days of the date this notice appears in the **Federal Register**.

**Jonathan J. Cordone,**  
Senior Vice President and General Counsel.
