

and recurrence of the illegal conduct alleged in the complaint while it allows BSA Provider Network to engage in legitimate, joint conduct. The proposed Consent Order does not affect BSA Provider Network's activities in contracting with payers on a capitated basis.

Paragraph II.A prohibits Respondent from entering into or facilitating agreements between or among any health care providers: (1) To negotiate on behalf of any physician with payer; (2) to negotiate with any physician as a payer; (3) to deal, refuse to deal, or threaten to refuse to deal with any payer; (4) regarding any term, condition, or requirement upon which any physician deals, or is willing to deal, with any payer, including, but not limited to price terms; or (5) not to deal individually with any payer, or not to deal with any payer except through BSA Provider Network.

The other parts of Paragraph II reinforce these general prohibitions. Paragraph II.B prohibits Respondent from facilitating exchanges of information between health care providers concerning whether, or on what terms, to contract with a payer. Paragraph II.C bars attempts to engage in any action prohibited by Paragraph II.A or II.B, and Paragraph II.D proscribes encouraging, suggesting, advising, pressuring, inducing, or attempting to induce any person to engage in any action that would be prohibited by Paragraphs II.A through II.C.

As in other Commission orders addressing health care providers' collective bargaining with health care purchasers, certain kinds of agreements are excluded from the general bar on joint negotiations. Paragraph II does not preclude BSA Provider Network from engaging in conduct that is reasonably necessary to form or participate in legitimate "qualified risk-sharing" or "qualified clinically-integrated" joint arrangements, as defined in the proposed Consent Order. Also, Paragraph II would not bar agreements that only involve physicians who are part of the same medical group practice, defined in Paragraph I.B, because it is intended to reach agreements between and among independent competitors.

Paragraphs III–VI require BSA Provider Network to notify the Commission before it initiates certain contacts regarding contracts with payers. Paragraphs III and IV apply to arrangements under which BSA Provider Network would be acting as a messenger on behalf of its member physicians. Paragraphs V and VI apply to arrangements under which BSA

Provider Network plans to achieve financial or clinical integration.

Paragraph VII.A requires BSA Provider Network to send a copy of the Complaint and Consent Order to its physician members, its management and staff, and any payers who communicated with BSA Provider Network, or with whom BSA Provider Network communicated, with regard to any interest in contracting for physician services.

Paragraph VII.B allows for contract termination if a payer voluntarily submits a request to BSA Provider Network to terminate its contract. Pursuant to such a request, Paragraph VII.B requires BSA Provider Network to terminate, without penalty, any payer contracts that they had entered into since it began its alleged restraint of trade in 2000. This provision is intended to eliminate the effects of BSA Provider Network's joint price setting behavior. Paragraph VII.C requires that BSA Provider Network send a copy of any payer's request for termination to every physician who participates in each group.

Paragraph VII.D contains notification provisions relating to future contact with physicians, payers, management, and staff. These provisions require BSA Provider Network to distribute a copy of the Complaint and Consent Order to each physician who begins participating in each group; each payer who contacts each group regarding the provision of physician services; and each person who becomes an officer, director, manager, or employee for three years after the date on which the Consent Order becomes final. In addition, Paragraph VII.D requires BSA Provider Network to publish a copy of the Complaint and Consent Order, for three years, in any official publication that it sends to its participating physicians.

Paragraphs VII.E and VIII–IX impose various obligations on BSA Provider Network to report or to provide access to information to the Commission to facilitate monitoring its compliance with the Consent Order.

Pursuant to Paragraph X, the proposed Consent Order will expire 20 years from the date it is issued.

By direction of the Commission.

**SUPPLEMENTARY INFORMATION:** The CCR is an e-Gov initiative within the Acquisition Systems Division. The primary objective of the CCR is to provide a web-based application that provides a single source of vendor information in support of the contract award and the electronic payment process of the Federal government. The CCR is also a registration system for grants and assistance awards. The CCR has 260 data fields, some of which are exempt from disclosure pursuant to Exemption 4 of the Freedom of information Act (FOIA), 5 U.S.C. 552(b)(4).

**Proposed Project**

*Crime Prevention Through Environmental Design: Linking Observed School Environments with Student and School-wide Experiences of Violence and Fear—New—National*

Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).

**Background and Brief Description**

Among the goals of the Centers for Disease Control and Prevention (CDC), National Center for Injury Prevention and Control (NCIPC) is to reduce the prevalence of violence among youth. Several important priorities included in the Center’s published research agenda focus on studying how physical environments influence behavior and risk for violence. The CDC has developed an observational tool called the Crime Prevention Through Environmental Design (CPTED) School Assessment (CSA) to assess the extent to which the physical characteristics of schools are consistent with Crime Prevention Through Environmental Design (CPTED) principles. The proposed research will allow an assessment of the validity of the CSA by examining the extent to which the CSA subscales, total CSA scores, and CPTED principles are related to fear and violence, and related variables. If the CSA tool is shown to measure characteristics of the school environment that are associated with fear and violence-related behaviors in school, then it may be used as the basis for research, design, and evaluation of interventions for schools seeking to prevent or reduce the occurrence of crime and violence. This may help formulate guidance for schools related

to (re)designing physical features of the environment and changing policies and procedures related to using the school environment.

In addition, an exploratory purpose of this research is to determine whether the CSA items can be divided reliably into supposedly distinct variables reflecting each of the CPTED principles. If we produce practical support for the assessment of these “CPTED variables,” then we will also assess validity by determining whether these variables are logically related to our measures of fear, violence and climate in schools.

Survey data from 75 students (25 each from 6th, 7th, and 8th grades) per school site will be collected from 50 middle schools selected and recruited from 13 school districts in the metro-Atlanta, Georgia area (approximately 3,750 total student participants), in addition to the observational (CSA) data collection. The student survey will assess variables such as school climate, and actual and perceived levels of school violence at each school. In addition, archival/ administrative data will be collected from each of the 50 schools on a School Site Data Form providing information on neighborhood and school characteristics from various sources (e.g., school site information reported by the school administrator, school district data available on the web, U.S. Census data, and school disciplinary records). There are no costs to respondents other than their time. The total annualized burden hours are 2650.
