SUPPLEMENTARY INFORMATION:

Title: Importation of Gypsy Moth Host Material from Canada.

OMB Number: 0579-0142.

Type of Request: Extension of Approval of an Information Collection.

Abstract: As authorized by the Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*), the Secretary of Agriculture may prohibit or restrict the importation, entry, exportation, or movement in interstate commerce of any plant, plant product, biological control organism, noxious weed, means of conveyance, or other article if the Secretary determines that the prohibition or restriction is necessary to prevent a plant pest or noxious weed from being introduced into or disseminated within the United States. This authority has been delegated to the Animal and Plant Health Inspection Service (APHIS), which administers regulations to implement the PPA. Regulations governing the importation of gypsy moth host material into the United States from Canada are contained in 7 CFR 319.77 through 319.77-5.

These regulations are intended to prevent the introduction of gypsy moth into noninfested areas of the United States by placing certain inspection and documentation requirements on gypsy moth host material (*i.e.*, regulated articles) imported from Canada. These regulated articles are: Trees without roots (*e.g.*, Christmas trees), trees with

roots, shrubs with roots and persistent woody stems, logs and pulpwood with back attached, outdoor household articles, and mobile homes and their associated equipment. Under the regulations, phytosanitary certificates, certificates of origin, or signed homeowner statements will be required for some of these regulated articles, depending on their place of origin in Canada and their destination in the United States. These requirements necessitate the use of information collection activities.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

- (3) Enhance the quality, utility, and clarity of the information to be collected; and

- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.0363228 hours per response.

Respondents: Canadian plant health authorities; growers, exporters, or shippers of Christmas trees, shrubs, logs, pulpwood, and other articles from gypsy moth-infested provinces in Canada; and private individuals entering the United States with mobile home or outdoor household articles.

Estimated annual number of respondents: 147.

Estimated annual number of responses per respondent: 15.170068.

Estimated annual number of responses: 2,230.

Estimated total annual burden on respondents: 81 hours. (Due to

averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 13th day of May 2011.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.

SUPPLEMENTARY INFORMATION:

Title: Importation of Tomatoes From Spain, Chile, France, Morocco, and Western Sahara.

OMB Number: 0579-0131.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests, including fruit flies, into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of fruits and vegetables into the United States from certain parts of the world are contained in "Subpart-Fruits and Vegetables" (7 CFR 319.56-1 through 319.56-50).

The regulations in § 319.56-28 allow tomatoes from Spain, Chile, France, Morocco, and Western Sahara to be imported into the United States subject to certain conditions designed to protect the tomatoes from infestation by the Mediterranean fruit fly (Medfly). Allowing tomatoes to be imported necessitates the use of certain information collection activities, including completing phytosanitary inspection certificates and maintaining records regarding trap placement and Medfly captures. The information we collect serves as the supporting documentation needed to confirm that the tomatoes meet the conditions set forth in the regulations.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.6876513 hours per response.

Respondents: Importers, foreign officials, shippers.

Estimated annual number of respondents: 34.

Estimated annual number of responses per respondent: 72.882352.

Estimated annual number of responses: 2,478.

Estimated total annual burden on respondents: 1,704 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
