of license renewal for energy-planning decision makers would be unreasonable.

This recommendation is based on: (1) The analysis and findings in the GEIS; (2) information provided in the environmental report and other documents submitted by Northern States Power Company; (3) consultation with Federal, State, local, and Tribal agencies; (4) the staff’s own independent review; and (5) consideration of public comments received during the scoping process and on the draft Supplemental Environmental Impact Statement.

The final Supplement 39 to the GEIS is publicly available at the NRC Public Document Room (PDR), located at One White Flint North, Public File Area O–1F21, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC’s Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at http://www.nrc.gov/reading-rm/adams.html. The accession number for the final Supplement 39 to the GEIS is ML11133A029. Persons who do not have access to ADAMS or who encounter problems while accessing the documents located in ADAMS, should contact the NRC’s PDR reference staff by telephone at (800) 397–4209 or (301) 415–4737, or by e-mail at pdr.resource@nrc.gov. In addition, the Red Wing Public Library, 225 East Avenue, Red Wing, Minnesota 55066, has agreed to make the final supplement available for public inspection.

For Further Information, Contact: Ms. Elaine Keegan, Projects Branch 2, Division of License Renewal, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Mail Stop O–11F1, Washington, DC 20555–0001. Ms. Keegan may be contacted by telephone at (800) 368–5642, extension 8517, or by e-mail at Elaine.Keegan@nrc.gov.

Dated at Rockville, Maryland, this 13th day of May, 2011.

For the Nuclear Regulatory Commission.

David J. Wrona,
Chief, Projects Branch 2, Division of License Renewal, Office of Nuclear Reactor Regulation.

NUCLEAR REGULATORY COMMISSION

[Docket No. 72–26; NRC–2011–0110]

Diablo Canyon Independent Spent Fuel Storage Installation; Notice of Docketing for Amendment Request No. 2 to Special Nuclear Materials License No. 2511

AGENCY: Nuclear Regulatory Commission.

DATES: A request for hearing and/or petition for leave to intervene must be filed by July 19, 2011.

FOR FURTHER INFORMATION CONTACT: John M. Goshen, Project Manager, Licensing Branch, Division of Spent Fuel Storage and Transportation, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, telephone: 301–492–3325; fax number: 301–492–3348; e-mail: john.goshen@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission (NRC or Commission) is considering an application dated January 31, 2011, from Pacific Gas and Electric Company (PG&E) to amend its Special Nuclear Material License No. SNM–2511, under the provisions of 10 CFR part 72, for the receipt, possession, storage and transfer of spent fuel, reactor-related Greater than Class C waste and other radioactive materials associated with spent fuel storage at the Diablo Canyon Independent Spent Fuel Storage Installation (ISFSI), located at the Diablo Canyon Nuclear Power Plant, Unit Nos. 1 and 2 site in San Luis Obispo County, California. If granted, the amendment will revise Materials License SNM–2511 as follows:

1. Changes to Technical Specifications (TS):
   a. TS 1.1, “Definitions,” is revised to include terms in support of high burnup fuel (HBF) selection criteria and the addition of neutron source assemblies (NSAs), and instrument tube tie rods (ITTRs).
   b. TS 2.0, “Approved Contents,” is revised in Tables 2.1–1 through 2.1–10 in support of HBF selection criteria and the addition of NSAs, and ITTRs.
   c. TS 2.0, “Approved Contents,” is revised to add new TS 2.3 and associated Table 2.3–1 to provide alternative calculations for burnup limits for fuel assemblies in a Multi-Purpose Canister (MPC)–32 to allow selection of HBF.
   d. TS 3.1.1, “Multi-Purpose Canister (MPC),” is revised to eliminate the vacuum drying option, which is not allowed for HBF, and to add a reference temperature of 70 °F for the MPC Helium backfill pressure range.
   e. TS 3.1.2, “Spent Fuel Storage Cask (SFSC) Heat Removal System,” is modified to allow the HI–STORM to be considered operable with up to 50 percent vent blockage (although removal of any blockage is still required on discovery).
   f. TS 3.1.4, “Supplemental Cooling System,” is added to provide the conditions and criteria for the supplemental cooling system (SCS).

2. Revision of the licensing basis as documented in the DC ISFSI Final Safety Analysis Report Update (FSARU) to:
   a. Upgrade the thermal analysis methodology to a three dimensional (3D) Computational Fluid Dynamics (CFD) model.
   b. Remove the requirement for 100% fuel failure coincident with 100% vent blockage.
   c. Change of some allowed component temperatures in the thermal evaluation (peak cladding, concrete, overpack metal, transfer cask lid neutron shielding).
   d. Reduce the required torque criteria for the MPC lift cleats, and
   e. Addition of design criteria for the SCS including a new accident for loss of SCS

3. An exemption from the requirements of 10 CFR 72.236(f) to allow use of a nonpassive SCS.

An NRC acceptance review, documented in a letter to PG&E dated April 14, 2011, found that the application contains sufficient information for the NRC staff to begin its technical review. This application was docketed under 10 CFR 72.16; the ISFSI Docket No. is 72–26 and will remain the same for this action. All other procedural requirements in Part 72 will be met as the NRC continues to process this license amendment request (see section II of this notice, “Opportunity to Request a Hearing”).
The Commission will approve the license amendment if it determines that the application meets the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act) and the Commission’s regulations, and pursuant to 10 CFR 72.58, the findings required by 10 CFR 72.40. These findings will be documented in a Safety Evaluation Report.

II. Opportunity To Request a Hearing

The Commission may issue either a notice of hearing or a notice of proposed action and opportunity for hearing in accordance with 10 CFR 72.46(b)(1) or, if a determination is made that the amendment does not present a genuine issue as to whether public health and safety will be significantly affected by the Director, Office of Nuclear Material Safety and Safeguards, or his designee, take immediate action on the amendment in accordance with 10 CFR 72.46(b)(2) and provide notice of the action taken and an opportunity for interested persons to request a hearing on whether the action should be rescinded or modified.

All documents filed in NRC adjudicatory proceedings, including a request for hearing, a petition for leave to intervene, any motion or other document filed in the proceeding prior to the submission of a request for hearing or petition to intervene, and documents filed by interested governmental entities participating under 10 CFR 2.315(c), must be filed in accordance with the NRC E-Filing rule (72 FR 49139, August 28, 2007). The E-Filing process requires participants to submit and serve all adjudicatory documents over the internet, or in some cases to mail copies on electronic storage media. Participants may not submit paper copies of their filings unless they seek an exemption in accordance with the procedures described below.

To comply with the procedural requirements of E-Filing, at least ten (10) days prior to the filing deadline, the participant should contact the Office of the Secretary by e-mail at hearing.docket@nrc.gov, or by telephone at 301–415–1677, to request (1) a digital ID certificate, which allows the participant (or its counsel or representative) to digitally sign documents and access the E-Submittal server for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a request or petition for hearing (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on NRC’s public Web site at http://www.nrc.gov/site-help/e-submittals/apply-certificates.html. System requirements for accessing the E-Submittal server are detailed in NRC’s “Guidance for Electronic Submission,” which is available on the agency’s public Web site at http://www.nrc.gov/site-help/e-submittals.html. Participants may attempt to use other software not listed on the Web site, but should note that the NRC’s E-Filing system does not support unlisted software, and the NRC Meta System Help Desk will not be able to offer assistance in using unlisted software.

If a participant is electronically submitting a document to the NRC in accordance with the E-Filing rule, the participant may seek assistance by contacting the NRC Meta System Help Desk through the “Contact Us” link located on the NRC Web site at http://www.nrc.gov/site-help/e-submittals.html by e-mail at MSIDS.Resource@nrc.gov or by a toll-free call at (866) 672–7640. The NRC Meta System Help Desk is available between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday, excluding government holidays.

Participants who believe that they have a good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland, 20852, Attention: Rulemaking and Adjudications Staff. Participants filing a document in this manner are responsible for serving the document on all other participants.

Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service. A presiding officer, having granted an exemption request from using E-Filing, may require a participant or party to use E-Filing if the presiding officer subsequently determines that the reason for granting the exemption from use of E-Filing no longer exists.

Documents submitted in adjudicatory proceedings will appear in NRC’s electronic hearing docket which is available to the public at http://ehd1.nrc.gov/EHD/, unless excluded pursuant to an order of the Commission, or the presiding officer. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or home phone numbers in their filings, unless an NRC regulation or other law requires submission of such information. With respect to
III. Further Information

Documents related to this action, including the application for renewal and supporting documentation, are available online in the NRC Library at http://www.nrc.gov/reading-rm/adams.html. From this page, the public can gain entry into the NRC’s Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC’s public documents. The ADAMS accession numbers for the documents related to this notice are: License Renewal Application dated January 31, 2011 (ML110400387), and the acceptance review letter dated April 14, 2011 (ML111050015). If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC Public Document Room (PDR) Reference staff at 1–800–397–4209, 301–415–4737 or by e-mail to pdr.resource@nrc.gov.

These documents may also be viewed electronically on the public computers located at the NRC’s PDR, O 1 F21, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852. The PDR reproduction contractor will copy documents for a fee.

Dated at Rockville, Maryland, this 11th day of May, 2011.

For the Nuclear Regulatory Commission.

Kimberly J. Hardin,
Acting Branch Chief, Licensing Branch, Division of Spent Fuel Storage and Transportation, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7710–12–P

RAILROAD RETIREMENT BOARD

Proposed Collection; Comment Request

SUMMARY: In accordance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) will publish periodic summaries of proposed data collections.

Comments are invited on: (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB’s estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

1. Title and purpose of information collection: Application for Reimbursement for Hospital Insurance Services in Canada; OMB 3220–0086.

Under section 7(d) of the Railroad Retirement Act (RRA), the RRB administers the Medicare program for persons covered by the railroad retirement system. Payments are provided under section 7(d)(4) of the RRA for medical services furnished in Canada to the same extent as those furnished in the United States. However, payments for the services furnished in Canada are made from the Railroad Retirement Account rather than from the Federal Hospital Insurance Trust Fund, with the payments limited to the amount by which insurance benefits under Medicare exceed the amount payable under Canadian Provincial plans.

Form AA–104, Application for Canadian Hospital Benefits Under Medicare—Part A, is provided by the RRB to a claimant seeking reimbursement for covered hospital services received in Canada. The form obtains information needed to determine the eligibility of the applicant and the amount of any reimbursement due. One response is requested of each respondent. Completion is required to obtain a benefit.

The RRB Proposes Non-Burden Impacting Formatting and Editorial Changes to Form AA–104

Estimate of Annual Respondent Burden

The estimated annual respondent burden is as follows:

<table>
<thead>
<tr>
<th>Form No.</th>
<th>Annual responses</th>
<th>Time (minutes)</th>
<th>Burden (hours)</th>
</tr>
</thead>
<tbody>
<tr>
<td>AA–104</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

2. Title and purpose of information collection: Employee Non-Covered Service Pension Questionnaire; OMB 3220–0154.

Section 215(a)(7) of the Social Security Act provides for a reduction in social security benefits based on
