

not constrain their function or deployment but will limit the potential for harmful interference to adjacent Wireless Communications Service (WCS) spectrum users by requiring SDARS licensees to notify WCS licensees prior to the deployment of new or modified SDARS terrestrial repeaters; (2) established a blanket-licensing regime for repeaters up to 12 kilowatts (kW) average equivalent isotropically radiated power (EIRP) to facilitate the flexible deployment of SDARS repeaters while ensuring that such repeater operations comply with the Commission's rules regarding RF safety, antenna marking and lighting, equipment authorization and international agreements; and, (3) established site-by-site licensing regime for repeaters operating above 12 kW (average) EIRP, or otherwise not in compliance with the rules adopted for SDARS terrestrial repeater operations.

The information collection requirements accounted for in this collection are necessary to determine the technical and legal qualifications of SDARS applicants or licensees to operate a station, transfer or assign a license, and to determine whether the authorization is in the public interest, convenience and necessity. Without such information, the Commission could not determine whether to permit respondents to provide SDARS services in the U.S. Therefore, the Commission would be unable to fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended.

Act (PRA) of 1995. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and (e) ways to further reduce the information collection burden for small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a currently valid OMB control number.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before June 27, 2011. ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget, via fax at 202-395-5167 or via e-mail to Nicholas_A_Fraser@omb.eop.gov and to the Federal Communications Commission via e-mail to PRA@fcc.gov and Paul.Laurenzano@fcc.gov. Estimated Time per Response: 0.002 hours-50 hours.

Frequency of Response: On occasion, one time, annual and biennial reporting requirements, recordkeeping requirement, and third party disclosure requirements.

Obligation to Respond: Mandatory as required by section 222 of the Communications Act of 1934, as amended, 47 U.S.C. 222.

Total Annual Burden: 350,704 hours.

Total Annual Cost: \$3,000,000.

Privacy Act Impact Assessment: No impacts.

Nature and Extent of Confidentiality: The Commission is not requesting that the respondents submit confidential information to the FCC. Respondents may, however, request confidential treatment for information they believe to be confidential under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: Section 222 of the Communications Act of 1934, as amended, 47 U.S.C. 222, establishes the duty of telecommunications carriers to protect the confidentiality of its customers' proprietary information. This Customer Proprietary Network Information (CPNI) includes personally identifiable information derived from a customer's relationship with a provider of telecommunications services. This information collection implements the statutory obligations of section 222. These regulations impose safeguards to protect customers' CPNI against unauthorized access and disclosure. In March 2007, the Commission adopted new rules that focused on the efforts of providers of telecommunications services to prevent pretexting. These rules require providers of telecommunications services to adopt additional privacy safeguards that, the Commission believes, will limit pretexters' ability to obtain unauthorized access to the type of personal customer information from carriers that the Commission regulates. In addition, in furtherance of the Telephone Records and Privacy Protection Act of 2006, the

Commission's rules help ensure that law enforcement will have necessary tools to investigate and enforce prohibitions on illegal access to customer records.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0053.

Title: Experimental Authorization Applications-FCC Form 702, Consent to Assign; and FCC Form 703, Consent to Transfer Control of Corporation Holding Station License.

Form Nos.: FCC Forms 702 and 703.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit and not-for-profit institutions.

Number of Respondents and Responses: 50 respondents; 50 responses.

Estimated Time per Response: 0.6 hours (36 minutes).

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection is contained in 47 U.S.C. sections 154, 301, 302 and 303.

Total Annual Burden: 30 hours.

Total Annual Cost: \$3,000.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: There is no need for confidentiality. However, if respondents wish to request that their information be withheld from public inspection, they may do so under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this revised information

collection to the Office of Management and Budget (OMB) after this comment period to obtain the three year clearance from them. The Commission is reporting a 6 hour increase and a \$600 annual cost increase. The reason for the increase is that the Commission is merging the burden estimates together into one comprehensive experimental authorization application information collection.

The Commission currently has OMB approval for FCC Form 702 under OMB Control Number 3060-0068 and for FCC Form 703 under OMB Control Number 3060-0053. The Commission is revising this information collection (IC) to merge FCC Form 702 into this collection. There is no change in the reporting or *16772 third party disclosure requirements. We are simply consolidating these two information collections into one comprehensive collection. Upon OMB approval, the Commission will discontinue OMB Control Number 3060-0068 and retain OMB Control Number 3060-0053 as the active OMB number.
