Agency Information Collection Activities: Announcement of Board Approval Under Delegated Authority and Submission to OMB

SUMMARY: *Background.* Notice is hereby given of the final approval of proposed information collection by the Board of Governors of the Federal Reserve System (Board) under OMB delegated authority, as per 5 CFR 1320.16 (OMB Regulations on Controlling Paperwork Burdens on the Public). Board-approved collections of information are incorporated into the official OMB inventory of currently approved collections of information. Copies of the Paperwork Reduction Act Submission, supporting statements and approved collection of information instrument(s) are placed into OMB's public docket files. The Federal Reserve may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

FOR FURTHER INFORMATION CONTACT:

Acting Federal Reserve Board Clearance Officer—Cynthia Ayouch—Division of Research and Statistics, Board of Governors of the Federal Reserve System, Washington, DC 20551 (202-452-3829). Final Approval Under OMB Delegated Authority of the Extension for Three Years, Without Revision, of the Following Report

Report title: The Recordkeeping and Disclosure Requirements Associated with the Guidance on Response Programs for Unauthorized Access to Customer Information.

Agency form number: FR 4100.

OMB control number: 7100-0309.

Frequency: Develop customer notice, one-time; Incident notification, event-generated.

Reporters: Financial institutions.

Estimated annual reporting hours:

Develop response program, 2,544 hours; Incident notification, 2,952 hours.

Estimated average hours per response:

Develop response program, 24 hours; Incident notification, 36 hours.

Number of respondents: Develop response program, 106; Incident notification, 82.

General description of report: This information collection is mandatory (15 U.S.C. 6801(b)). Since the Federal Reserve does not collect information associated with the FR 4100, confidentiality would not generally be an issue. However, confidentiality issues may arise if the Federal Reserve were to obtain a copy of a customer notice during the course of an examination or were to receive a copy of a Suspicious Activity Report (SAR; FR 2230; OMB No. 7100-0212). In such cases the information would be exempt from disclosure to the public under the Freedom of Information Act (5 U.S.C. 552(b)(3), (4), and (8)). Also, a federal employee is prohibited by law from disclosing an SAR or the existence of an SAR (31 U.S.C. 5318(g)).

Abstract: The FR 4100 is the information collection associated with the *Interagency Guidance on Response Programs for Unauthorized Access to Customer Information and Customer Notice* (security guidelines), which was published in the **Federal Register** in March 2005 (70 FR 15736). Trends in customer information theft and the accompanying misuse of that

information led to the issuance of these security guidelines applicable to financial institutions. The security guidelines are designed to facilitate timely and relevant notification to affected customers and the appropriate regulatory authority of the financial institutions. The security guidelines provide specific direction regarding the development of response programs and customer notifications.

Current Actions: On March 18, 2011, the Federal Reserve published a notice in the **Federal Register** (76 FR 14971) requesting public comment for 60 days on the extension, without revision, of the FR 4100. The comment period for this notice expired on May 17, 2011.

The Federal Reserve did not receive any comments.

Board of Governors of the Federal Reserve System, May 25, 2011.

Jennifer J. Johnson,
Secretary of the Board.

Proposed Project

“Evaluating the Effects of the ‘Reality Check’ Serial Drama on the HIV-related Attitudes and Behavioral Intentions of African American Youth”—NEW—National Center for HIV, Viral Hepatitis, STD, and TB Prevention (NCHHSTP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The purpose of this study is to evaluate the effects of an already-created serial drama intervention, “Reality Check,” on African American youth in the Atlanta, Georgia area. Young African Americans are very disproportionately affected by HIV/AIDS and other sexually transmitted infections (STIs). Social, demographic, and historic factors contributing to these high disease rates include poverty, poor access to preventive medical services, and homophobia, which causes some men who have sex with men (MSM) to be secretive about these activities and to be reluctant to be tested for HIV. Unfortunately, many persons infected with HIV are unaware of their infection and may be transmitting the virus, especially during the highly infectious acute infection stage. However, persons who become aware of their HIV infections reduce their risky behavior dramatically.

The study will evaluate the effectiveness of the innovative, theory-based HIV risk reduction serial drama intervention, “Reality Check,” among African Americans aged 13 to 21 years who attend clubs for youth in the Atlanta Metropolitan Statistical Area (MSA). The hypothesis to be tested is that “Reality Check” is effective in increasing intention for HIV testing, condom use, and abstinence, and in increasing tolerance for persons regardless of HIV status or sexual orientation, as compared with the comparison group. The study will use a cluster randomized trial design, with a wait-list comparison group and pre- and post-intervention assessments. Youth clubs serving minority and disadvantaged youth in the Atlanta MSA will be matched into pairs and randomly assigned to intervention and comparison conditions. The study sample will include at least 500 participants evenly divided between the two conditions. Eligible youth at all participating clubs will be invited to complete the pre-intervention questionnaire. The eligible youth at the intervention clubs will be shown the serial drama, which consists of 27, 3-minute episodes, in its entirety immediately after completing the questionnaire. Four weeks later eligible youth at all participating clubs will be invited to complete the post-intervention questionnaire. Eligible youth at clubs in the comparison group will be shown the serial drama immediately after the post-intervention assessment has been completed. If “Reality Check” is shown to be successful, it can be delivered cost-effectively and with substantial reach via various mechanisms, such as public buses with video monitors, on video kiosks, and on Web sites. There is no cost to respondents other than their time.
