

CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll free at 1-866-208-3676, or for TTY, (202) 502-8659. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and seven copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The Commission's Rules of Practice and Procedure require all interveners filing documents with the Commission to serve a copy of that document on each person on the official service list for the project. Further, if an intervener files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. This application is not ready for environmental analysis at this time.

l. The existing Taum Sauk Pumped Storage Project consists of: (1) A lower reservoir impounded by a concrete gravity dam downstream of the confluence of the East Fork Black River and Taum Sauk Creek; (2) an upper reservoir on the top of Proffit Mountain impounded by a rebuilt roller-compacted concrete dam; (3) vertical shaft, rock and concrete-lined tunnel sections, and a penstock conduit; (4) a pump-generating plant with two reversible pump units and two motor generators with a total installed capacity of 408 megawatts; (5) an excavated tailrace and open channel to the lower reservoir; (6) a 138-kilovolt switchyard/substation; (7) a gravel and sedimentation trap (bin wall) on the East Fork of the Black River; and (8) associated ancillary equipment.

m. A copy of the application is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support. A copy is also available for inspection and reproduction at the address in item h above.

You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via e-mail of new filings and issuances related to this or other pending projects. For assistance, contact FERC Online Support.

n. Scoping Process

The Commission intends to prepare an environmental assessment (EA) on the project in accordance with the National Environmental Policy Act. The EA will consider both site-specific and cumulative environmental impacts and reasonable alternatives to the proposed action.

Scoping Meetings

Commission staff will conduct one agency scoping meeting and one public meeting. The agency scoping meeting will focus on resource agency and non-governmental organization concerns, while the public scoping meeting is primarily for public input. All interested individuals, organizations, and agencies are invited to attend one or both of the meetings, and to assist the staff in identifying the scope of the environmental issues that should be analyzed in the EA. The times and locations of these meetings are as follows:

Agency Scoping Meeting

Date and Time: Thursday, June 23, 2011, at 9 a.m. (CDT).
Location: LaCharette Conference Room, Lewis and Clark State Office Building, 1101 Riverside Drive, Jefferson City, MO.

Public Scoping Meeting

Date and Time: Wednesday, June 22, 2011 at 6 p.m. (CDT).
Location: Lesterville R-IV School, Cafeteria, 33415 Hwy. 21, Lesterville, MO.

Copies of the Scoping Document (SD1) outlining the subject areas to be addressed in the EA were distributed to the parties on the Commission's mailing list. Copies of the SD1 will be available at the scoping meeting or may be viewed on the Web at <http://www.ferc.gov> using the "eLibrary" link (see item m above).

Environmental Site Review

Ameren Missouri and Commission staff will conduct a project environmental site review on Wednesday, June 22, 2011, at 8 a.m. CDT. All interested individuals, organizations, and agencies are invited to attend. All participants will be required to sign their name and show a government-issued, photo I.D. Participants must wear hard-soled

shoes; no sandals or open-toed shoes are allowed. Smoking will not be allowed on the site review, and firearms, knives, or weapons of any kind are not permitted on Ameren Missouri property. Please arrive 15 minutes early to allow time for visitor badging at the main security gate. All participants must contact Mr. Michael Lobbig of Ameren Missouri at (314) 957-3427 or by e-mail at mlobbig@ameren.com, by June 9, 2011, to attend the environmental site review.

At the scoping meetings, the staff will: (1) Summarize the environmental issues tentatively identified for analysis in the EA; (2) solicit from the meeting participants all available information, especially quantifiable data, on the resources at issue; (3) encourage statements from experts and the public on issues that should be analyzed in the EA, including viewpoints in opposition to, or in support of, the staff's preliminary views; (4) determine the resource issues to be addressed in the EA; and (5) identify those issues that require a detailed analysis, as well as those issues that do not require a detailed analysis.

Procedures

The meetings are recorded by a stenographer and become part of the formal record of the Commission proceeding on the project.

Individuals, organizations, and agencies with environmental expertise and concerns are encouraged to attend the meeting and to assist the staff in defining and clarifying the issues to be addressed in the EA.

Dated: May 23, 2011.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP11-485-000]

Distrigas of Massachusetts LLC; Notice of Application

Take notice that on May 18, 2011, Distrigas of Massachusetts LLC (DOMAC), 20 City Square, Suite 3, Charlestown, MA 02129, filed in Docket No. CP11-485-000, an application, pursuant to section 3 of the Natural Gas Act (NGA), as amended, and Parts 153 and 380 of the Commission's Regulations, for authority to construct, install and operate a heating valve and

Wobbe Index reduction (HVWIR) system at DOMAC's liquefied natural gas (LNG) terminal in Everett, Massachusetts, (HVWIR Project), all as more fully set forth in the application, which is on file with the Commission and open to public inspection. Specifically, DOMAC proposes to alter the means by which it adjusts the heating value and Wobbe Index of the regasified LNG it delivers to interconnecting pipelines and is requesting authority to replace its limited air injection system with a liquid nitrogen system for all of its regasified LNG send-out. DOMAC asserts the HVWIR Project will enable DOMAC to maintain the flexibility to receive cargos to meet customer demand, to ensure delivery reliability, and to comply with the specifications of the FERC tariffs of interconnecting pipelines. DOMAC proposes to commence operation of the HVWIR system by October 1, 2012.

Any questions concerning this application may be directed to Carol Churchill, Manager, Communications, Distrigas of Massachusetts, LLC, 20 City Square, Suite 3, Charlestown, MA 02129, at (617) 886-8759 or e-mail at carol.churchill@gdfsuezna.com; or Marc A. Silver, General Counsel, Distrigas of Massachusetts LLC, 20 City Square, Suite 3, Charlestown, MA 02129, at (617) 886-8763 or e-mail at marc.silver@gdfsuezna.com.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of the Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify Federal and State agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all Federal authorizations within 90 days of issuance of the Commission staff's FEIS to EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888

First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit an original and 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street, NE., Washington, DC 20426. This filing is accessible on-line

at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: June 15, 2011.

Dated: May 25, 2011.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Combined Notice of Filings #1

Take notice that the Commission received the following electric corporate filings:

Docket Numbers: EC11-62-000.

Applicants: Evergreen Wind Power III, LLC, Evergreen Gen Lead, LLC.

Description: Supplemental Letter of Evergreen Wind Power III, LLC, and Evergreen Gen Lead.

Filed Date: 05/24/2011.

Accession Number: 20110524-5092.

Comment Date: 5 p.m. Eastern Time on Tuesday, June 7, 2011.

Take notice that the Commission received the following electric rate filings:

Docket Numbers: ER11-3081-000.

Applicants: Florida Power & Light Company, NextEra Energy Duane Arnold, LLC, NextEra Energy Point Beach, LLC, NextEra Energy SeaBrook, LLC.

Description: Response of NextEra Nuclear Affiliates to the Data Request of Commission Staff.

Filed Date: 05/20/2011.

Accession Number: 20110520-5169.

Comment Date: 5 p.m. Eastern Time on Friday, June 10, 2011.

Docket Numbers: ER11-3192-001.

Applicants: The Dayton Power and Light Company.

Description: The Dayton Power and Light Company submits tariff filing per 35.37: FERC Electric Tariff, Volume No. 10 to be effective 3/26/2011.

Filed Date: 05/24/2011.

Accession Number: 20110524-5101.

Comment Date: 5 p.m. Eastern Time on Tuesday, June 14, 2011.
