CFR 165.13 apply to the regulated navigation area created by this temporary section. § 165.T05–0125.

(1) All vessels and persons are prohibited from entering and accessing this regulated navigation area, except as authorized by the District Commander or his or her designated representative.

(2) Persons or vessels requiring entry into or passage within the regulated navigation area must request authorization from the District Commander or his or her designated representative, by telephone at (410) 576–2693 or by marine band radio on VHF–FM Channel 16 (156.8 MHz), from 8 a.m. until 10 p.m. on July 23, 2011. All Coast Guard vessels enforcing this regulated navigation area can be contacted on marine band radio VHF–FM Channel 16 (156.8 MHz).

(3) All vessels and persons must comply with instructions of the District Commander or the designated representative.

(4) The operator of any vessel entering or located within this regulated navigation area shall:

(i) Travel at no-wake speed,

(ii) Stop the vessel immediately upon being directed to do so by any commissioned, warrant or petty officer on board a vessel displaying a Coast Guard Ensign, and

(iii) Proceed as directed by any commissioned, warrant or petty officer on board a vessel displaying a Coast Guard Ensign.

(d) Enforcement. The U.S. Coast Guard may be assisted in the patrol and enforcement of this regulated navigation area by any Federal, State, and local agencies.

(e) Enforcement period. This section will be enforced from 8 a.m. until 10 p.m. on July 23, 2011.

Dated: May 23, 2011.

William D. Lee,
Rear Admiral, U.S. Coast Guard, Commander, Fifth Coast Guard District.

BILLING CODE 9110–04–P
Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303–8960. EPA requests that if at all possible, you contact the person listed in the FOR FURTHER INFORMATION CONTACT section to schedule your inspection. The Regional Office’s official hours of business are Monday through Friday, 8:30 to 4:30, excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: Sara Waterson or Joel Huey of the Regulatory Development Section, in the Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303–8960. Sara Waterson may be reached by phone at (404) 562–9061, or via electronic mail at waterson.sara@epa.gov. Joel Huey may be reached by phone at (404) 562–9104, or via electronic mail at huey.joel@epa.gov.

SUPPLEMENTARY INFORMATION:

I. What action is EPA taking?

Based on EPA’s review of the quality-assured and certified monitoring data for 2007–2009, and in accordance with section 179(c)(1) of the CAA and EPA’s regulations, EPA proposes to determine that the Rome Area has attained the 1997 annual PM$_{2.5}$ NAAQS by the applicable attainment date of April 5, 2010.

On April 5, 2011, EPA published a final rulemaking making a determination of attainment to suspend the requirements for the Rome Area to submit an attainment demonstration and associated reasonably available control measures (RACM), a reasonable further progress (RFP) plan, contingency measures, and other planning State Implementation Plan (SIP) revisions related to attainment of the standard shall be suspended so long as the Area continues to attain the 1997 annual PM$_{2.5}$ NAAQS. See 76 FR 18650.

Today’s proposed action merely makes a determination that the Rome Area has attained the 1997 Annual PM$_{2.5}$ NAAQS by its applicable attainment date. This action is not a re-proposal of the attainment determination to suspend the requirements for the Rome Area to submit an attainment demonstration and associated RACM, a RFP plan, contingency measures, and other planning SIP revisions related to attainment of the standard. More information regarding the 1997 annual PM$_{2.5}$ standard and EPA’s determination of attainment for the Rome Area is available in 76 FR 18650 (April 5, 2011).

II. What is the background for this action?

As a nonattainment area for the 1997 annual PM$_{2.5}$ NAAQS, the Rome Area had an applicable attainment date of April 5, 2010 (based on 2007–2009 monitoring data). Pursuant to section 179(c) of the CAA, EPA is required to make a determination on whether the area attained the standard by its applicable attainment date. Specifically, section 179(c)(1) of the CAA reads as follows: “As expeditiously as practicable after the applicable attainment date for any nonattainment area, but not later than 6 months after such date, the Administrator shall determine, based on the area’s air quality as of the attainment date, whether the area attained the standard by that date.”

III. What is the air quality in the Rome area for the 1997 annual PM$_{2.5}$ NAAQS for the 2007–2009 monitoring period?

Under EPA regulations at 40 CFR 50.7, the 1997 annual primary and secondary PM$_{2.5}$ standards are met when the annual arithmetic mean concentration, as determined in accordance with 40 CFR part 50, Appendix N, is less than or equal to 15.0 $\mu$g/m$^3$ at all relevant monitoring sites in the subject area.

EPA reviewed the ambient air monitoring data for the Rome Area in accordance with the provisions of 40 CFR part 50, Appendix N. All data considered have been quality-assured, certified, and recorded in EPA’s Air Quality System database. This review addresses air quality data collected in the 3-year period 2007–2009, which is the period EPA must consider for areas that had an applicable attainment date of April 5, 2010.

<table>

<td>13–115–0003</td>
</tr>
<tr>
<td>With data substitution</td>
<td>Floyd</td>
<td>13–115–0003</td>
</tr>
</tbody>
</table>

As shown in the above table, during the 2007–2009 design period, the Rome Area met the 1997 annual PM$_{2.5}$ NAAQS both with and without data substitution. The official annual design value for the Rome Area for the 2007–2009 period is 13.3 $\mu$g/m$^3$. More detailed information on the monitoring data for the Rome Area during the 2007–2009 design period is provided in EPA’s April 5, 2011, final rulemaking to approve the clean data determination for the Rome Area for the 1997 annual PM$_{2.5}$ NAAQS. See 76 FR 18650.

IV. What is the effect of this action?

This action is only a proposed determination that the Rome Area has attained the 1997 annual PM$_{2.5}$ NAAQS by its applicable attainment date of April 5, 2010, consistent with CAA section 179(c)(1). Finalizing this proposed action would not constitute a redesignation of the Rome Area to attainment of 1997 annual PM$_{2.5}$ NAAQS until such time as EPA determines that the Area meets the CAA requirements for redesignation to attainment and takes action to redesignate the Area.¹

V. What is the proposed action?

EPA is proposing to determine, based on quality-assured and certified monitoring data for the 2007–2009 monitoring period, that the Rome Area has attained the 1997 annual PM$_{2.5}$ NAAQS by the applicable attainment date of April 5, 2010. This proposed

¹ Per section 176(c) of the CAA, transportation conformity requirements apply in areas that are designated nonattainment and those areas that are redesignated from nonattainment to attainment.
action is being taken pursuant to section 179(c)(1) of the CAA, and is consistent with the CAA and its implementing regulations.

VI. Statutory and Executive Order Reviews

This action proposes to make a determination of attainment based on air quality, and would not impose additional requirements beyond those imposed by state law. For that reason, this proposed action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Order 12866 (58 FR 51735, October 4, 1993);
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 et seq.);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 et seq.);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and
- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, this proposed determination that the Rome Area attained the 1997 average annual PM2.5 NAAQS does not have Tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), because the SIFs are not approved to apply in Indian country located in the states, and EPA notes that it will not impose substantial direct costs on Tribal governments or preempt Tribal law.

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Particulate matter, Reporting and recordkeeping requirements.

Authority: 42 U.S.C. 7401 et seq.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Approval and Promulgation of Implementation Plans and Designation of Areas for Air Quality Planning Purposes; Alabama, Georgia, and Tennessee: Chattanooga and Macon; Determination of Attainment by Applicable Attainment Date for the 1997 Annual Fine Particulate Standards

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to determine pursuant to Clean Air Act (CAA), that the Chattanooga, Tennessee-Georgia, fine particulate (PM2.5) nonattainment area (hereafter referred to as “the Chattanooga Area”) and the Macon, Georgia PM2.5 nonattainment area (hereafter referred to as “the Macon Area”) attained the 1997 annual PM2.5 national ambient air quality standards (NAAQS) by the applicable attainment date of April 5, 2010. The determinations of attainment were previously proposed by EPA on March 22, 2011, and were based on quality-assured and certified monitoring data for the 2007–2009 monitoring period. The Chattanooga Area is comprised of Hamilton County in Tennessee, Catoosa and Walker Counties in Georgia, and a portion of Jackson County in Alabama. The Macon Area is comprised of Bibb County in its entirety and a portion of Monroe County in Georgia. EPA is now proposing to find that both of the above-identified areas attained the 1997 annual PM2.5 NAAQS by their applicable attainment dates. EPA is proposing these actions because they are consistent with the CAA and its implementing regulations.

DATES: Comments must be received on or before July 5, 2011.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R04–OAR–2011–0408, by one of the following methods:

2. E-mail: benjamin.lynorae@epa.gov.

3. Fax: (404) 562–9019.

5. Hand Delivery or Courier: Ms. Lyncobae, Chief, Regulatory Development Section, Air Planning Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street, SW., Atlanta, Georgia 30303–8960. Such deliveries are only accepted during the Regional Office’s normal hours of operation. The Regional Office’s official hours of business are Monday through Friday, 8:30 to 4:30, excluding Federal holidays.

Instructions: Direct your comments to Docket ID No. EPA–R04–OAR–2011–0408. EPA’s policy is that all comments received will be included in the public docket without change and may be made available online at http://www.regulations.gov, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit through http://www.regulations.gov or e-mail, information that you consider to be CBI or otherwise protected. The http://www.regulations.gov Web site is an “anonymous access” system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through http://www.regulations.gov, your e-mail address will be automatically captured and included as part of the comment that is placed in the public docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD–ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.
