

SUMMARY: The Fish and Wildlife Service (Service), announces the availability of a final supplemental environmental impact statement (SEIS) which analyzes the environmental impacts associated with incidental take permits requested under the Endangered Species Act of 1973 (Act), as amended, for take of Alabama beach mouse (*Peromyscus polionotus ammobates*). For record of decision (ROD) availability, see **DATES**.

DATES: The ROD will be available no sooner than July 5, 2011.

ADDRESSES: Documents and other information submitted with the applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents to either of the following offices within 30 days of the date of publication of this notice: David Dell, U.S. Fish and Wildlife Service, 1875 Century Boulevard, Suite 200, Atlanta, GA 30345; or Field Supervisor, Fish and Wildlife Service, 1208-B Main Street, Daphne, AL 36526.

FOR FURTHER INFORMATION CONTACT: Mr. David Dell, Regional HCP Coordinator (See **ADDRESSES**), telephone: 404/679-7313; or Ms. Shannon Holbrook, Field Office Project Manager, at the Daphne Field Office (See **ADDRESSES**), telephone: 251/441-5871.

SUPPLEMENTARY INFORMATION: The Final SEIS analyzes the consequences of the proposed action and alternatives to the proposed action. The incidental take permits requested by Gulf Highlands LLC and Beach Club West, involve the construction, occupancy, use, operation, and maintenance of two residential and recreational condominium development projects on the Fort Morgan Peninsula in Baldwin County, Alabama.

On April 28, 2006, we published a notice of availability for a draft EIS (71 FR 25221). A Final EIS and ROD were advertised November 29, 2006 (71 FR 69141). Based on that Final EIS and review under the Act, two incidental take permits were issued by the Service in January 2007. As a result of legal challenges to the Service's decision to issue the incidental take permits, a preliminary injunction against the two developments was imposed May 3, 2007. Reevaluation of the projects on voluntary remand led to their withdrawal by the applicants for redesign. The applicants repositioned the proposed condominium projects about 600 feet further inland to avoid habitats considered essential for Alabama beach mouse survival and continued existence. This redesigned project would result in wetland fill

under jurisdiction of the Clean Water Act, so the Corps of Engineers became a cooperating agency in developing the SEIS. Revised project plans were submitted by the applicants in February 2009. A notice of availability for the Draft SEIS, incorporating the revised project plans, was published June 17, 2010 (75 FR 34476), for a 90-day public comment period. For ROD availability, see **DATES**.

The SEIS analyzes the preferred alternative, as well as a full range of reasonable alternatives, and the associated impacts of each. Alternative 3 (Preferred Alternative) concentrates the development on the eastern portion of the site and provides for dedication of 135 acres of Permittee-owned lands into conservation status via covenants, conditions, and restrictions attached to the property, and conditions on any incidental take permit that might be issued.

Authority: The environmental review of this project is being conducted in accordance with the requirements of the National Environmental Policy Act of 1969 as amended (42 U.S.C. 4321 *et seq.*) and its implementing regulations (40 CFR parts 1500 through 1508), and with other appropriate Federal laws and regulations, policies, and procedures of the Service for compliance with those regulations.

Dated: May 17, 2011.

Patrick J. Leonard,

Acting Regional Director.

Migratory Birds; Take of Migratory Birds by the Armed Forces

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice.

SUMMARY: The 2003 National Defense Authorization Act (Authorization Act) provided interim authority to members of the Armed Forces to incidentally take migratory birds during approved military readiness activities without violating the Migratory Bird Treaty Act (MBTA). The Authorization Act provided this interim authority to give the Secretary of the Interior (Secretary) time to exercise his/her authority under Section 704(a) of the MBTA to prescribe regulations authorizing such incidental take. The Secretary delegated this task to the U.S. Fish and Wildlife Service (Service). On February 28, 2007, the Service issued a final military readiness rule authorizing members of the Armed

Forces to incidentally take migratory birds.

The Authorization Act also stated that the period of application of interim incidental take authority would expire when the Service publishes a notice in the **Federal Register** that: (1) Prescribes regulations authorizing incidental take of migratory birds by the Armed Forces; (2) all legal challenges to the regulations have been exhausted; and (3) the regulations have taken effect. The Service hereby provides the notice required by the Authorization Act that the period of application for interim incidental take authority has expired. The Service prescribed the necessary regulations on February 28, 2007, the regulations took effect on March 30, 2007, and there were no challenges to those regulations filed during the allotted time period.

FOR FURTHER INFORMATION CONTACT: Dr. George Allen, Division of Migratory Bird Management, U.S. Fish and Wildlife Service, at 703-358-1825.

SUPPLEMENTARY INFORMATION: On December 2, 2002, the President signed the 2003 National Defense Authorization Act (Authorization Act). Section 315 of the Authorization Act provided that, not later than one year after its enactment, the Secretary of the Interior (Secretary) should exercise his/her authority under Section 704(a) of the MBTA to prescribe regulations authorizing the Armed Forces to incidentally take migratory birds during those military readiness activities authorized by the Secretary of Defense or the Secretary of the military department concerned. The Authorization Act further required the Secretary to promulgate such regulations with the concurrence of the Secretary of Defense. The Secretary delegated this task to the Service.

The Authorization Act also provided interim authority allowing members of the Armed Forces to incidentally take migratory birds during military readiness activities for a period beginning on the date of enactment of the Act (December 2, 2002) and ending on the date on which the Secretary publishes in the **Federal Register** a notice that—

(1) Regulations authorizing the incidental taking of migratory birds by members of the Armed Forces have been prescribed in accordance with the requirements of the Act;

(2) All legal challenges to the regulations and to the manner of their promulgation (if any) have been exhausted as provided in subsection (e) [which states that all challenges must be filed in Federal court within 120 days

of publication of regulations in the **Federal Register**]; and

(3) The regulations have taken effect. The Service published the military readiness final rule authorizing the referenced incidental take in the Federal Register on February 28, 2007 (72 FR 8931). The Service published the rule in coordination and cooperation with the Department of Defense and the Secretary of Defense concurred with the rule's requirements. Requirement 1 has, therefore, been satisfied. The rule became effective March 30, 2007, satisfying requirement 3. Regarding requirement 2, the statute of limitations for challenging the military readiness rule elapsed on June 28, 2007, and there were no challenges filed during the allotted 120-day time period. Therefore, the Service provides formal notice that the period of application for interim authority has expired.

Dated: May 17, 2011.

Acting Assistant Secretary for Fish and Wildlife and Parks.
