Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Revision to the Inspection and Maintenance (I/M) Program—Quality Assurance Protocol for the Safety Inspection Program in Non-I/M Counties

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the Commonwealth of Pennsylvania for the purpose of changing the quality assurance program for its motor vehicle inspection and maintenance program (I/M program). Specifically, the Commonwealth is amending a provision of its prior SIP-approved I/M program to amend the duration of the timing of quality assurance audits performed by the Pennsylvania Department of Transportation (PENNDOT) as part of their program oversight. The amendment allows for these audits to be conducted within five days of vehicle inspection, instead of the two day window allowed under the prior approved SIP. In the Final Rules section of this **Federal Register**, EPA is approving the Commonwealth's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.
