

the customer, including other deposit-based loans, if applicable. These include limits on:

- The number of periods that back-to-back advances may be made before a cooling-off period will be triggered;
- The number of months in which advances may be outstanding;
- The total amount or percentage of any deposit that may be advanced in any period; and
- The total amount or percentage of any deposit that may be used for repayment of the advance.

These limits should be adjusted, as appropriate, based on risks identified through account monitoring. For example, if a customer's direct deposits stop, no further extensions of credit should be permitted under the program.

Repayment Terms

Deposit advances should be permitted to be repaid by direct deposit or by separate payment in advance of the date a deposit would be debited without any additional fee. When program terms allow for substantial advances relative to the regular deposit amount, advances should be permitted to be repaid in more than one installment over an extended period of more than one month. National banks should not permit repayments of deposit advances that would overdraw the account or permit additional advances during any periods of account overdraft.

Monitoring and Risk Assessments

Deposit-advance accounts should be subject to reasonable periodic monitoring to ensure that circumstances have not changed that adversely affect credit risk and to identify excessive usage. Monitoring should include overdraft and returned-item activity in the account. There should be appropriate follow up with the customer, if warranted, about use of the account, repayment options, and credit alternatives.

Management Oversight

Bank management should receive regular reports on volume, profitability, and credit performance of the deposit advance program. These reports should segment accounts by level of line usage to identify excessive deposit-advance usage. Management also should receive reports that describe the status and outcome of internal reviews and evaluations of accounts identified as demonstrating excessive usage.

Charge-Offs

Deposit advances that are not repaid in accordance with the account terms should be charged off.

Dated: June 1, 2011.

John Walsh,

Acting Comptroller of the Currency.
